

The 2017 Kentucky Meeting: Your New Family Friendly Destination is **French Lick Resort**

Preliminary Program Guide
August 24-27, 2017

Kentucky Dental Association · French Lick Resort · French Lick, IN

Welcome to French Lick Resort!

On behalf of the Kentucky Dental Association Executive Board, Council on Annual Session and staff, welcome to the 2017 KDA Annual Meeting, Thursday, August 24th – Sunday, August 27th!!

Dr. Mark Moats, as Scientific Session Chairman, has worked very hard to tailor a lineup of continuing education courses that you, as members, have asked to be highlighted at the Annual Meeting. There will be more CE offerings on and around the exhibit floor space, allowing better accommodation of dentists, hygienists, assistants and administrative staff members to “do both” (courses and exhibit space) more conveniently. Mark has worked extremely hard since we are in a new location to make sure the quality of CE offerings are some of the best ever offered at an annual meeting.

On Thursday, there will be an “Opening Session” to help set the tone for member involvement and dentist-to-dentist interaction, in an effort to “bring the profession together again”, as we all work together for the overall common good of dentistry. First, on Thursday morning at 9:30 a.m., Dr.

Lee Ann Brady will speak on “Today’s Top Clinical Tips” - she is sponsored by Heraeus Kulzer & GC America. At 11:30 a.m., the 2017 William Marcus Randall Memorial Luncheon will begin & awards will be presented. Finally, at 12:30 p.m., Dr. Jim Willey, Director of the ADA Practice Institute will speak at our Opening Session.

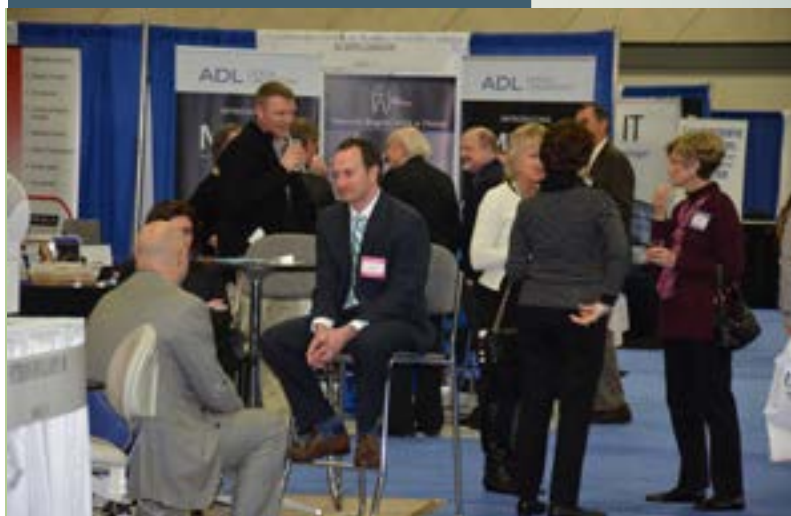

A party has been planned for Friday night from 7:00 p.m. until 10:00 p.m., complete with food, beverage and music/entertainment. Dental students, new dentists and matured dentists (of all ages!!) will come together to celebrate our profession, rekindle relationships and start new friendships that will last for years to come. Please make plans to join us Friday evening before you head to the casino.

We hope to see everyone August 24th through August 27th. Please bring your staff and family to French Lick Resort for the 2017 KDA Annual Meeting!

General Information

On-Site Registration

Located right outside of the Windsor Ballroom on Level 2 of the French Lick Springs Hotel, the registration desk is conveniently open during the following hours:

Friday, August 25, 2017 7:30 a.m. – 5:00 p.m.

Saturday, August 26, 2017 7:30 a.m. – 4:00 p.m.

Sunday, August 27, 2017 8:15 a.m. – 9:00 a.m.

On-site ticket sales only.

Tickets will be sold based on availability.

As a member benefit, registration is free of charge to KDA members.

Registration is also free to the following groups:

- American Dental Association members
(Proof of ADA membership is required upon registration)
- Dental Students
- Spouses who are not dentists
- Auxiliary members of the following groups:
 - Kentucky Dental Hygienists Association
 - Kentucky Dental Assistants Association
 - Kentucky Dental Laboratory Association
- Auxiliary members who are employed by a member of the ADA

Non-Members Can Attend for Only \$199.00!

Non-Members can register for the 2017 Kentucky Meeting for \$199.00. With this fee, attendees will receive one complimentary ticket to any ONE HOUR continuing education course presented in the exhibit hall on Saturday, August 26th. This fee also allows entry into the exhibit hall.

KDA Exhibit Hall

Free of charge to all Kentucky meeting registrants, the KDA exhibit hall features many exhibitors showcasing product lines and services. Take advantage of an opportune time to discover the newest dental equipment and supplies, with exhibitors on site to answer your questions.

Exhibit Hall Hours

Friday, August 25, 2017

7:30 a.m. – 5:30 p.m.

Saturday, August 26, 2017

7:30 a.m. – 5:30 p.m.

Closed Sunday

Support Our Exhibitors

Our exhibitors invest extensive resources to attend our meeting. We ask that an extra effort be made to purchase needed supplies and services from them at the meeting!

Ticketing Policy

All attendees who pre-register for the 2017 meeting will have their badge and/or tickets mailed in advance of the meeting. You do not have to purchase tickets in order to pre-register for the meeting. All tickets and badges will be mailed to the address indicated on the order form. **Please note that plastic badge holders will not be mailed and will be conveniently located on-site.** Completed forms must be postmarked by August 11, 2017.

Tickets may be purchased by MasterCard, Visa, check or money order. Fees will be assessed, up to the maximum allowed by law, for checks not honored by the bank. Tickets will be sold at the meeting depending on availability. There will be a \$10 per ticket increase if purchased at the door.

Ticket payment will not be refunded after 5:00 p.m. (EDT) Tuesday, August 22, 2017.

Please note that the KDA will not replace lost tickets!

CE Credits

Continuing education courses provided by the Kentucky Dental Association are recognized by the Kentucky Board of Dentistry and most other state licensing bodies. Continuing education requirements differ from state to state. Check with your state for specific requirements. Continuing education credit hours are shown on each synopsis.

Board of Dentistry: Continuing education credit hours are earned by attending courses presented at the meeting. Each course synopsis and course ticket lists the hours earned for attending. Members will be provided with a ticket allowing entry to each course, as well as proof of attendance. The course ID # given at the end of the course must be recorded on the ticket for it to be valid for CE credit.

Note: It is the attendees' responsibility to maintain these cards for their records.

Academy of General Dentistry: The Kentucky Dental Association is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Mastership and membership maintenance credit.

Approval does not imply acceptance by a state or provincial board of dentistry. Application is pending and will be retroactive to 1/1/17.

See the Kentucky Board of Dentistry website for additional CE information:

<http://dentistry.ky.gov/Pages/index.aspx>

General Information

William Marcus Randall Memorial Luncheon & Awards Presentation

TICKET #: SE I

Thursday, August 24, 2017

11:30 A.M. - 12:30 P.M.

Windsor B Ballroom

OPEN to EVERYONE!

Tickets: \$43.00

The 50 Year Club Awards, Presidential Citation Awards and Fellowship Awards will be presented during this luncheon.

KDA Office Closing

The KDA Executive Office will close at the end of business on Tuesday, August 22, 2017 and will reopen on Tuesday, August 29, 2017 at 9:00 a.m. (EDT).

CE Course Handouts are Paperless!

In an effort to minimize paper waste and benefit the environment, course handouts will be made available on the KDA's website at <http://www.kyda.org/the-kentucky-meeting.html>

Please note that some speakers have chosen not to provide handouts. These materials are not printed for distribution on-site. If you wish to have these materials to reference during the course, please bring a printed copy with you.

Badge Holders

Please note that plastic badge holders will not be mailed with pre-registration materials.

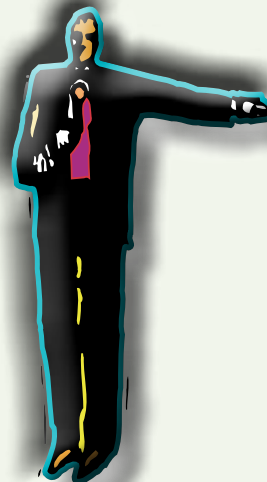

For your convenience, plastic badge holders will be available in the registration area during registration hours.

Calling All KDA Members

Is there a speaker on our program that you've wanted to meet? We are looking for those members interested in meeting, greeting and introducing the wonderful speakers we have on our program.

We offer any paid course at no charge for the person who introduces the speaker for that course. Some exceptions may apply. Call for details.

Duties include arriving early to the course to hand out information to the attendees. Once the course is ready to begin, intro-

duce the speaker.

During the presentation, be

available to attend to the needs of the speaker should any arise and enjoy the course. At the end, provide the course code numbers for the attendees to obtain CE credit and collect the CE cards. These cards are then returned to the registration desk on Level 2 of the French Lick Springs Hotel.

Call the KDA office as soon as possible to get the speaker of your choice!

Alumni Receptions

The University of Louisville and the University of Kentucky will be hosting alumni receptions on Friday, August 25th. This is a perfect time to catch up with fellow classmates.

University of Louisville

6:30 p.m. - 8:00 p.m.

University of Kentucky

6:30 p.m. - 8:00 p.m.

Non-Members Can Attend for only \$199!

Non-Members can register for the 2017 Kentucky Meeting for \$199.00. With this fee, attendees will receive one complimentary ticket to any ONE HOUR continuing education course presented in the exhibit hall on Saturday, August 26. This fee also allows entry into the exhibit hall.

Welcome Students!

We are doing our best to make our meeting more student-friendly! Students have their own badge classification, which allows them free access to our exhibit hall!

All students are invited to attend our President's Reception & Friday Night Social Event for KDA members, students and new graduates!

Don't miss all the fun! **It's FREE!**

Courageous Leadership for New Dentists and Dental Students. **FREE!**

TICKET #: SE 2

Friday, August 25, 2017

2:00 P.M. – 5:00 P.M.

Sponsored by P&G/Crest Oral B

Seats are limited - reserve your spot!

RSVP to Janet Glover at: janet@kyda.org or call her at 1-800-292-1855 or 502-489-9121

Why is this topic important?

The workplace is fraught with daily challenges—challenges that may provoke fear, stress, or even excitement. These challenges can inspire our courage or undermine our performance. This training is about helping individuals access their own courage and enlarge their capacity to be courageous so that they can meet these challenges with more confidence and less trepidation. This workshop, presented by Scott Hobart with Crest - Oral B, will help individuals dimensionalize their understanding of courage and provide them with specific tools on how to be more courageous more often.

The Five Courageous Leadership Premises

- Courage is a teachable and learnable skill.
- Everyone has the capacity to be courageous.
- People perform better and with greater passion when working with courage.
- People can use a host of techniques and approaches to build their courage.
- The entire organization benefits when everyone is working more courageously.

Scott Hobart is a 30-year veteran with Procter & Gamble.

He's won several awards for his work with retailers across the United States and Canada.

For several years, Scott served as the Dean of P&G's Sales Colleges and led leadership, sales and strategic thinking training.

Scott is a six-time recipient of the Learning Elite Award given by the Chief Learning Officer Magazine to the Top 1% of Corporate Training and Development Managers across the United States.

Currently, Scott leads education and scientific exchange with Dental and Hygiene Schools across the country.

President's Reception & Friday Night Social Event for KDA Members, Dental Students & New Graduates **FREE!**

TICKET #: SE 3
7:00 P.M. – 10:00 P.M.
French Lick Springs Hotel
FREE for Everyone (But you must have a ticket)
 (New Dentists are those out of dental school 10 years or less)
Sponsored by Delta Dental of Kentucky

This event is a celebration designed for KDA members, dental students and new dentists to welcome them to the profession and organized dentistry. **For the first hour, enjoy a dental student jazz duo!** Then, bring your dance shoes for a night of old time rock & roll. After, new dentists are invited again to attend an after party with pizza, bowling, and video games.

While you are resting from all that dancing, be totally entertained by Mr. Magic Dave, our resident magician for the evening! It's a great opportunity to spend time with friends, meet new ones, and find your home in organized dentistry through the KDA. You won't want to miss the fun!

Then at 10:00 p.m., join our "New Dentist After Party" and mingle with your friends! Be looking for more information about these two events in future KDA emails!

New Dentist Social After Party **FREE!**

10:00 P.M. – ???
Join us at Pluto's Alley located in French Lick Springs Hotel
Co-Sponsored by Lifetime Financial Growth of Kentucky & First Merchants Bank

Later on Friday night, after the ULSD and UKCD Alumni Receptions and the President's Reception & Friday Night Social Event, the New Dentist Committee will host another fun social event for new dentists, which are dentists who have been out of school for ten years or less. All Fourth Year Dental Students are invited to attend. It will be necessary to RSVP (See below). There will be pizza, bowling, and video games in Pluto's Alley!

More details will be given in your school at a later date. In past years, this has been a very well-attended activity, so make time to attend! The fun will begin at 10:00 p.m. and last until???

Please RSVP to Olivia Estes at oliviaestesdmd@gmail.com or to Rachel Gold at rgolddmd@gmail.com

Mark Your Calendar for the
2018
Kentucky Meeting
August 23-26, 2018
French Lick Resort French Lick, IN

Also New for 2017! See Our Exhibitor New Product Stage in the Exhibit Hall!

Here is how it works:

Interested Kentucky Meeting Vendors sign up to have up to 15 minutes to tell you about their company's new product or service on our Speaker/New Product Stage in the Exhibit Hall and will then be prepared to offer a door prize at their booth worth at least \$100.

They may also have premium give-a-ways on hand to distribute to the audience at the end of their 15 minutes.

Participating vendors will distribute a sign up sheet to use for the door prize drawing at their booth.

Door prize winners must be present to win. A list of participating vendors will be posted at the Speaker Stage inside the exhibit hall.

Seating is limited for these presentations, so don't miss out!

Participating Vendors:

Crest/P&G - Friday 1:30 p.m.-1:45 p.m.

KAGE Distributors - Friday 2:15 p.m.-2:30 p.m.

**Plus, Visit Your
Exhibitors and
Encounter Some
Fun Characters!**
*(Thank ya, Thank ya,
very much!)*

We will have lots going on in the exhibit hall, again this year. Last year, we saw Elvis, Miss Kentucky, and Mr. Sparkle liven up the aisles. Tooth fairies and zoo animals were also sited. This year, there will be more surprises as we learn about the latest products from our vendors and patrons in a venue you will want to invite both your family and office staff to attend.

P.S. **Elvis** might be back!

Table Clinic & Hobby Show

Participate in Our Annual Table Clinic and Hobby Show!

You are invited to participate in the annual Table Clinic and Hobby Show during the 2017 Kentucky Meeting to be held on Saturday, August 26, 2017 at French Lick Springs Hotel.

The Kentucky Dental Association will offer three separate clinic areas. One area is reserved for clinical clinics and information, the second area is for hobbies and crafts only and the third is for research clinics. Let's work together to make this the best year ever! There are cash awards for **each** area (clinical, hobby and research).

1ST Place is \$200.00

2ND Place is \$100.00

3RD Place is \$50.00

In past years this has been a very popular and well-attended feature at the annual meeting. There is so much information to share. This would be a great office project with everyone participating or hygienists and assistants could work together or separately to represent your office. Also, individuals are very welcome to present their clinic. There is ample time to put together

your program. Please encourage your spouse, family members and auxiliary personnel to be a part of the fun!

Table clinics may be anything you feel would be of interest to the profession and should be able to be presented in a minimal amount of time (5-10 minutes). New and improved techniques, time saving ideas, case presentations, innovative practice tips, collectibles and crafted items represent just a few of the possibilities.

I know there are many talented people and many wonderful hobbies in our association. Let's get together and share our recreational interests as well as enjoy this wonderful profession.

The Table Clinic and Hobby Show will be Saturday, August 26, 2017 from Noon – 2:00 p.m. **You are required to be present and remain with your clinic for the entire time.** One six-foot table or a tack board will be provided (per clinic) – no additional space is available. Please indicate whether you require a tack board or table for your presentation on the reservation form.

The set up time is 11:00 a.m. – NOON. Please set up your clinic at least one half hour prior to the session. The clinics will be assigned a particular space as reservations are received. Look for your name and topic displayed on each table. For students or groups, please identify the primary participant (one person) and then name each individual participant. Students use name only, not intended degree.

No Audiovisual Equipment Will Be Provided by the KDA!

So that the committee may make the necessary preparations to ensure that your clinic needs are met, it is requested that you complete the application and return it to the Kentucky Dental Association office by August 1, 2017.

All dental participants must be members of the Kentucky Dental Association.

Table Clinic & Hobby Show

Reserve Space for Me to Present

Leisurely Train Ride on the French Lick Scenic Railway

All aboard at the French Lick Scenic Railway for this exciting train ride through the rolling hills of the Hoosier National Forest in southern Indiana. Features include passage through a 2,200-foot long tunnel (the second longest rail tunnel in Indiana) and narration from this scenic railway. Sit back, relax and enjoy the clickity-clack.

Walking Tour of French Lick West Baden Museum

Experience the area's rich history circa 1900-1930. See the room-sized miniature Hagenbeck-Wallace Circus. Learn about the famous artists, politicians, and sports figures who once called the area home.

Scenic Boat Cruise on Patoka Lake

Enjoy the state's second largest, and cleanest, man-made lake with more than 27,000 acres of lush forests and wildlife viewing such as bald eagles and Osprey. Relax on board a 60' tour boat with indoor as well as open air upper deck viewing areas. Luncheon options are available aboard the boat or in their banquet facilities and can range from boxed to catered. Patoka Lake Winery opened in 2016 and includes tastings, lodging and cheese/dessert options.

Historic Landmarks Walking Tour of West Baden Springs Hotel

This former "Eighth Wonder of the World" was a lavish resort when opened in 1902. This 60-minute guided walking tour features the elegant atrium, restored lobby, lush gardens and mineral springs pavilions. Details related to the historic restoration project are highlighted.

Holiday World & Splashin' Safari Theme Park and Rides Santa Claus, IN

Patoka Lake Nature Center

There is something for everyone at Patoka Lake, whether you enjoy camping, fishing, boating, hunting or just being outdoors. Hike one of the four trails or bring your bike and cruise along a scenic bike path. Swim at the beach and enjoy a game of disc golf at the 18-hole course. See live raptors up close and tour the newly re-constructed Moery Cabin at the Nature Center. Fun for the whole family awaits you at Patoka Lake!

Elephant Encounter at Wilstem Ranch

March through October of 2017, experience the majestic beauty of three African elephants during this unique educational seminar that includes a one of a kind up-close encounter. This rare and wonderful opportunity gives guests the chance to learn about these amazing creatures and the ability to connect with them in a peaceful environment. Intimate options including spa treatments with the elephants are available.

Historic Landmarks Walking Tour of French Lick Springs Hotel

Located on 3,300 acres steeped in history and natural beauty, the French Lick Springs Hotel played host to political guests such as Presidents FDR and Ronald Reagan. The 60-minute walking tour features the rich history and culture of the area, celebrated guests who spent time at the hotel and details of the historic renovation project.

Registration Information

Register Early and Save

All course fees increase \$10 (per ticket) after August 11th. Tickets will be sold based on availability.

Use the registration form included in this brochure. Form may be copied. List all staff members, spouses, etc. on the doctor's form. Select CE courses or special event tickets. Complete form in its entirety and mail to the Kentucky Dental Association office by August 11th. Forms postmarked after August 11th will be returned. Forms that are not legible will also be returned. Registrations are processed in the order received. Fees are payable to the Kentucky Dental Association in U.S. funds by check, money order, MasterCard or Visa. Credit card users must supply a new credit card number within 24-hours of denial notification or ordered tickets will be returned to inventory. Fees will be assessed, up to the maximum allowed by law, for checks not honored by the bank.

Tickets **will not** be held. You may also register on-line at <https://www.kyda.org/ky-meeting-registration.html>

Lost Tickets

Lost tickets are replaced at the original cost based on availability.

Room Capacity

All rooms are set to maximum seating capacity. Space in limited attendance courses is restricted by the speaker to ensure quality instruction.

Please note that room space dictates the number of tickets available and courses could sell out before the meeting begins.

Pre-registration for the meeting does not guarantee a ticket for any particular CE course.

KDA Non-Solicitation Policies

All speakers are contracted by the Kentucky Dental Association. Utilization of said speakers by other persons or groups will not be permitted unless approved prior to the meeting by the Council on Annual Session.

With the exception of exhibitors operating with designated booth spaces, no attendee may solicit business on the exhibit floor or in any other Kentucky Dental Association convention space. Violation of this policy will result in expulsion from the meeting.

The Kentucky Dental Association does not promote any products that may be recommended by speakers, nor do the speaker's views necessarily represent those of the Kentucky Dental Association.

Refund Policy

Refund Deadline: August 22, 2017. Send written request for refund with badges and tickets to the Kentucky Dental Association, Attn: Todd Edwards, 1920 Nelson Miller Parkway, Louisville, KY 40223. No refunds will be given after the stated deadline regardless of the reason. Refunds are processed after the close of the meeting.

Your Comfort is Important!

We all have different ideas of the ideal indoor temperature – you may find the temperature in lecture rooms and the exhibit hall “too hot” or “too cold” for comfort. Try as we might, we can't guarantee the temperature will be “just right” for everyone, so please come prepared: dress in layers and bring a sweater or light jacket to the meeting.

Registration Materials

Badges, tickets and registration materials will be mailed to those who pre-register around the first of July, 2017. It is the responsibility of the attendees to bring all necessary items with them to the meeting. Obtain a plastic badge holder, on-site meeting program and a room assignment list at the registration desk during registration hours.

Also, please remember to check the KDA website at <https://www.kyda.org/the-kentucky-meeting.html> to see if the course you are attending has a handout.

On-site Registration Hours

Friday, August 25, 2017

7:30 a.m. – 5:00 p.m.

Saturday, August 26, 2017

7:30 a.m. – 4:00 p.m.

Sunday, August 27, 2017

8:15 a.m. – 9:00 a.m.

A Message From Your Meeting Planner

Dear KDA/ADA Member, I would like to encourage you to share this program with your staff members and your families as programs are mailed only to KDA/ADA members. We have events on our schedule in which family/staff members may like to participate. Bring your whole family and join us for the fun!

Sincerely, Janet Glover, KDA Director of Meetings

All program information has been compiled by Janet Glover, Director of Meetings.

Thursday's Opening Session

Welcome to the 2017 KDA Annual Meeting!
The keynote for our opening session this year is **James L. Willey, DDS, MBA**, Senior Director of the ADA Practice Institute, who will speak on the state of the dental market in 2017.

Thursday, August 24, 2017
12:30 P.M.-1:00 P.M.
OPEN to EVERYONE!

Learning Objectives: The State of the U.S. Dental Care Market

Dr. Willey will share significant insights related to the national dental economy, including major trends and forces reshaping the dental profession. He will also share unique indicators that compare the Kentucky oral health care system to national averages.

Part 1 The National Dental Economy

1. Understand the national dental economy and significant trends affecting utilization
2. Establish links between the national economy, dentist income and practice busyness
3. Review surprising projections related to the future supply of dentists
4. View latest data on the number of dentists employed by Dentist Service Organizations
5. Discuss major national forces reshaping the dental profession

Part 2 Kentucky Oral Health Care System Data

1. Share unique ADA data on the Kentucky oral health care system
2. Compare Kentucky oral health status, knowledge and attitude indices to national averages
3. View Kentucky Medicaid reimbursement and participation rates to national averages

Come one, come everyone! It's FREE!

Mark Your Calendar for the
2019 Kentucky Meeting
September 12-15, 2019
Galt House Hotel, Louisville, KY

Earn 2 CE Points by Visiting Your Exhibitors!

The Kentucky Board of Dentistry will no longer give 2 hours of CE credit for attending our meeting, **HOWEVER**, you may now earn up to **2 CE credits** by **visiting your exhibitors** in the exhibit hall. Simply complete up to **2 sign-off cards**, each containing ten sign-off squares, for a total of **2 CE points**. Each square must be stamped by a different exhibitor you have visited. You may find these cards at the KDA registration desk on the second floor lobby of French Lick Springs Hotel.

Seven KDA Leadership Positions Up for Election at French Lick

Dr. Mike Johnson, KDA Secretary-Treasurer, wishes to announce the election of KDA officers for the following positions at the following times:

General Assembly,
2-2:30 P.M. on Saturday, August 26
You must be a KDA member to qualify.

- 1) KDA Secretary-Treasurer (Five-year term*)
- 2) KDA Second Vice President (One-year term*)
- 3) ADA Delegate (Three-year term*)
- 4) ADA Delegate (Three-year term*)
- 5) ADA Delegate (Three-year term*)

This term starts at the end of 2018 KDA annual meeting.

- 6) ADA Alternate Delegate (Three-year term*)

This term starts at the end of 2018 KDA annual meeting.

House of Delegates,
immediately following
General Assembly at 2:30-4 p.m.
on Saturday, August 26

You must be a member of the KDA House of Delegates

- 7) KDA Speaker of the House (One-year term*)

**As currently stated in the KDA Bylaws*

If you are interested in running for one of these offices, contact Dr. Mike Johnson, KDA Secretary-Treasurer at drmike73@gmail.com

DR. LEE ANN BRADY
TICKET #: TMI

Thursday, August 24, 2017
9:30 a.m. – 3:30 p.m.

“Today’s Top Clinical Tips”

Sponsored by Heraeus Kulzer & GC America

4.5 C.E. HOURS

FEE: \$200.00 (Includes Lunch & Opening Session)

All proceeds benefit the Kentucky Dental Foundation

Lunch begins at 11:30 a.m.

Opening Session with guest speaker Dr. Jim Willey, Director of the ADA Practice Institute, begins at 12:30 p.m.

Dr. Lee Ann Brady continues at 1:00 p.m.

Open to All Attendees

Dentistry is changing at a rapid pace. Being successful and efficient is about staying on top of the newest trends and clinical tips. In this program Dr. Brady will present the top clinical tips and techniques she is teaching. Some are old tried and true approaches that remain successful, while others introduce brand new materials and approaches. Tips will span the areas of prevention, posterior composites and indirect all ceramics.

Learning Objectives:

- Caries and Perio Prevention
- Posterior Composite Efficiency and Effectiveness
- Successful Bonding & Cementation
- Improved Posterior All Ceramic Restorations

See her Bio on page 50.

Audience Key

Your Comfort Is Important To Us!

We all have different ideas of the ideal indoor temperature – you may find the temperature in lecture rooms and the exhibit hall “too hot” or “too cold” for comfort. Try as we might, we can’t guarantee the temperature will be “just right” for everyone, so please come prepared: dress in layers and bring a sweater or light jacket to the meeting.

Per fire codes, once a course is full, attendees will not be allowed to sit on the floor, bring chairs in from another room or stand in the back.

Scientific Program Disclaimer

The Kentucky Dental Association and the Council on Annual Session and Scientific Session Committee make every effort to present high-caliber speakers in their respective areas of expertise. The speakers’ presentations in no way imply endorsement of any product, technique or service presented during these presentations. The Kentucky Dental Association specifically disclaims responsibility for any material presented.

In addition, participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy.

Classroom Etiquette

Please remember to “silence” your cell phones and pagers while seated in classrooms. Please step outside to receive/conduct phone calls, so you do not disturb other attendees.

Save Time and Register Early for CE Courses!

- **Avoid a last minute rush in a new and unfamiliar location!**
- Use your time wisely!
- Because of space constraints, some CE courses may sell out early.
- Get to your class on time!

Smoking Policy

No smoking is permitted in any portion of the French Lick Springs Hotel.

DR. ALEX FLEURY
TICKET #: FM1

Friday, August 25, 2017
8:00 a.m. – 4:00 p.m.

“Three-Dimensional (3-D) Endodontic Instrumentation and Obturation”

Lecture and Hands-On

Limited to 50 Participants

Presented by Real World Endo®

Sponsored by Brasseler

6 C.E. HOURS

FEE: \$150.00

D, ST

At last Endodontic Evolution meets Endodontic Revolution! After two decades of research and experimentation with NiTi rotary instruments, an expandable rotary instrument has been created. New adaptive 3D files have produced a revolution in simplicity, efficiency and safety for you and your patients. These unique instruments expand at body temperature, effectively debriding and disinfecting oval and irregular shaped canals without compromising the structural integrity of the treated tooth. This body temperature transformation allows faster and safer instrumentation using less files than conventional techniques. The improved file-dentin interface allows minimally invasive root canal preparations that can easily be obturated using bioceramics. True 3-D instrumentation and obturation has arrived. Furthermore, all participants will have the opportunity to validate these concepts during the hands-on session. Real World Endo remains dedicated to the preservation of the natural dentition. A new era has begun!

During this lecture/hands-on session, participants will learn:

1. The basic foundations of Endodontic success.
2. The concept of anatomic shaping.
3. To triage Basic and Advanced cases and how to apply the correct instrumentation for each case.
4. Two different instrumentation techniques for managing different canal anatomies (conventional & 3D).
5. The benefits of sealer based obturation using bioceramics.
6. The various applications of ultrasonics.
7. How to use integrated apex locator-handpiece technology.
8. To place posts using a matching post and core system.

IMPORTANT: Please bring a file sample from your current rotary system to compare to ESX (a size 35 is ideal). In addition, any accessed, extracted teeth you may want to work on.

See his Bio on page 51.

DR. SANDA MOLDOVAN
TICKET #: FM2

Friday, August 25, 2017
8:30 a.m. – 11:30 a.m.

“Designing Smiles from the Inside Out”

Sponsored by NobelBiocare

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

D, H, A, ST

With an epidemic of inflammation going on worldwide, it is important to understand the emerging new health problems and how they affect post-surgical healing, as well as the long-term implant success rate.

This lecture will provide up-to-date information on:

- Assessing nutritional deficiencies in patients
- Practical ways to incorporate nutrition in your practice
- How certain nutrients impact healing in dental implant surgery
- Pre/post-surgical dietary supplementation protocols for oral surgery
- Genetic testing and implications in poor healing
- The latest on homeopathics and supplements and the impact they have in oral health

See her Bio on page 53.

DR. BRIAN NOVY
TICKET #: FM3

Friday, August 25, 2017
8:30 a.m. – 11:30 a.m.

“The Potty Mouth Predicament”

Sponsored in part by GC America

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

D, H, A, ST

Sometimes it seems as though our patients don't grasp the basic concept of home care. Other times our patients with impeccable hygiene develop rampant decay and we feel helpless because we can't figure out what's going on. The mouth is a remarkable environment that cariologists are finally beginning to understand, and so can you. Come learn everything you didn't know about plaque and the amazing organisms that make the mouth a wonderful place to work.

Course Objectives:

- Explain the mixed ecological approach to caries causation.
- Understand when to recommend appropriate therapies.
- Integrate basic salivary analysis into clinical practice.
- Stop “watching” lesions and see them get smaller.

See his Bio on page 54.

DR. MICHAEL SMITH
TICKET #: FM4

Friday, August 25, 2017
8:30 a.m. – 11:30 a.m.

**“Thoroughbred Composites:
Everyday Dentistry Providing
Exceptional Results”**

Lecture & Hands-On
Limited to 25 Participants

Sponsored by Ivoclar Vivadent, Inc.

3 C.E. HOURS

FEE: \$100.00 Dentists \$80.00 All others

D, A, ST

This class will introduce techniques and materials for anterior and posterior direct composites. The program will look at different composite materials from new bulk fill posterior techniques, along with multiple layering composite techniques for enhanced esthetics in anterior and posterior restorations. This class is designed to enhance your direct restoration placement, finish and efficacy to achieve optimal exceptional results with ease. The class will be a blend of materials, lecture and hands-on techniques using materials sponsored by Ivoclar.

See his Bio on page 54.

RACHEL WALL
TICKET #: FM5

Friday, August 25, 2017
8:30 a.m. – 11:30 a.m.

**“The Motivated Mind Set - Why We
Do What We Do”**

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

Open to All Attendees

Uncover the most common mistakes that when corrected can easily triple the amount of perio therapy you're performing, increase production, reduce stress and set you apart as a true healthcare professional.

- Resources to get the entire team on the same page with a common Perio Standard of Care
- Science-based rationale to overcome mental barriers that hold hygienists and dentists back from recommending ideal perio treatment
- Develop critical thinking skills to create customized treatment plans and increase case acceptance
- Specific language for presenting perio treatment to existing patients-and getting a surprisingly high acceptance rate

See her Bio on page 55.

**BUCKINGHAM
STRATEGIC WEALTH**
TICKET #: FM6

Instructors: Thomas Bodin, Rob Ziliak, Ned Kivett and Bill Bender

Friday, August 25, 2017
9:00 a.m. – 10:00 a.m.

**“Introduction to Wealth
Creation Strategies for
Dentists”**

Limited to 50 Participants

Presented in the Exhibit Hall

1 C.E. HOUR

FEE: \$35.00

Open to All Attendees

In this brief presentation, we will introduce the 10 concepts that provide context for all financial decisions affecting a practicing dentist. We will demonstrate how these concepts are used to plot a path to financial freedom and how to monitor your wealth creation throughout your career.

See their Bios on pages 50, 53 & 55.

LACI PHILLIPS
TICKET #: FM7

Friday, August 25, 2017
9:00 a.m. – Noon

**“Communication, Coding &
Collections: The Three C's of
the Profitable Practice”**

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

Open to All Attendees

When the first question a patient asks is “How much will my insurance pay?” our daily lives begin to revolve around insurance. Learn to step out of that mind set and step into customer service, quality health care and ultimately a profitable practice. Discover how excellent communication, proper coding and above average collections can impact your practice's efficiency and financial health. Walk out of this high energy course feeling energized with the realization, the revolution has just changed.

See her Bio on page 54.

DR. JACK KALL
TICKET #: FM8

Friday, August 25, 2017
10:30 a.m. – 11:30 a.m.

“Workplace Safety – Enhanced Protection Protocols”

Limited to 50 Participants

New Speaker Stage in the Exhibit Hall

1 C.E. HOUR
FEE: \$35.00
D, H, A, ST

Objectives:

- The participant will be made aware of OSHA's Hazard Communication requirements regarding mercury and safety data sheets for dental amalgam.
- The participant will be made aware of the basics of toxicology of elemental mercury.
- The participant will be made aware of the occupational risks of mercury exposure associated with the placement, polishing and removal of dental amalgam in their patients.
- The participant will be made aware of techniques to reduce and mitigate the resulting exposure to mercury vapor and particulate so that the dental office complies with federal regulations.
- The participant will be provided with the latest information about the EPA's rule on amalgam separators.

See his Bio on page 52.

PREVENTATIVE PRODUCTS ROUND-TABLE LUNCHEON: FOR DENTAL HYGIENISTS ONLY
TICKET #: FM9

Friday, August 25, 2017
11:30 a.m. – 1:30 p.m.

2 C.E. HOURS

FEE: \$65.00

Hygienists Only

Dental Hygienists won't want to miss this innovative Lunch & Learn program just for them! Representatives from the leading preventative products companies will participate in this interactive session where attendees will be seated at tables for lunch and company representatives will travel the room spending time at each table describing their newest materials and answering dental hygienists' questions.

DR. LESLIE HORN & DR. MEGAN McHUGH
TICKET #: FA10

Friday, August 25, 2017
Noon – 1:00 p.m.

“Periodontally Accelerated Osteogenic Orthodontics (PAOO) - Expanding Orthodontic Possibilities & Enhancing Periodontal Support”

Limited to 50 Participants

New Speaker Stage in the Exhibit Hall

1 C.E. HOUR
FEE: \$35.00

Open to All Attendees

This procedure involves the use of corticotomies and bone augmentation to enhance orthodontic tooth movement and bone repair. It works through the simultaneous stimulation of anabolic and catabolic activities using the regional accelerated phenomenon (RAP). RAP is the wounding of osseous tissues which results in accelerated reorganizing activity at the site of injury, “It becomes easier and simpler to move teeth”.

Advantages include the following:

1. It can increase the magnitude of individual tooth movement in three planes of space (4-6mm vs. 2-3mm)
2. Is an alternative to some forms of orthognathic surgery (in office procedure)
3. Increases bone support/thickness
4. Increases the amount of attached gingiva
5. Less root resorption
6. Less treatment time
7. Less relapse

Indications:

1. Crowded anterior teeth
2. Extruded teeth or need for extrusions
3. Narrow buccal corridors
4. Thin facial bone
5. Gingival recession/minimal keratinized tissue
6. Cross bite with recession

Relative Contraindications:

1. Long term use of corticosteroids
2. Bisphosphonates
3. Long term NSAIDS
4. Active infection (Endo/Perio)

Attendees will be able to accomplish the following:

1. Recognize patients who are candidates for this procedure and make appropriate referrals.
2. Understand the expanded orthodontic movement possible with this procedure and expedited treatment time, as well as, improved post treatment stability.
3. Understand the periodontal benefits including improved bone support and gain in attached gingiva.

See their Bios on pages 52 & 53.

DR. GEORGE KUSHNER
TICKET #: FA11

Friday, August 25, 2017
1:00 p.m. – 2:00 p.m.

“Bisphosphonates, Osteonecrosis of the Jaws (ONJ) and Dentistry - Where Are We Now and What Do We Know?”

1 C.E. HOUR

FEE: \$35.00

Open to All Attendees

There has been a new pathologic entity which was identified in the literature in 2003. Patients were found to have painful exposed bony areas of the jaws which occurred after simple dental procedures such as extractions. There were also reports of spontaneous exposures of bone in the jaws which were symptomatic. The common link was to the drug class of bisphosphonates. Bisphosphonates were given intravenously to cancer patients to combat the hypercalcemia often seen in multiple myeloma and metastatic cancers. This new condition was named osteonecrosis of the jaws (ONJ).

There are also oral forms of bisphosphonate drugs such as Fosamax, Actonel and Boniva. Although there is a higher incidence of osteonecrosis associated with IV administration of bisphosphonates, we have seen cases of ONJ associated with oral bisphosphonates that were prescribed to treat osteoporosis.

The lecture will review what we currently know about bisphosphonates, including recommendations for dental management and prevention of ONJ. We will also discuss what is uncertain at this early stage of the new pathologic entity.

Objectives:

1. The participant will understand the new pathologic entity named osteonecrosis of the jaws (ONJ) and the link to bisphosphonate drugs.
2. The participant will understand how modifications may have to be made in the treatment plan to accommodate bisphosphonate patients.
3. The participant will understand the current recommendations in prevention, management and treatment of ONJ.

See his Bio on page 53.

DR. PAT LITTLE
TICKET #: FA12

Friday, August 25, 2017
1:00 p.m. – 4:00 p.m.

“HIPAA Compliance, Data Breaches and Identity Theft: What You Don’t Know Can Hurt You”

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

Open to All Attendees

Medical and dental identity theft is now the fastest growing and most lucrative form of identity theft. Any breach that affects our patient’s private data can result in devastating legal and financial consequences. As individuals, we are also vulnerable to various types of cyber hacking and identity theft.

Additionally, random HIPAA audits are now being conducted with increasing frequency along with higher fines for non-compliance. If your office were randomly audited, or a patient filed a privacy complaint, would you be in HIPAA compliance? Can you afford the fines and loss of patient confidence?

Learn the steps to achieve and maintain HIPAA compliance and explore the real-world measures that practices must take to protect privacy and data.

Course objectives:

- Learn the steps and procedures needed to maintain HIPAA compliance
- Recognize and resolve computer and Internet threats
- Understand the types and modalities of identity theft
- Analyze hardware, software and data protection solutions
- Discover how to thwart low-tech identity theft (it’s still alive and well)

See his Bio on page 53.

RACHEL WALL
TICKET #: FA13

Friday, August 25, 2017
1:30 p.m. – 4:30 p.m.

“Understanding the Business of Hygiene - Uncovering Opportunity with the Hygiene Analysis”

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

Open to All Attendees

While patient care is the primary focus, practice statistics are often the gauge for measuring the level of care being provided. Knowing how to analyze and monitor hygiene department statistics enables you to know at any moment how well your systems are being implemented - when to celebrate and when to get re-focused.

- Uncover specific areas of the hygiene department that hold untapped potential for growth
- Learn the FIVE down and dirty hygiene department benchmarks to track and report every month
- Discover how open time in hygiene can actually be a good thing
- Determine the true level of periodontal disease awareness in YOUR practice

See her Bio on page 55.

DR. MICHAEL SMITH
TICKET #: FA15

Friday, August 25, 2017
1:30 p.m. – 4:30 p.m.

“Thoroughbred Composites: Everyday Dentistry Providing Exceptional Results”

Lecture & Hands-On

Limited to 25 Participants

Sponsored by Ivoclar Vivadent, Inc.

3 C.E. HOURS

FEE: \$100.00 Dentists \$80.00 All others

D, A, ST

This class will introduce techniques and materials for anterior and posterior direct composites. The program will look at different composite materials from new bulk fill posterior techniques, along with multiple layering composite techniques for enhanced esthetics in anterior and posterior restorations. This class is designed to enhance your direct restoration placement, finish and efficacy to achieve optimal exceptional results with ease. DR. BRIAN NOVY
TICKET #: FA14

Friday, August 25, 2017
1:30 p.m. – 4:30 p.m.

“How to Eat Candy”

Sponsored in part by GC America

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

D, H, A, ST

Depriving cariogenic bacteria of sugar is the cornerstone of traditional caries management, yet the science of CAMBRA (Caries Management by Risk Assessment) takes cariology to a whole new level. If you're still telling patients to, "Brush, floss, and use fluoride toothpaste" you're going to be surprised by the myriad of treatment options available today. Streptococcus mutans has more to fear than stronger fluoride and more of it, as dentistry embraces oral healthcare.

At the end of this course, participants should be able to:

- Identify risk factors leading to caries.
- Explain the role of commensals.
- Implement disease management in practice.
- Safely consume a variety of candy and sugary beverages.
- Prolong the life of restorations in all patients.

See his Bio on page 54.

DR. SANDA MOLDOVAN
TICKET #: FA16

Friday, August 25, 2017

1:30 p.m. – 4:30 p.m.

“Peri-Implant Maintenance for Long Term Success”

Sponsored by NobelBiocare

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

D, H, A, ST

The biggest disappointment for patients and practitioners is failure of dental implants after investing the time and money for the treatment. One of the most overlooked parts of implant therapy is hygiene and a robust peri-implant maintenance program. Many questions exist around this topic, such as to probe or not to probe around dental implants. However, more concise recommendations have been published in the last few years that we must be aware of. Recognizing early signs of peri-implant mucositis and peri-implantitis and resolving the inflammation in its early stages is important for long-term stability and success of dental implants. A review of the current literature on this topic will be presented. How to implement a hygiene maintenance protocol in your office for the patient with single implants AND a full arch prosthesis will be discussed.

The following topics will be addressed:

- Diagnosis of mucositis and peri-implantitis
- Understanding biofilms
- Salivary diagnostics to be implemented in the dental office
- Home care recommendations and review of the literature
- Hygiene instrumentation and protocol for peri-implant maintenance
- Checklist for dental implant in-office maintenance
- Discuss surgical (flap) vs. non-surgical (flapless) treatment solutions for peri-implantitis
- Discuss the use of lasers and ozone in decreasing peri-implant inflammation and how to recognize early signs of peri-implant problems at the maintenance appointment
- Learn how to recognize ill-fitting tissue interface and modify the prosthesis to allow for proper hygiene
- Recognizing the state of wellness vs. illness in our patients
- Understanding inflammation from a medical perspective/genetic testing
- Nutritional support for inflammation

See her Bio on page 53.

BUCKINGHAM STRATEGIC WEALTH

“Wealth Creation, Preservation and Your Practice”

3 C.E. HOURS

FEE: \$90.00 Dentists

\$70.00 All others

D, ST, SP

This program will provide a discussion related to the various stages of a dental career and how these stages affect your financial life. We will discuss important elements of financial management for the practice, including: practice benchmarking, retirement plan design and debt management. The practice financial elements will be tied to corresponding personal financial concepts, including: a personal financial balance guide, how to think about investments and how to tie practice performance to personal financial goals. Throughout this conversation, we will connect your practice and personal financial decisions and apply a framework for making successful financial decisions.

See their Bios on pages 50, 53 & 55.

“Dynamic Branding & Marketing: Bringing Your Story to Life”

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

Open to All Attendees

Have you always wanted to write the story of your life? That is exactly what Social Marketing is. This course will discuss the three key components to bringing your story to life: Branding, Marketing and your “Webutation”. Branding is Who You Are; it is the promises that you make to yourself and to your consumers. Marketing is discovering your target audience and implementing how to get the word out. And finally, your life is always changing and so could your “Webutation”, that is why monitoring it is essential. It is your story, let's bring it to Life!

“Obstructive Sleep Apnea: Looking Beyond the Teeth and Saving Lives!”

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

Open to All Attendees

Dentists are uniquely positioned among healthcare providers to easily evaluate for signs of obstructive sleep apnea. Oral appliance therapy performed by a qualified dentist can also be an effective treatment, literally saving lives. In this lecture, Dr. Spencer will review the basics of normal sleep, snoring and obstructive sleep apnea in adults and children. You will most likely be thinking that YOU and everyone you know must have sleep apnea before he is through! Don't worry though, he will also cover diagnosis and treatment of obstructive sleep apnea, including the dentist's role and appliance selection. If you or someone close to you may have sleep apnea (like your patients) you owe it to yourself and them to take this course and potentially change, or literally save, their lives.

Learning objectives:

- Understand normal sleep and how to improve sleep
- Understand how obstructive sleep apnea affects adults and children
- Become familiar with the dental aspects of screening for OSA
- Recognize how to choose the best oral appliance for your specific patient
- Understand how to avoid problems and minimize side effects of oral appliance therapy

PLEASE NOTE: Attendees may wish to attend the Dental Sleep Medicine Hands-On Workshop scheduled on Saturday, August 26, 2017 from 8:30 a.m. – 11:30 a.m. The hands-on course is limited to 32 participants and this lecture is a pre-requisite.

TICKET #: FA20

Friday, August 25, 2017
2:00 p.m. – 5:00 p.m.

“Complications in Dentistry”

3 C.E. HOURS

FEE: \$95.00

Open to All Attendees

As practitioners in the field of dentistry, we need to be aware that complications can and will occur during our treatment of patients. Fortunately, most of the complications that occur are not life threatening. However, many complications require extensive additional treatment and some complications can be life threatening. In years past, complications were not routinely discussed in the dental community. By evaluating a series of clinical complications, we can analyze the etiology and make practitioners aware of possible adverse sequelae. The management of these complications will be discussed. By studying complications, we can hopefully decrease the potential complication rate in our own patient population.

See his Bio on page 53.

& FRED FRISSE**
TICKET #: SM1

Saturday, August 26, 2017
8:00 a.m. – Noon

**“Fixed Teeth; Same Day - Predictable
Immediate Implant Hybrid Bridges”**

Sponsored in part by Biohorizons

4 C.E. HOURS
FEE: \$95.00 Dentists \$75.00 All others
D, H, A, OS, LT, ST

The Immediate Hybrid Implant Bridge embodies a concept that a patient walks in with no teeth or hopeless teeth and walks out with a fixed temporary hybrid implant bridge. In this lecture, we will go over cases that we have been

doing over the last several years. We will go over who is a candidate for this therapy and who is not. We will also cover steps in the final restoration of the patients, laboratory processes and surgical treatment. We will examine two different restorative options; one of which saves you time on your restoration. Most patients report that they have minimal pain compared with tooth extraction alone. Often patients say they had NO pain. This is similar to what you see advertised on television, but after this lecture you will see that you can do it too.

Learning objectives:

- Understand which patients are candidates for an immediate hybrid implant bridge.
- Show techniques on how to present this option to patients.
- Understand the steps and responsibilities of the general dentist and the surgeon in this process.

8:00 a.m. – 3:00 p.m.

**“Radiation Safety for Dental
Auxiliaries”**

6 C.E. HOURS
FEE: \$195.00
A

The Kentucky Board of Dentistry amended the minimal requirements of dental auxiliary personnel prior to taking dental radiographs under a dentist's direct supervision (201 KAR 8:570E). All dental auxiliary personnel must satisfy two (2) requirements before taking x-rays in a dental office:

1. Didactic - Completion of a course in radiation safety: This can be verified by providing proof of completion of the Radiography Section of the Dental Assistants National Board Examination or attending an approved continuing education (CE) course (6 hours) provided by a certified presenter.

2. Practical - A practicum course in x-ray technique (4 hours minimum): This is verified by a dentist's written documentation of a student's completion of four (4) hours of instruction in dental radiography technique in the practice or by attending a four (4) hour continuing education course in radiography technique sponsored by the Board.

This course satisfies the didactic requirements of the Kentucky Board of Dentistry. The course contains both theoretical and practical clinical topics including:

- Basic principles and concepts of radiation
- Exposure factors and how they affect the radiographic image
- Image receptors and processing of radiographs
- X-ray interaction with matter and potential biological effects
- Radiation safety for both patient and operator
- Principles of intraoral (bitewing/periapical/occlusal) imaging and clinical technique
- Criteria for diagnostic radiographs - technique and processing error recognition and correction
- Radiographic film mounting and labeling and record keeping
- Principles of Quality Assurance and implementation into clinical practice
- Occupational considerations including infection control principles, waste management principles and legal concerns
- Extraoral Radiography

Successful completion of the course requires a 75% pass in a multiple-choice question examination administered at the end of the course. Participants who successfully complete the examination will receive a certificate of completion and after fulfilling requirement (2) above are allowed to expose radiographs on patients under the direct supervision of a dentist.

**“The Walleectomy:
Embezzlement
in the Dental Practice”**

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

**Attendance is restricted to Dentists, Spouses
and Dental Students**

While internal controls are useful and important, they have limitations and may not be as effective as the doctor thinks. Many doctors fail to discover fraud and embezzlement until significant damage has occurred.

Learn how to mitigate damages by recognizing important warning signs associated with embezzlement and fraud and by understanding the characteristics and behaviors of an embezzler. Dr. Pat Little, Certified Fraud Examiner and accountant, shares actual embezzlement cases as teaching tools that take you into the mindset of an embezzler. In this eye-opening, fastpaced course, attendees gain techniques and tools to help protect financial assets in the practice and bring greater peace of mind.

Course objectives:

- Recognize the profile of a typical embezzler
- Gain access to a behavioral assessment which helps to identify red flag behaviors
- Understand what leads to embezzlement in dental offices
- Analyze the strength and limits of internal control strategies
- Identify the additional actions a doctor needs to take beyond internal controls
- Learn the steps for determining whether embezzlement might be occurring
- Discover what to do – and not to do – if embezzlement is suspected or discovered

“Dental Sleep Medicine”
Hands-On Workshop
Limited to 32 Participants

3 C.E. HOURS

FEE: \$100.00

D

In this hands on course we will discuss all of the practical matters related to treatment of patients with obstructive sleep apnea from appliance selection, records, fitting and follow up. The relationship between bruxism and sleep apnea will also be discussed as well as use of temporary appliances.

- Dental Sleep Medicine from initial screening to final follow-up
- Deeper dive into oral appliance selection
- Bite registration techniques with hands-on workshop
- Avoiding side effects
- Morning repositioner fabrication hands-on workshop

PLEASE NOTE: The lecture on Friday afternoon, August 25th from 2:00 p.m. – 5:00 p.m. is a pre-requisite to taking this Hands-On Workshop.

“Restoring the Worn and Failing Dentition”

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

D, H, A, ST

Restoration of the severely worn dentition is one of the most challenging procedures in dentistry. In order to successfully restore and maintain the teeth, one must gain insight into how the teeth arrived at this state of destruction. Tooth wear can result from abrasion, attrition and erosion. Research has shown that these wear mechanisms rarely act alone, and there is nearly always a combination of the processes. Evaluation and diagnosis should account for the patient's diet, history of eating and gastric disorders and influence of airway on the masticatory structures, along with the present state of the occlusion and its functional parameters.

Once a complete understanding of the etiology of the dentition's present state is appreciated, a treatment plan can be formulated, taking into account the number of teeth to be treated, condylar position, space availability, the vertical dimension of occlusion (VDO) and the choice of restorative material.

This course will give an overview of factors that should be considered for these patients. It will also review treatment parameters that should be considered, along with material selections that may help in long-term success with these cases.

Participants will gain knowledge in the following:

- Diagnostic parameters for the complex failing dentition patient
- Treatment planning parameters and options for the restoration of these patients
- Restoration and Materials options that will provide the best long-term clinical success

See his Bio on page 53.

DR. GERALD GRANT
TICKET #: SM6

Saturday, August 26, 2017
8:30 a.m. – 11:30 a.m.

“The Digital Dental Thread: Advanced Dental Digital Technologies”

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

D, H, A, ST

Advanced Dental Digital Technologies has become a reality in the practice of dentistry. Common-place in the large dental laboratories, it is beginning to be accepted in the smaller regional laboratories. How do we, as dentists, leverage this technology to incorporate our current practice philosophy, maintain cost from ever changing technologies, and develop a strategy to improve our services to our patients?

Introduction to Advanced Dental Digital Technologies

Discussion on the evolution of the use of digital technologies in the development of chairside systems, design, collaborations, medical devices, manufacturing, and the struggle dental companies had with implementation of this technology that has contributed to delayed acceptance of digital dentistry in practice.

Scan/Plan/ and Manufacture!!!

Presentation on Scan/capture, design, and manufacturing technologies and how they are applied to dental procedures. An open discussion on how to decide when digital technologies alone may not be advanced enough to provide that custom prosthesis or esthetics.

Workflows for your practice

Examples of workflow, depending upon how involved you want your practice to be in image capture, planning, and manufacturing of dental devices.

“Practice Dentistry Pain-Free: Evidence-based Strategies for a Long and Healthy Career”

Sponsored in part by SurgiTel/General Scientific Corporation

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

Open to All Attendees

A staggering 70% of dental professionals experience work-related pain that can affect quality of life, productivity or career longevity.

This research-based seminar for dentists, specialists, hygienists and assistants bridges the gap between dental ergonomics and work-related pain, so you can work more comfortably, productively and with less fatigue. Delivered with high energy and humor, you'll discover how dentistry, equipment selection, patient positioning, exercise and other factors are affecting your physical health. Learn how to implement powerful evidence-based strategies, both in the operator and at home, to reduce work-related pain, prevent injury and increase career longevity.

Course Objectives:

At the conclusion of the program, participants will be able to:

- Identify and implement appropriate ergonomic interventions for chronic back, neck, shoulder, hand or wrist pain.
- Identify & prevent the unique pain syndromes to which specialists (endo, pedo, perio, ortho and oral surgeons) are predisposed.
- Position patients, headrest, & overhead light correctly, depending upon arch and tooth surface being treated.
- Make effective ergonomic modifications to existing operatories and front office with minimal expense.
- Select ergonomic dental loupes that will benefit their neck health...not make it worse!
- Properly position the assistant chairside to reduce muscle strain.
- Identify the criteria for selecting and adjusting operator stool, patient chair & delivery systems.

Saturday, August 26, 2017
8:30 a.m. – 11:30 a.m.

“Polishing Your People Skills”

Sponsored by Dentsply Sirona

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

Open to All Attendees

Have you ever presented an idea only to feel like you are pulling teeth to get answers? Maybe you should start thinking as the skilled communicators do! Discover strategies used by experts to ensure buy-in and optimize results every time you speak or present...even to the most reluctant of people. In this lively and revealing interactive session, world-class communicator Dr. Tim Bizga will demonstrate why people feel, think and act the way they do. Key insights will show how to discover, experience and apply human behavioral principles that enhance interpersonal relationships and develop effective workplace partnerships.

Course Objectives:

- 1) Learn current trends in today's general practice and the market we exist in today
- 2) Talk common sense, “real-world” approach to treatment planning and the benefits of “Co-Diagnosis”
- 3) Understand personality styles via the DISC model of human behavior
- 4) Understand patient psychology and the WHY of patient decision making
- 5) Reinforce the value of great communication
- 6) Gain understanding how there is no “one-size fits all” approach to presenting treatment
- 7) Provide an effective method to having clients accept treatment more frequently

“Connecting the Dots: A Gingivitis Code Finally!”

Sponsored by VOCO Dental

2 C.E. HOURS

FEE: \$70.00 Dentists \$50.00 All others

Open to All Attendees

Your patient presents with inflamed, hemorrhagic gingiva, light to moderate subgingival calculus, light supragingival calculus on the mandibular lingual anteriors and generalized pseudo-pocketing. For all of the history of Current Dental Terminology (CDT) coding, there have been no truly accurate codes that can be used for the treatment this patient needs. In 2017, that story will change. Using current codes is required whether filing for benefits or basic record keeping. Coding and coverage are not the same. Reimbursements based on codes will be tied to outcomes in the future. Every dental team has a role. Learn how to connect the dots with new and old codes.

Learning Objectives:

Upon completion of this evidence-based clinical course, the participant will be able to:

- Identify dental benefits fact from fiction
- Protect themselves from fraud being committed under their license
- Know and guard against misuse of this new gingivitis code and not miss the disease present
- Create simple and effective “Twitter-Style” dental-medical necessity narratives

9:00 a.m. – Noon

“Financial Considerations of Practice Transitions”

3 C.E. HOURS

FEE: \$90.00 Dentists
\$70.00 All others

D, ST, SP

This program is a discussion of dental practice transitions from the buyer's and seller's perspective.

For the buyer, when is the right time to buy? How do you know if you have a fair price? What options are there to finance a practice transition? How do you move from associate to owner? For the seller, when is the right time to sell? How do you know if you receive a fair price? What are popular transition models and how do you know which is right for you and your practice? How do you move from owner to associate and, ultimately, transition out of dentistry? Throughout this conversation, we will provide a general framework for the financial and operational challenges dentists will face with a practice transition.

“19th Annual Economic & Investment Outlook - How Not to be Wrong: The Power of Mathematical Thinking”

3 C.E. HOURS

FEE: \$50.00

Open to All Attendees

This year's course will be a brilliant tour of mathematical thought and a guide to becoming a better thinker, investor, dentist and all-around good citizen. Math is not just a long list of rules to be learned and carried out by rote. Math touches everything we do. It's what makes the world make sense. Using the mathematician's methods and hard-won insights of experience, we will examine how math infuses everything from election results (you didn't see that coming, did you?) to baseball to the existence of God and the psychology of slime molds and, of course, the investment markets and investor decisions. Oh, yeah...and casino games. You really might want to attend this course before you hit the French Lick Resort casino. Seriously.

There are hidden structures beneath the messy and chaotic surface of our daily lives. I will be your tour guide as we spend a couple of hours looking at them as if walking through a zoo. When we are finished, you may never look at the world the same again (and might end up richer, too!)

My opening line will be something like “I never missed a single problem on any homework assignment, quiz or exam in Calculus I. I was recruited by the CIA and studied under a Nobel Prize winner at the University of Chicago. Now I run a hedge fund. I have much to teach you today and a short time to do so. Let's begin with survivorship bias. Look at the person to your left. Look at the person to your right. Who is the investment genius?”

“Know the Story of the Numbers”

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

Open to All Attendees

The numbers of the practice represent many things that are happening within the practice on a daily basis. With a clearer understanding of how to interpret the numbers, one will be well informed when it comes to a decision of becoming an associate, buying a practice or transitioning a practice. Amy, with D4metrics has spent the last 25+ years in the dental industry taking the story that the numbers tell and educating doctors and teams on how to use the data to increase, reduce, improve or create a practice they desire.

Things you will discover from this event:

- The power of the numbers and why they matter
- How to set achievable goals
- Three metrics you should know off the top of your head
- How knowing and tracking KPI's can help you communicate effectively with your team
- Whether there is enough patients in a practice for yourself or an associate or look good to a buyer

**“Exposed Roots and Cervical Lesions:
When to Graft, When to Restore and
When to do Both”**

Sponsored in part by Biohorizons

2 C.E. HOURS

FEE: \$70.00 Dentists \$50.00 All others

D, H, A, ST

What do I do when a patient has exposed root surfaces? When does a patient need a tissue graft? What material do I use to restore an abrasion lesion? When do I not restore an abrasion lesion? These are questions I get asked very often. There are published guidelines for this. During this presentation, I will show you the answers to these questions and give you some guidelines you can take home to your practice. We will discuss diagnosis of cervical lesions and mucogingival defects, the simple way to predict results of different grafting techniques and some restorative materials that have been shown to be biocompatible.

Course Objectives:

At the end of this course, participants should be able to:

- Understand the best material choices to soft tissue compatibility for Class V restorations of non-carious cervical lesions.
- Understand the published guidelines for treatment and diagnosis of cervical root exposure.
- Understand when tissue grafting is beneficial to correct recession.
- Understand different techniques for tissue grafting.

**“Fitness 101 for Dental
Professionals: Secrets for Comfort
and Career Longevity”**

*Sponsored in part by SurgiTel/General
Scientific Corporation*

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

Open to All Attendees

The delivery of dental care is demanding on the body. Dental professionals are prone to unique muscle imbalances and require special exercise, postural techniques and fitness guidelines to avoid pain syndromes, injury or early retirement. Generic routines like Pilates, yoga and Crossfit must be modified in order to be safe for dental professionals. Dr. Valachi shares her latest research in this interactive, fast-paced seminar that will provide attendees with knowledge that they can apply immediately to improve their overall health.

Course Objectives:

Participants will learn:

- Why dental professionals require specific exercise guidelines and how to incorporate an exercise program developed specifically for dental professionals.
- How to identify generic exercises that can actually create & worsen pain syndromes.
- How to incorporate chairside stretching into their workday.
- Self-treatment techniques for painful trigger points in the neck/shoulder.
- Criteria for selecting the right health care professional for their specific needs.
- How to combat the detrimental physical effects of stress.

“Effective Assisting”

Sponsored by Dentsply Sirona

3 C.E. HOURS

FEE: \$90.00 Dentists \$70.00 All others

D, H, A, ST

This dental assisting continuing education course is designed to teach dental assistants and EFDA's the skills necessary to better support their dentists in the everyday routines associated with a general dental practice. A lecture-based program, coupled with everyday practice essentials is the basis of this class. The topics covered will include basic material science, procedural protocols and topics related to patient care and treatment.

Course Objectives:

1. Learn the trade secrets of world-class employees
2. Define the importance of patient communication and patient education
3. Learn basic material science principles
4. Review current thoughts on light cure technology
5. Discuss the assistant's role in indirect procedures: including shade taking tips, a guide to simple dental photography and impression techniques that get the job done

“Patient Safety: A Common Sense Approach to Avoiding Patient Mishaps”

2 C.E. HOURS

FEE: \$70.00 Dentists \$50.00 All others

Open to All Attendees

Most patient safety models are designed around medical treatment and adapted from other industries. To have a good patient safety model, it must fit easily into your existing routine and have the support of your entire team. This lecture will be interactive and designed to facilitate teamwork to help develop processes and communication that will protect both the patient and your bottom line.

See his Bio on page 50.

Give to Your Kentucky Dental Political Action Committee. Your KDPAC Needs You More Than Ever!

Student Member	\$10.00
New Dentist Member	\$25.00
<i>(After 5 years of practice, individual membership rates apply)</i>	
Individual Membership	\$50.00
Century Club Membership	\$100.00
Millennium Club Membership	\$200.00

This is a voluntary contribution for dental political action and is not limited to the above amounts. No one will be favored or disadvantaged based upon the amount of, or failure to make a contribution. If your practice is incorporated, PAC contributions must be written on a personal check. Contributions are not deductible for federal income tax purposes. Federal law requires political committees to report the name, mailing address, occupation and name of employer for each individual whose contributions aggregate in excess of \$200.00 in a calendar year.

Make your contribution payable to:

“OSHA and Infection Control in the Dental Office 2017”

Sponsored by the Kentucky Dental Laboratory Association

3 C.E. HOURS
FEE: \$95.00
Open to All Attendees

Kentucky OSHA requires that all dental personnel be trained in the Blood-borne Pathogen Standard and the revised Hazard Communication/GHS Standard. Dental personnel should receive an initial training and thereafter, an annual update. This course reviews the following standards and guidelines and offers suggestions on how to implement them in your office:

- OSHA Hazard Communication Standard/GHS Standard (must comply by June 1, 2016)
- OSHA Bloodborne Pathogen Standard
- CDC Dental Guidelines 2016
- The Needlestick Safety and Prevention Act
- U.S. Public Health Service Guidelines for the Management of Occupational Exposures to HBV, HCV, and HIV and Recommendations for Post Exposure Prophylaxis
- CDC guidelines for Hand Hygiene in Healthcare
- CDC Dental Guidelines from 2003

This presentation will provide a very practical approach to implementing the regulations and guidelines in the dental office.

See her Bio on page 50.

FEE: \$100.00

Open to All Attendees

The Cardiopulmonary Resuscitation course will be conducted within the most recent updated guidelines of the American Heart Association. This course is three hours and will include adult, child and infant CPR, foreign body airway obstruction and an AED presentation.

Each participant will receive a two-year certification card the day of the class.

This course complies with the requirements of the Kentucky Board of Dentistry for dental hygienists for provisions stipulated in 201 KAR 8:560, for dental assistants for provisions stipulated in 201 KAR 8:570 and for dentists for provisions stipulated in 201 KAR 8:530.

DR. GEORGE KUSHNER TICKET #: SU2

Sunday, August 27, 2017
9:00 a.m. – Noon

“Medical Emergencies in the Dental Office”

3 C.E. HOURS

FEE: \$100.00

Open to All Attendees

Medical emergencies can and do occur in the dental office. With advances in the medical field, we as dental practitioners are seeing and treating a significant medically-compromised patient population as outpatients in our dental offices. Fortunately, most of the emergencies that occur are treated appropriately and there is little harm to the patient. However, improper management of these emergencies can have disastrous results. Likewise, proper management of the medical emergency is no guarantee of a successful outcome.

This course will review common medical emergencies and management of these problems. Clinical “pearls” will be discussed that can hopefully lessen the chances of these emergencies. This presentation should be applicable to all members of the dental office team.

This course is approved by the Kentucky Board of Dentistry and meets the requirements for dental hygienists for provisions stipulated in 201 KAR 8:560E.

See his Bio on page 53.

PATTY BONASSO BYRD TICKET #: SU3

Sunday, August 27, 2017
9:00 a.m. – Noon

“Recognizing Drug Abuse in Dental Patients and Kasper Update 2017”

3 C.E. HOURS

FEE: \$100.00

Open to All Attendees

Drug abuse is a major health problem in America and impacts every dental practice as well as our families. Dental professionals can play a huge role in drug abuse identification, prevention and intervention. Emphasis will be placed on increasing your skills and abilities to recognize the signs and symptoms of drug abuse, refer suspected drug abusers for help and treat recovering patients in your practice.

This course will also discuss the Kentucky All Scheduled Prescription Electronic Reporting System (KASPER), as well as current State and Federal regulations important to the prescribing of controlled substances by dentists licensed to practice in Kentucky.

Kentucky Board of Dentistry Emergency Regulation for Continuing Education Requirement (KASPER) See Page 11, No. 23, Section 10, a thru f. Dentists are required to complete 3 hours of continuing education that relates to the use of the electronic monitoring system, pain management or addiction disorders prior to renewing their license every renewal cycle.

At the conclusion of this course, the participant should understand:

- The signs and symptoms of illegal drug use/abuse (oral, physical and psychological).
- Drug interactions with substances used during oral care.
- Communication strategies when working with active or recovering patients.
- Resources available to support patients and dental professionals.
- The use of the KASPER system and current State and Federal regulations important to the prescribing of controlled substances by dentists licensed to practice in Kentucky.

See her Bio on page 50.

- 8:30 a.m.- ? KSOMS Annual Meeting

2017 Speaker Bios

Dr. Geoffrey Ball is a practicing general dentist with more than 15 years' experience, both in private practice and government service. Dr. Ball began his career by completing an AEGD at the University of Louisville 2003. He then went on active duty for United States Air Force, including a combat deployment. Dr. Ball completed a GPR program at University of Kentucky College of Dentistry in 2009. Throughout his career Dr. Ball has been a member of multiple root-cause analysis teams responsible for

identifying what led to patient mishaps or near mishaps. Furthermore, the teams made recommendations of systems which could prevent future mishaps using SMART metrics. Dr. Ball's passion for patient safety, in part, comes from medical mishaps that he has seen in his own family. Dr. Ball is the Past President and CE Chair for the Kentucky Academy of General Dentistry and has been involved with the Kentucky Dental Association since dental school.

As a wealth advisor, **Bill Bender** works with families to gain a full understanding of their unique goals, needs and concerns, and then helps them create a customized financial plan designed to provide security and peace of mind. By customizing retirement, education and estate planning, investments, philanthropic giving and tax strategies into a comprehensive, long-term wealth management experience, Bill works together with clients to keep them on the right track.

Prior to joining Buckingham, Bill managed Clarity Financial Planners in St. Louis. Until 2015, he served as a partner at Mason Road Wealth Advisors and spent more than three decades as a partner with BWTP CPAs, including 27 years as managing partner.

Bill received his bachelor's degree in business administration from Washington University in St. Louis and his master's degree in accountancy from the University of Missouri-Columbia. He is a board member of Delta Dental of Missouri, a nonprofit that promotes oral health.

Timothy M. Bizga, DDS, FAGD is a general dentist practicing in Cleveland, Ohio. His practice focuses on comprehensive care, with Dr. Bizga's special interests in implants, cosmetics and facial aesthetics. His background in dentistry is lengthy and diverse. Once a former chairside assistant, he also worked as a dental lab-technician, making his perspective unique among others in the field of dentistry. He graduated from Saint Louis University with a BA in Biology, before receiving his DDS from the University of Michigan

School of Dentistry, at which time he was the recipient of the Francis B. Vedder award for excellence in prosthodontics. He is currently a member of the American Dental Association and the Academy of General Dentistry. He is a graduating member of the Whetcap Institute, where he received advanced implant training. Dr. Bizga is a Certified John Maxwell Speaker/Trainer/Coach, a certified DISC profile trainer, clinical consultant for *The Dental Advisor* and member of Catapult Speakers Bureau. Dr. Bizga gives back to the community via dental missions around the world.

As the son of an entrepreneur, **Thomas Bodin, CFA, CFP®** and his family benefited greatly from the practical advice of their financial planner. His experience with the difference a qualified wealth advisor can make in people's lives engendered his desire to provide similar positive results for others.

Today, as a practice integration advisor with Buckingham, Tom helps dental and medical professionals connect the hard work they put into their practices with their most deeply held values and goals through a comprehensive, evidence-based approach to wealth management. In this role, Tom specializes in wealth generation and preservation strategies tailored to his clients' individual needs, including tax, pension and retirement planning.

Before joining Buckingham, Tom served as the chief financial officer for the Office of the Indiana Attorney General and, prior to that, as that office's chief economist.

Tom earned his bachelor's degree from Butler University in 2002 and an MBA from the University of Indianapolis in 2004.

Dr. Lee Ann Brady is a privately practicing dentist and nationally-recognized educator, lecturer and author. With an extensive history in leadership, previously as Executive VP of Clinical Education for Spear Education and Clinical Director of the Pankey Institute; Dr. Brady is currently the Director of Education for Clinical Mastery, providing hands-on and live patient programs across the country. Dr. Brady has also developed a vast library of

online instruction at www.leeannbrady.com. She practices in Glendale, Arizona, is a member of the editorial board for the *Journal of Cosmetic Dentistry*, *Inside Dentistry* and *Dentaltown Magazine*.

Patty Bonasso Byrd, RDH, BS is currently co-director of Infection Control at the University of Louisville School of Dentistry as well as in private practice.

In dental hygiene since 1978, Patty is a graduate of the University of Louisville Dental Hygiene Program. She received her BS in Occupational Training and Development in 2002. She is an active member of the American Dental Hygienists' Association as well as past president of KDHA.

Having an accomplished background in several dental hygiene arenas, such as clinician, national speaker, corporate educator, faculty, sales and author, she brings a wealth of experience and knowledge to her courses.

Dr. Jerry Caudill is the Kentucky State Dental Director for Avesis Incorporated, a Guardian Company. Avesis administers the dental benefits for four of Kentucky's five MCOs administering an aggregate 1.1 million Kentucky Medicaid patients for Aetna, Humana-CareSource, Passport and WellCare. He is a graduate of the UK College of Dentistry, a Fellow and Master of the Academy of General Dentistry and a Certified Dental Consultant by the AADC. Dr. Caudill is a board examiner for the Council of Interstate Testing Agencies

2017 Speaker Bios

(CITA Board) which administers the ADEX Board exam recognized in 46 states and territories, including Kentucky. He has practiced in rural Kentucky, Tennessee and North Carolina and participated in treating Medicaid patients in all three states. Dr. Caudill also practiced seven years in Dubai, UAE and Kuwait. He was the National Dental Director of a multi-state, 120-office DSO and Special Advisor to the Academy of General Dentistry National Taskforce on Corporate Dentistry. He is a former President of the North Carolina AGD and is a member of the ADA, KDA, LDS, AGD, KYAGD, ADEA, IAO, and AADC. In addition, he is board-eligible in the International Association for Orthodontics having completed over 500 CE hours and a five-year course of study in orthodontics from the United States Dental Institute. In 1991, he was among the first general dentists ever licensed in both general anesthesia & conscious sedation in Kentucky. Dr. Caudill has lectured on Medicaid dental administration, both statewide and nationally.

Bruno de Azevedo, DDS, MS is a Diplomate, American Board of Oral and Maxillofacial Radiology and an Assistant Professor, Oral and Maxillofacial Radiology at the University of Louisville School of Dentistry in Louisville, Kentucky.

As a recognized speaker and practice operations strategist, **Amy Deschamps** works with professionals to teach them to better understand that “the numbers” matter when a practice is looking to achieve results, make an impact and improve effectiveness within the dental business. Amy is a true thought leader who takes practices beyond the basic systems and strategies to an unparalleled level of application. With a wide-ranging clientele that includes individual, group and multi-practice entities, Amy is a transformation expert who has coached hundreds of dental professionals on the unfiltered story the numbers reveal about the health of the practice and the steps necessary to initiate specific goals and systems implementation for success. Her combination of business sense and compassion will leave you inspired and positioned with the tools to make positive changes for increased success.

Patti DiGangi, RDH, BS is an international speaker passionate about prevention, working with dental professionals to improve practice profitability. She is the author of the 2016 book *A Gingivitis Code Finally!* the fifth book in the *DentalCodeology* series of bite-sized books for busy people. She authored a chapter in *CDT 2017 Companion*. Patti holds publishing and speaking licenses with the American Dental Association for Current Dental Terminology and SNODENT Diagnostic Coding. She is a proud member of the National Speakers Association. She can be reached at www.DentalCodeology.com or info@DentalCodeology.com.

www.DentalCodeology.com or info@DentalCodeology.com.

Dr. Alex Fleury received his Masters of Science Degree in Oral Biology and Certificate in Endodontics from the University of Pennsylvania School of Dental Medicine. He received his DDS Degree in 1984 from the University of São Paulo. Dr. Fleury served as Director of Predoctoral Endodontics for six years at both, Nova Southeastern University School of Dental Medicine in Florida and Baylor College of Dentistry. He currently serves as Assistant Professor at Baylor College of Dentistry, working with Endodontic Residents. Of particular pride is being named the recipient of the “Edward E. Osetek Award” for best new Endodontic Educator of the year by the American Association of Endodontists. In addition, Dr. Fleury is honored to have been the recipient of the “Richard F. Weiss Achievement Award” presented by the Louis I. Grossman Study Club (University of Pennsylvania). He also served on the Scientific Advisory Board of the *Journal of Endodontics*, and as well serves as the Director of Educational Resources for *Real World Endodontics*. Dr. Fleury is currently in the full-time private practice of Endodontics in Dallas, Texas.

Dr. Michael B. Flynn is Professor of Surgery, Department of Surgery, Division of Surgical Oncology, University of Louisville. Medical School – University of Dublin, Trinity College. General Surgery Residency – University of Maryland Hospital. Fellowships – M.D Anderson Hospital and Tumor Institution – Surgical Oncology and Head & Neck Surgery. Chief of Surgery, Norton Hospital 1979-1982. President, Louisville Surgical Society 1982. President, Norton Hospital Medical Staff 1985. President, Society of Head & Neck Surgeons 1995. Clinical interests - Head & Neck Cancer, Endocrine Surgery.

Jason E. Ford, DMD, MD has been in a group practice in Oral and Maxillofacial Surgery in the Lexington, KY area for nine years. He is married to Lisa Ford D.M.D. and they have three children. Dr. Ford attended the University of Kentucky for undergraduate, dental school, medical school and his residency. He has served on the Kentucky Board of Dentistry since 2011.

Mr. Fred Frisse IV, CDT, TE is the owner of Frisse Dental Laboratory, which specializes in removable prosthetics and implants. He received his Degree in Dental Technology in 1976 from Southern Illinois University. He has served the dental community for 35 years as a Certified Dental Technician and is a 10-year member of the Select Study Club and Seattle Study Club. In his free time, Fred enjoys spending time with his sons, Fred V and Benton. He also enjoys hunting, fishing, clay target shooting and making teeth.

Susan Grammer graduated from the University of Louisville from the Dental Hygiene Program. She received her Master's in Education and taught at the University of Kentucky in an experimental Dental Hygiene Program that was based in Ashland, Kentucky. At the end of that year she accepted a position teaching at the University of Louisville School of Dentistry in the Expanded Duty Dental Assisting Program. After teaching in the Dental As-

2017 Speaker Bios

sisting Program, Ms. Grammer taught in the Dental Hygiene Program until last year. She is now teaching in the Radiology Department at the University of Louisville School of Dentistry and is currently Associate Professor in the Department of Oral Health and Rehabilitation. Ms. Grammer teaches all of the radiology courses in the Dental Hygiene Program, is co-course director of the DMD freshman Radiology course and teaches the laboratory and clinical portion of the DMD Radiology courses. She has also given numerous continuing education courses in Radiation Safety.

Dr. Gerald "Jerry" Grant is currently a Professor of Prosthodontics and Interim Chair of the Oral Health and Rehabilitation Department, University of Louisville, Kentucky and Immediate President of the American Academy of Maxillofacial Prosthetics. He recently retired after 33 years of service with the United States Navy as the Service Chief of the 3D Medical Applications Center, Department of Radiology at Walter Reed National Military Medical Center – a center he established for research, development and use of 3D printing and digital design for treatment of

Wounded Warriors world-wide. He received his D.M.D. degree from the University of Louisville, School of Dentistry in 1985, a certificate in Prosthodontics from the Naval Postgraduate Dental School, Bethesda, MD and a Masters from George Washington University in 1995, and a certificate in Maxillofacial Prosthetics from the Naval Postgraduate Dental School in 1999. He is a Diplomate of the American Board of Prosthodontics. Dr. Grant continues his area of research from the military with the University of Louisville in the validation and applications of Advanced Digital Dental Technologies, virtual surgical applications, Advanced Digital Applications in the design and fabrication of medical devices for craniofacial reconstruction, dental restoration and rehabilitation, and recently in bio-printing/bio-fabrication.

Dr. Leslie Horn graduated from the University of Kentucky College of Dentistry in 1991, which was the first dental class in the US that was over 50% female. She then finished her residency in 1993 and subsequently became the first female periodontist in Lexington, where she owns and operates Beaumont Periodontics. Dr. Horn is a member of American Dental Association, American Academy of Periodontology, Southern Academy of Periodontology, Kentucky

Dental Alumni Association and Blue Grass Dental Society, currently serving as Vice President. She has received several awards and honors and has been on a number of mission trips and participated in a volunteer capacity for other service programs. Dr. Horn currently lectures at various dental schools, study clubs and other dental organizations and events.

Ayaz P. Jafri, DMD is a graduate of the University of Louisville School of Dentistry Class of 1994. Dr. Jafri also received advanced training in a General Practice Residency at the Genesee Hospital in Rochester, NY. Dr. Jafri is also a candidate for the board of Great Shape! Inc. which is the largest dental humanitarian organization in the world. He has also been a Donated Dental Services Dentist in Michigan for 17 years. Dr. Jafri is currently engaged in full-time practice with Mid-Michigan Dental Center in Owosso, MI.

Dr. Jack Kall received his DMD in 1977 from the University of Louisville School of Dentistry. For the next 25 years he served as Dental Director of the Family Health Centers, Inc., a federally-qualified community health center in Louisville, KY. Additionally, he founded Dental Health Center, his private practice focusing on biological, biocompatible dentistry.

In 2012, upon invitation of the Philippines's Secretary of Health, he gave the presentation "Mercury-free Dentistry in Public Health" at the national conference: Philippines—Towards Mercury-free Dentistry

In 2013, he co-authored "International Academy of Oral Medicine & Toxicology (IAOMT) Position Statement against dental mercury amalgam fillings for medical and dental practitioners, dental students and patients".

He co-authored a chapter about the health risks of mercury exposure from amalgam fillings in the textbook titled, *Epigenetics, the Environment, and Children's Health across Lifespans*, published by Springer in 2016.

Dr. Kall is a member of the American Dental Association, Kentucky Dental Association and the Louisville Dental Society. He is a Fellow of the Academy of General Dentistry and a past President of the Kentucky chapter. He is an Accredited Master of the International Academy of Oral Medicine and Toxicology (IAOMT) and since 1996 has served as the Chairman of its Board of Directors.

Dr. Zafrulla Khan is a Diplomate of the American Board of Prosthodontics, Fellow of the American College of Prosthodontics and American Academy of Maxillofacial Prosthetics. He received his Dental Degree from Bangalore University, India and Masters in Oral Biology from University of Louisville.

He completed his Residency in Prosthodontics at State University of New York at Buffalo, NY and Fellowship in Maxillofacial Prosthetics and Dental Oncology from University of Texas M. D. Anderson Cancer Center, Houston, TX. He is also an Adjunct Professor at Tufts University School of Dental Medicine, Boston, MA. and a visiting Professor at KGF College of Dental Sciences and Hospital, R.G. University of Health Sciences, Karnataka, India.

Dr. Khan's previous appointments include Director of Post graduate Prosthodontics and Chairman, Department of Prosthodontics at University of Louisville, Dental School. He holds Active Medical Staff appointments and is a member of the cancer committee at multiple Hospitals in Louisville, KY. He is an Editorial Review Board Member of several prosthodontic journals. He is an Invited Speaker at many Local, National and International Meetings. He has received various Honors and Induction in Scientific Honor Societies. Dr. Khan is active in multiple Professional, Research and Specialty Organizations.

2017 Speaker Bios

Ned Kivett, CFP® has spent the last two decades providing clients with strategies to successfully meet their business and personal financial goals. In that time, he has gained extensive experience, not only with pension and retirement planning, but with complex dental practice transitions, as well. As a practice integration advisor with the firm's Indianapolis office, he leads client relationships and develops tools and processes to better assist medical professionals in reaching financial freedom.

Ned served as a senior planning consultant with Hufford Advisors until that firm became part of Buckingham in 2014. Before joining Hufford Advisors, Ned worked in management and product development for a multi-national medical device company.

He holds a bachelor's degree in mechanical engineering from Purdue University and a master's degree from Purdue University's Krannert School of Business. In addition, Ned has addressed a wide range of financial planning topics and dental practice transition strategies as a presenter at national dental forums, industry meetings and seminars.

Dr. George Kushner is a graduate of Temple University School of Dentistry. Dr. Kushner received his medical degree from the University of Alabama School of Medicine. He completed his Oral and Maxillofacial Surgery residency at the University of Louisville. Currently, Dr. Kushner is Professor of Oral and Maxillofacial Surgery at the University of Louisville. He is the Director of the Oral and Maxillofacial Surgery Residency program. Dr. Kushner is the author of several publications and articles and lectures extensively throughout the

country. He maintains a faculty practice in oral and maxillofacial surgery through the University of Louisville School of Dentistry.

As both, a former practicing dentist and accountant, **Pat Little, DDS, FAGD, CFE** brings a unique blend of skill and experience to his presentations, which focus on strategies for reducing financial and regulatory risks.

Pat began his dental career in private practice shortly after dental school and over the next 30 years launched two successful practices, starting each from "scratch." After leaving clinical practice due to a cervical vertebrae condition, Pat completed his accounting and general business education. While working with a dental CPA firm, he developed a deep interest in the area of fraud and embezzlement. Pat joined Prosperident as a Senior Fraud Examiner and earned the Certified Fraud Examiner credential. Through Prosperident, Pat conducts embezzlement examinations on behalf of dentists and advises them on matters related to fraud and embezzlement.

While maintaining his relationship with Prosperident, Pat has expanded his lecturing and consulting services to include topics related to financial integrity and accountability, data security and HIPAA compliance.

Pat is an engaging and entertaining speaker who presents well-informed and technologically up-to-date presentations while converting complicated (and sometimes scary) material into plain "English".

Dr. Megan McHugh earned her dental degree from the University of Kentucky College of Dentistry in 2006. She completed her Master of Science in Orthodontics from the University of Kentucky College of Dentistry in 2009. Upon graduation, Dr. McHugh stayed on at the University of Kentucky as an Assistant Professor in the Orthodontic Department. In 2011, Dr. McHugh joined a private practice, White, Greer, and Maggard Orthodontics, in Lexington, KY where she currently resides. She presently serves as President of the University of Kentucky Orthodontic Alumni Association.

Sandra Moldovan, DDS, MS, CNS is a periodontist and nutritionist, author and consultant on oral health, periodontics, dental implants and integrative nutrition. She is a Diplomate of the American Board of Periodontology, practicing in Beverly Hills, CA and Manhattan, NY, with an emphasis on full arch immediate load prostheses. She received her certificate in Periodontics and an MS in Oral Biology from the UCLA School of Dentistry and a Certificate in Nutrition from CBNS. She is an internationally recognized speaker who continues to inform the public and dentists about the advancements in dental implants and nutrition on different platforms, such as radio, TV and social media.

She has taught courses such as Implants A to Z at the UCLA School of Dentistry since 2005. She is a faculty member at Global Institute for Dental Education (glDE), where she also performed live surgeries, as well as hand-on courses. Dr. Sandra Moldovan is an editor for the *Inside Dentistry* magazine and has written several articles on post-operative healing and dental implants. To learn more about Dr. Sandra's practice, visit her website, videos and blog at www.drsandamoldovan.com.

Dr. Mark Nation attended the University of Louisville to obtain an undergraduate degree in Biology. He completed his dental training from the University of Louisville in 2000. He was chosen as ULSD Most Outstanding Graduate in 2000; won the Pierre Fauchard award for dental excellence and was also given the ACP award for outstanding achievement in Prosthodontic education. Dr. Nation graduated from the Advanced Graduate Residency Program in Prosthodontics in 2003. Dr. Nation has extensive experience in implant prosthetics and surgery. He has given numerous lectures and CE courses concerning diagnostics, treatment planning, full mouth reconstruction, implant prosthodontics, implant surgical procedures, provisionals, sleep prosthodontics, airway and occlusion. He received his certification for Parenteral Conscious Sedation in May 2010. He is a founding member of Renew Institute: Beyond Dentistry. Dr. Nation is a member of the American College of Prosthodontists (ACP), the flagship organization for the ADA dental specialty of Prosthodontics, Academy of Osseointegration (AO), American Dental Association and the International Congress of Oral Implantologists (ICOI).

2017 Speaker Bios

Dr. Brian Nový is the Director of Practice Improvement at the DentaQuest Institute and an adjunct associate professor of restorative dentistry. He serves on the ADA Council of Scientific Affairs, acts as the chair of the CAMBRA coalition, is a member of the AGD and a clinical evaluator for the Catapult Group. The California Dental Association Foundation presented him with the Dugoni Award for "Outstanding contributions to dental education," and in 2009, the American Dental Association

awarded Dr. Nový and his office the title, "Adult Preventive Care Practice of the Year."

Laci L. Phillips discovered at an early age her true passion for speaking and entertaining audiences. As a founding partner at Practice Dynamics she combines her knowledge of dentistry with her passion for teams to deliver customized coaching, workshops and speaking events throughout the country.

Laci began her road to coaching as a chairside assistant while going to college to pursue a dream of one day having her own talk show. While working her way to the business side of dentistry, she was fortunate to learn from top industry professionals. The experience gained on this journey gives her unique insight into the technology and business side of dentistry. The excitement of working in high tech offices, as well as high-end cosmetic practices has instilled in her the passion and the knowledge to coach dental teams on their road to excellence.

Balancing coaching dental teams with her speaking career is a dream come true. Each time she takes the stage, her passion for dentistry and the dental team comes to life in her words and the lessons she teaches. Practice Dynamics specializes in coaching teams to reach their goals through balance driven success using systems, teams and technology.

William Ken Rich, DMD, CDC, FICD, FACD, lives in Grant County, Kentucky where he began practicing dentistry in 1975, right after his graduation from the University of Louisville Dental School and continues to practice, along with his two sons. He is the Dental Medicaid Director for the state of Kentucky, serves as Chair of the Dental Quality Alliance (DQA), as a member of the American Association of Dental Consultants, and as Chair of

the Medicaid and SCHIP State Dental Directors Association (MSDA). He is a founding board member of the U S National Oral Health Alliance, a former trustee of the ADA, and former president of the Kentucky Dental Association.

Mr. Jeffrey A. Sexton returns to the annual meeting for the 19th year to provide an educational and highly useful session for members. He is the President and Chief Investment Officer of Silver Leaf Capital, LLC, an investment firm located in New York City, where he is also the Portfolio Manager primarily responsible for the day-to-day management of a market neutral long-short equity hedge fund based in part on his own academic research on momentum he conducted while at the University of

Chicago under the direct tutelage of Professor Eugene Fama, the 2013 recipient of the Nobel Prize in Economic Science. Mr. Sexton earned an

M.B.A. at the University of Chicago; an M.A. in Economic Statecraft from the University of Kentucky; a J.D. from the University of Louisville; and, a B.S. in Accounting from the University of Kentucky. Mr. Sexton is also a member of the Louisville, the Kentucky and the American Bar Associations.

Dr. Brian Shumway is an assistant professor of Oral and Maxillofacial Pathology at the University of Louisville, School of Dentistry. He received his dental degree from The Ohio State University in 2003, followed by one year of advanced education in general dentistry at the Veteran's Affairs Audie L. Murphy Memorial Hospital in San Antonio, TX. He then completed a residency in Oral and Maxillofacial Pathology and Master's Degree at The Ohio State University. He is a Diplomate of the American Board of Oral and Maxillofacial Pathology and a

Fellow of the American Academy of Oral and Maxillofacial Pathology. He has an active clinical practice specializing in diagnosis and management of oral diseases and participates in the University of Louisville oral pathology biopsy service. In collaboration with The Ohio State University and University of North Carolina, Chapel Hill, he and Dr. Kushner are engaged in a clinical trial focused on using freeze-dried black raspberries to treat oral epithelial dysplasia, a precursor to oral cancer.

Dr. Michael Smith graduated from the University of Louisville School of Dentistry and pursued extensive post graduate education in dental rehabilitation in the field of occlusion, full mouth rehabilitation, TMJ disorders, sleep apnea and conscious sedation. His private practice in Phoenix, Arizona is dedicated to aesthetic, contemporary restorative and cosmetic rehabilitation. Dr. Smith instructs other dentists nationally and internationally as a lecturer and mentor for companies involved in advanced dental treatment and diagnosis in TMD,

full mouth reconstruction, and implants.

He is actively involved in numerous organizations and associations dedicated to the pursuit of providing patients with extraordinary care. He is currently the faculty director for Clinical Mastery and is co-founder of the Arizona Community Dental Clinic in downtown Phoenix.

Dr. Jamison Spencer is the director of Dental Sleep Medicine for the 28 locations of Lane and Associates Family Dentistry in North Carolina. He also continues to direct the Center for Sleep Apnea and TMJ, his original practice limited to sleep apnea and TMJ problems in Boise, Idaho, with the help of his two partners. Dr. Spencer has personally treated thousands of patients with sleep apnea and TMJ problems, and now focuses on helping dentists help their patients with such problems.

Dr. Spencer is the Past-President of the American Academy of Craniofacial Pain (AACP), a Diplomate of the American Board of Craniofacial Pain, a Diplomate of the American Board of Dental Sleep Medicine, a Diplomate of the American Board of Craniofacial Dental Sleep Medicine and has a Masters in Craniofacial Pain from Tufts University. He taught head and neck anatomy at Boise State University and is adjunct faculty at the Tufts Craniofacial Pain Center in both the Craniofacial Pain residency and Dental Sleep Medicine programs. Dr. Spencer is also adjunct faculty at the University of the Pacific School of Dentistry, and the University of North Carolina at Chapel Hill. Dr. Spencer has been invited to give

2017 Speaker Bios

lectures on TMD, Dental Sleep Medicine and head and neck anatomy throughout the United States and Canada, as well as in Central and South America, the Caribbean, Australia, Europe and India. He is a founding faculty member of the AACP's Institute, the AACP/Tufts Dental Sleep Medicine program, and the UOP Dental Sleep Medicine mini residency. Dr. Spencer is the inventor and patent holder for the "Silent Sleep," a temporary oral appliance FDA-approved for the treatment of obstructive sleep apnea and snoring. Dr. Spencer also recently released the Spencer Study Club, an online education, mentoring and implementation program to help dentists and their teams help more of their patients with sleep apnea and TMJ disorders.

Dr. Bethany Valachi, PT, DPT, MS, CEAS is author of the book, *Practice Dentistry Pain-Free*, clinical instructor of ergonomics at OHSU School of Dentistry in Portland, OR, and Doctor of Physical Therapy and Certified Ergonomic Assessment Specialist. She brings the most current & effective evidence-based education to dental professionals, worldwide, to prevent pain and extend careers. As founder of Inspired Hygiene, **Rachel Wall**, RDH, BS and the Inspired Hygiene team work with dental teams to improve their hygiene services and systems while increasing profitability. Rachel draws from her 25 years of experience as a hygiene profitability coach, clinical hygienist and practice administrator to deliver to-the-point articles and speaking programs. She has spoken for numerous groups and events, including the Yankee Dental Congress, ADA and the Hinman. Rachel has written for, and been featured in, numerous industry journals including *Dentistry Today*,

Dental Entrepreneur, *Progressive Dentist*, *RDH*, and *AADOM's The Observer*. She received the 2012 Dental Excellence Award from DrBicuspid.com for "Most Effective Dental Hygienist Educator" and was named one of the Top 25 Women in Dentistry in 2013 by *Dental Products Report* magazine. If you're interested in learning more about the potential of YOUR hygiene department, email her at Rachel@inspiredhygiene.com to set up a complimentary strategy session.

Dr. Lawrence Wallace is a board certified Oral and Maxillofacial Surgeon who maintained a private practice in Des Plaines, Illinois. He is the developer and founder of the Larell One Step Denture. He has lectured nationally and internationally and has written many articles in dental industry journals. He has volunteered extensively and brought the Larell One Step Denture to the Mission of Mercy free dental clinic program across the country. He has also done multiple international mission trips. His technique is being taught at many dental schools across the country and is being used in the faculty practice at NYU College

of Dentistry. He is also a consultant to the medical industry in the field of Oral and Maxillofacial Surgery with input in the areas of TMJ, sleep apnea and dental implantology.

Dr. Jim Willey is the Senior Director of the ADA Practice Institute. Before coming to the ADA, Dr. Willey practiced general dentistry in Elburn, Illinois for 26 years.

In his previous position as the Director of the Council on Dental Practice, Dr. Willey led the interagency staff team that developed the new ADA Center for Professional Success. The Center is an interactive web portal developed for members to access practice management content, decision support tools and other business applications.

Dr. Willey was also elected mayor of Elburn, IL for three terms, ending in 2009. As a local mayor, Jim led efforts to create a unique Veteran's Memorial featuring a retired U.S. Army battle tank.

Jim is also a founding member of the Pritzker Military Museum and Library and a brigade color bearer of the Civil War Trust. He also enjoys collecting Lionel model train sets.

Dr. Willey holds a B.A. from Southern Illinois University; a B.S.D. and D.D.S. from the University of Illinois; and an Executive M.B.A degree from Northern Illinois University.

Dr. James Woodyard received his Doctorate of Dental Medicine from the University of Kentucky College of Dentistry. He then completed a residency in Periodontics at the University of Louisville School of Dentistry where he graduated with a Masters in Oral Biology and a Certificate in Periodontics. He maintains a private practice in Newburgh, Indiana specializing in Periodontics and dental implants. Dr. Woodyard is a Diplomate of the American Board of Periodontology. He is a member of the American Academy of Periodon-

tology, Pierre Fauchard Dental Honorary Society, a Board member of the North American Society of Periodontists, the American Dental Association, the Academy of Osseointegration, the Indiana Dental Association and the First District Dental Society. He is the director and founder of the Select Study Club, an affiliate of the Seattle Study Club system. Dr. Woodyard routinely presents lectures nationally on dental implants, cosmetic periodontal plastic surgery and periodontal treatment.

Early in life, **Rob Ziliak**, CFP® learned three important values about money: save it, spend it and share it with others who need it. As a regional director with Buckingham, Rob lives those values every day by ensuring that clients are able to create and implement wealth management strategies in pursuit of their most important financial goals. He specializes in serving dentists and in teaching dental practice integration strategies.

Rob served as managing principal of Hufford Advisors until the firm joined Buckingham in 2014. Prior to joining Hufford Advisors, he spent 17 years at Charles Schwab & Co. and Schwab Bank.

Rob earned his bachelor's degree from Indiana University and his master's degree in personal financial planning from the College for Financial Planning. He has been a featured presenter at many financial continuing education courses for dental professionals and is a member of the Financial Planning Association of Greater Indiana and AICPA.
