The 2019 Kentucky Meeting: Join us for a blast from the past!

Galt House Hotel

Preliminary Program Guide
August 15-18, 2019
Kentucky Dental Association • Galt House Hotel • Louisville
Welcome back to Louisville!

Welcome! Welcome back! Welcome back to the future! On behalf of the Kentucky Dental Association Executive Board, Council on Annual Session and the KDA staff, I welcome you to the 2019 KDA Annual Meeting, Thursday, August 15 through Sunday, August 18, back at the Galt House in Louisville, Kentucky.

When I attended my first KDA Annual Meeting almost four decades ago, it was held at the Galt House. I haven’t missed a KDA Annual Meeting since. It is only fitting that for my Presidential year we bring our meeting back to this facility.

However, a lot has changed in the last 38 years in our profession and so has our meeting. Dr. Randy Ransdell, as Scientific Sessions Chair, has worked tirelessly to create a lineup of continuing education courses that will benefit each member of the dental team. There are entertainment options for everyone all three nights and, of course, downtown Louisville is just out the front door. The Annual Session is planned with the future in mind.

Join me on Thursday evening as I welcome our Keynote Speaker, Rex Chapman. An Owensboro native, Rex played two years with the University of Kentucky Wildcats and twelve years in the National Basketball Association. Currently living in Lexington, Rex can be found on several media outlets giving colorful commentary on UK Basketball. Rex is a very entertaining speaker who has a personal story he’s willing to share and you won’t want to miss.

Also on Thursday, we honor those in leadership in the KDA and local societies at the William Marcus Randall Reception. Top off your night by being my guest at the President’s Reception, complete with food, beverage and musical entertainment. All are welcome to come celebrate our profession, rekindle relationships and start new friendships.

On Friday evening from 10-midnight at Al J’s at the Conservatory in the Galt House, the KDA will host the New Dentist Social, a very well-attended event, just for new dentists and fourth-year dental students.

Friday, Saturday and Sunday have a great lineup of speakers, including Dr. James Braun - Restorative; Dr. Jim Grisdale – Implants; Dr. Joe Blaes – Great Products; Dr. Jeffrey Osborne – Successful Oral Sleep Devices; and inside the exhibit hall, Dr. Howard Farran will be hosting his Podcast, “Dentistry Uncensored”.

It is good to be back in Kentucky, in Louisville, at the Galt House. There is so much to do within the meeting and the facility with downtown Louisville just outside. Come back with me to the future. See you there!

William E. Lee, DMD
President,
Kentucky Dental Association

General Information

On-Site Registration

Located on the second floor of the Galt House East Hotel, the registration desk is conveniently open during the following hours:

**Friday, August 16, 2019** 7:30 a.m. – 5:00 p.m.
**Saturday, August 17, 2019** 7:30 a.m. – 4:00 p.m.
**Sunday, August 18, 2019** 8:15 a.m. – 9:00 a.m.

On-site ticket sales only. Tickets will be sold based on availability.

As a member benefit, registration is free of charge to KDA members.

Registration is also free to the following groups:
- American Dental Association members
  (Proof of ADA membership is required upon registration)
- Dental Students
- Spouses who are not dentists
- Auxiliary members of the following groups:
  • Kentucky Dental Hygienists Association
  • Kentucky Dental Assistants Association
  • Kentucky Dental Laboratory Association
- Auxiliary members who are employed by a member of the ADA

Non-Members Can Attend for Only $299.00!

Non-Members can register for the 2019 Kentucky Meeting for $299.00. This fee also includes entry into the exhibit hall.

KDA Exhibit Hall

Conveniently located in the Grand Hall and the Grand Ballroom near the registration desk on the 2nd floor of the Galt House East.

Free of charge to all Kentucky meeting registrants, the KDA exhibit hall features many exhibitors showcasing product lines and services. Take advantage of an opportune time to discover the newest dental equipment and supplies, with exhibitors on site to answer your questions.

Exhibit Hall Hours

**Friday, August 16, 2019**
9:30 a.m. – 5:00 p.m.

**Saturday, August 17, 2019**
9:30 a.m. – 2:30 p.m.

Closed Sunday

Support Our Exhibitors

Our exhibitors invest extensive resources to attend our meeting. We ask that an extra effort be made to purchase needed supplies and services from them at the meeting!

Sign Up for Exhibit Hall Prizes!

Spend $500 on vendor goods and/or services in the Exhibit Hall in the Grand Ballroom and sign up for a chance to win some fun prizes!

**Exhibit Hall Prize Drawing Coupon**

**NAME:** ______________________
**PHONE:** ______________________
**EMAIL:** ______________________

Drop coupon at KDA Meeting Registration Desk for drawing at 11:30 a.m. on Saturday, August 17.

You must show proof that you purchased $500 worth of goods and/or services from our vendors in the exhibit hall.

Ticketing Policy

All attendees who pre-register for the 2019 meeting will have their badge and/or tickets mailed in advance of the meeting. You do not have to purchase tickets in order to pre-register for the meeting. All tickets and badges will be mailed to the address indicated on the order form. **Please note that plastic badge holders will not be mailed and will be conveniently located on-site.** Completed forms must be postmarked by August 1, 2019.

Tickets may be purchased by MasterCard, Visa, check or money order. Fees will be assessed, up to the maximum allowed by law, for checks not honored by the bank. Tickets will be sold at the meeting depending on availability. There will be a $10 per ticket increase if purchased at the door.

Ticket payment will not be refunded after 5:00 p.m. (EDT) Tuesday, August 13, 2019.

Please note that the KDA will not replace lost tickets!
Your Comfort Is Important To Us!

We all have different ideas of the ideal indoor temperature – you may find the temperature in lecture rooms and the exhibit hall “too hot” or “too cold” for comfort. Try as we might, we can’t guarantee the temperature will be “just right” for everyone, so please come prepared: dress in layers and bring a sweater or light jacket to the meeting. Per fire codes, once a course is full, attendees will not be allowed to sit on the floor, bring chairs in from another room or stand in the back.

Scientific Program Disclaimer

The Kentucky Dental Association and the Council on Annual Session and Scientific Session Committee make every effort to present high-caliber speakers in their respective areas of expertise. The speakers’ presentations in no way imply endorsement of any product, technique or service presented during these presentations. The Kentucky Dental Association specifically disclaims responsibility for any material presented.

In addition, participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy.

Thank you to the Louisville Convention and Visitor’s Bureau for providing Top 25 Things to Do information on page 15-18 of this publication.

Come and paint some fun portraits with us!

Take a break & have some fun!

Have a glass of wine!

Invite a friend!

Friday, August 16, 2019
3 p.m.-6 p.m.

TICKET #: SE 3

Friday, August 16, 2019
3 p.m.-6 p.m.

$60 per person

Everyone is invited - no ticket needed!

Relax, socialize with your buddies, enjoy a glass of wine, munch on some fruit and cheese and crackers, make a new friend...all the while you are painting a fun and colorful portrait - your choice of Mr./Ms. Frog or Mr./Ms. Pig!

A teacher from Whet Your Palette in Anchorage, KY will be on hand to help you find your creative side in a fun, laid-back atmosphere where everyone is exercising their “left-brain”.

Bring a friend and maybe even make a new one!

Classroom Etiquette

Please remember to “silence” your cell phones while seated in classrooms. Please step outside to receive/conduct phone calls, so you do not disturb other attendees.

Save Time and Register Early for CE Courses!

- Avoid a last minute rush in a new and unfamiliar location!
- Use your time wisely!
- Because of space constraints, some CE courses may sell out early.
- Get to your class on time!

Smoking Policy

No smoking is permitted in any portion of the Galt House Hotel.

“Dentistry Uncensored”

with Dr. Howard Farran in the Exhibit Hall

Friday, August 16, 2019
11 a.m.-2 p.m. and 4 p.m.-5 p.m.

See Howard in Booth #48 Grand Ballroom A - Galt House East 2nd Floor Ballroom Level - Suite Tower

Everyone is invited - no ticket needed!

Dr. Howard Farran, Founder and CEO of Farran Media, LLC, the parent company of Dentaltown.com, Dentaltown Magazine, Hygienetown, Orthotown and Townie Meeting, brings his innovative podcast show “Dentistry Uncensored” to the Kentucky Dental Association!

“Dentistry Uncensored” has reached 1 million downloads and been given countless accolades with over 1,100 shows available to download. His lecture topics cover various aspects of practice management, including business planning, operations and finance, e-commerce business and internet marketing.

During Dr. Farran’s podcasts, he interviews folks in a live environment. He is truly off the cuff - whatever is on his mind or on the mind of the person that sits next to him, Dr. Farran will get to the bottom of things. He does not follow a script of any kind, so interesting discussions happen when Dr. Farran is around! Howard was voted by his peers in the top 3 on the list of the 32 Most Influential People in Dentistry from 2017-2019.

Your Comfort Is Important To Us!

All are welcome to come celebrate our profession, rekindle old relationships and start new friendships. You won’t want to miss the fun!

Please RSVP to Olivia Estes at oliviaestesdmd@gmail.com or to Rachel Gold at rgolddmd@gmail.com

---

**Thursday’s Opening Session with Rex Chapman**

**TICKET #: SE 1**

**Thursday, August 15, 2019**

5:30 p.m.-6:00 p.m.

Open to Everyone!

Welcome to the 2019 KDA Annual Meeting! The KDA welcomes Rex Chapman as our keynote speaker this year.

Rex is an Owensboro native and played two years with the University of Kentucky Wildcats and twelve years in the National Basketball Association.

Currently living in Lexington, Rex can be found on several media outlets giving colorful commentary on UK Basketball. Rex is a very entertaining speaker who has a personal story he’s willing to share that you won’t want to miss!

Come one, come everyone! It’s FREE!
Participate in Our Annual Table Clinic and Hobby Show!

You are invited to participate in the annual Table Clinic and Hobby Show during the 2019 Kentucky Meeting to be held on Saturday, August 17, 2019 in the Grand Hall/ Foyer area outside the Grand Ballroom on the second floor of the Galt House East Hotel.

The Kentucky Dental Association will offer three separate clinic areas. One area is reserved for clinical clinics and information, the second area is for hobbies and crafts only and the third is for research clinics. Let’s work together to make this the best year ever! There are cash awards for each area (clinical, hobby and research).

**1ST Place is $200.00**
**2ND Place is $100.00**
**3RD Place is $50.00**

**Back Again This Year! Cash Awards for Hygienists and Hygiene Students!**

**1ST Place is $200.00**
**2ND Place is $100.00**
**3RD Place is $50.00**

In past years this has been a very popular and well-attended feature at the annual meeting. There is so much information to share. This would be a great office project with everyone participating or hygienists and assistants could work together or separately to represent your office. Also, individuals are very welcome to present their clinic. There is ample time to put together your program. Please encourage your spouse, family members and auxiliary personnel to be a part of the fun!

Table clinics may be anything you feel would be of interest to the profession and should be able to be presented in a minimal amount of time (5-10 minutes). New and improved techniques, time saving ideas, case presentations, innovative practice tips, collectibles and crafted items represent just a few of the possibilities.

I know there are many talented people and many wonderful hobbies in our association. Let’s get together and share our recreational interests as well as enjoy this wonderful profession.

The Table Clinic and Hobby Show will be Saturday, August 17, 2019 from Noon – 2:00 p.m. You are required to be present and remain with your clinic for the entire time. One six-foot table or a tack board will be provided (per clinic) – no additional space is available. Please indicate whether you require a tack board or table for your presentation on the reservation form.

The set up time is 11:00 a.m. – NOON. Please set up your clinic at least one half hour prior to the session. The clinics will be assigned a particular space as reservations are received. Look for your name and topic displayed on each table. For students or groups, please identify the primary participant (one person) and then name each individual participant. Students use name only, not intended degree.

**No Audiovisual Equipment Will Be Provided by the KDA!**

So that the committee may make the necessary preparations to ensure that your clinic needs are met, it is requested that you complete the application and return it to the Kentucky Dental Association office by August 1, 2019.

**All dental participants must be members of the Kentucky Dental Association.**

CE Credits

Continuing education courses provided by the Kentucky Dental Association are recognized by the Kentucky Board of Dentistry and most other state licensing bodies. Continuing education requirements differ from state to state. Check with your state for specific requirements. Continuing education credit hours are shown on each synopsis.

Board of Dentistry: Continuing education credit hours are earned by attending courses presented at the meeting. Each course synopsis and course ticket lists the hours earned for attending. Members will be provided with a ticket allowing entry to each course, as well as proof of attendance. The course ID # given at the end of the course must be recorded on the ticket for it to be valid for CE credit.

Note: It is the attendees’ responsibility to maintain these cards for their records.

Academy of General Dentistry: Application for PACE approval is pending.

See the Kentucky Board of Dentistry website for additional CE information: http://dentistry.ky.gov/Pages/index.aspx

Calling All KDA Members

Is there a speaker on our program that you've wanted to meet? We are looking for those members interested in meeting, greeting and introducing the wonderful speakers we have on our program.

We offer any paid course at no charge for the person who introduces the speaker for that course. Some exceptions may apply. Call for details.

Duties include arriving early to the course to hand out information to the attendees. Once the course is ready to begin, introduce the speaker. During the presentation, be available to attend to the needs of the speaker should any arise and enjoy the course. At the end, provide the course code numbers for the attendees to obtain CE credit and collect the CE cards. These cards are then returned to the registration desk on the second floor of the Galt House East Hotel.

Call the KDA office as soon as possible to get the speaker of your choice!

KDA Office Closing

The KDA Executive Office will close at the end of business on Tuesday, August 13, 2019 and will reopen on Tuesday, August 20, 2019 at 9:00 a.m. (EDT).

CE Course Handouts are Paperless!

In an effort to minimize paper waste and benefit the environment, course handouts will be made available on the KDA’s website at http://www.kyda.org/the-kentucky-meeting.html

Please note that some speakers have chosen not to provide handouts. These materials are not printed for distribution on-site. If you wish to have these materials to reference during the course, please bring a printed copy with you.

Badge Holders

Please note that plastic badge holders will not be mailed with pre-registration materials.

For your convenience, plastic badge holders will be available in the registration area during registration hours.

Alumni Receptions

The University of Louisville and the University of Kentucky will be hosting alumni receptions on Friday, August 16th. This is a perfect time to catch up with fellow classmates.

University of Louisville
6:30 p.m. – 8:00 p.m.

University of Kentucky
6:30 p.m. – 8:00 p.m.
**Register Early and Save**
All course fees increase $10 (per ticket) after August 1st. Tickets will be sold based on availability.

Use the registration form included in this brochure. Form may be copied. List all staff members, spouses, etc. on the doctor’s form. Select CE courses or special event tickets. Complete form in its entirety and mail to the Kentucky Dental Association office by August 1st. Forms postmarked after August 1st will be returned. Forms that are not legible will also be returned. Registrations are processed in the order received. Fees are payable to the Kentucky Dental Association in U.S. funds by check, money order, MasterCard or Visa. Credit card users must supply a new credit card number within 24-hours of denial notification or ordered tickets will be returned to inventory. Fees will be assessed, up to the maximum allowed by law, for checks not honored by the bank.

Tickets will not be held. You may also register on-line at https://www.kyda.org/ky-meeting-registration.html

**Lost Tickets**
Lost tickets are replaced at the original cost based on availability.

**Room Capacity**
All rooms are set to maximum seating capacity. Space in limited attendance courses is restricted by the speaker to ensure quality instruction.

Please note that room space dictates the number of tickets available and courses could sell out before the meeting begins.

Pre-registration for the meeting does not guarantee a ticket for any particular CE course.

**KDA Non-Solicitation Policies**
All speakers are contracted by the Kentucky Dental Association. Utilization of said speakers by other persons or groups will not be permitted unless approved prior to the meeting by the Council on Annual Session.

With the exception of exhibitors operating with designated booth spaces, no attendee may solicit business on the exhibit floor or in any other Kentucky Dental Association convention space. Violation of this policy will result in expulsion from the meeting.

The Kentucky Dental Association does not promote any products that may be recommended by speakers, nor do the speaker’s views necessarily represent those of the Kentucky Dental Association.

---

**Refund Policy**
Refund Deadline: August 13, 2019. Send written request for refund with badges and tickets to the Kentucky Dental Association, Attn: Todd Edwards, 1920 Nelson Miller Parkway, Louisville, KY 40223. No refunds will be given after the stated deadline regardless of the reason. Refunds are processed after the close of the meeting.

**Your Comfort is Important!**
We all have different ideas of the ideal indoor temperature – you may find the temperature in lecture rooms and the exhibit hall “too hot” or “too cold” for comfort. Try as we might, we can’t guarantee the temperature will be “just right” for everyone, so please come prepared: dress in layers and bring a sweater or light jacket to the meeting.

Per fire codes, once a course is full, attendees will not be allowed to sit on the floor, bring chairs in from another room or stand in the back.

**Registration Materials**
Badges and tickets are mailed to those who pre-register prior to the meeting. Registration materials will be mailed to those who pre-register before around mid-July 2019. It is the responsibility of the attendees to bring all necessary items with them to the meeting. Obtain a plastic badge holder, on-site meeting program and a room assignment list at the registration desk during registration hours. Also, please remember to check the KDA website at https://www.kyda.org/the-kentucky-meeting.html to see if the course you are attending has a handout.

**On-site Registration Hours**
Friday, August 16, 2019
7:30 a.m. – 5:00 p.m.

Saturday, August 17, 2019
7:30 a.m. – 4:00 p.m.

Sunday, August 18, 2019
8:15 a.m. – 9:00 a.m.

**A Message From Your Meeting Planner**
Dear KDA/ADA Member, I would like to encourage you to share this program with your staff members and your families as programs are mailed only to KDA/ADA members. We have events on our schedule in which family/staff members may like to participate. Bring your whole family and join us for the fun!

Sincerely, Janet Glover, KDA Director of Meetings

All program information has been compiled by Janet Glover, Director of Meetings.
TOP 25 THINGS TO DO

ACCORDING TO TRIPADVISOR TRAVELERS
AS OF JANUARY 2019

Here’s a look at some of the top attractions to take in while visiting Louisville based on TripAdvisor ratings and reviews. Whether you’re into adventure, art, history, Bourbon, sports or nature, there is something for everyone in our first-rate attractions. The hard part is just picking one or two!

1. Conrad-Caldwell House Museum (Conrad's Castle)

The Conrad-Caldwell House Museum is a historic, Victorian mansion located in the heart of Old Louisville on St. James Court. Surrounded by a beautiful courtyard neighborhood at the center of the largest collection of Victorian Homes in the US, “Conrad’s Castle” featured all the latest innovations of its day, including interior plumbing and electric lighting. Known for its beautiful woodwork and parquet floors, this massive Bedford limestone home, covered with gargoyles, beautiful archways, and elaborate stone designs, incorporated seven types of hardwoods and magnificient stained glass windows in the interior design, making it one of the most stunning homes in Old Louisville. Step back in time as you learn more about the Edwardian Age, the neighborhood, and the families who lived here.

2. Louisville Mega Cavern

Louisville Mega Cavern is a 17-mile underground adventure rich in history, geology, mining, recycling and green building technology located beneath the city of Louisville. The cavern is home to Mega Zips, the world’s only underground zipline adventure tour, featuring six ziplines nearly 100 feet off the cavern floor. Mega Quest, the only underground ropes challenge course in the world, features two levels and 76 challenge elements including mini-ziplines and rope walls. The BMX & MTB Mega Bike Park is over 320,000 square feet including over 45 trails, Jump Lines, Pump Tracks, Dual Slalom, BMX, Cross Country and Single Track all in a former limestone cavern 100 feet sub-surface. Explore the furthest parts of the cavern on the Mega eBike tour, or enjoy a seated historical tour of the cavern on the Mega Tram.
Angel’s Envy Distillery

Angel’s Envy is the culmination of the late Master Distiller Lincoln Henderson’s storied career, which he spent crafting some of the finest whiskies in the world. One of the original pioneers of premium bourbons and whiskies, Lincoln came out of retirement to create a whiskey masterpiece on his own terms—Angel’s Envy. The distillery and visitor center, which opened in 2016, is located at 560 East Main Street, and was the first full-production whiskey distillery in downtown Louisville. The distillery houses all operations from the milling of grains to blending and bottling on-site. The gift shop and Finishing Room Bar add to the distillery tour, offering guests a unique experience.

Old Forester Distilling

In 1870 Old Forester became America’s “First Bottled Bourbon”—the first bourbon to be sold exclusively in sealed glass bottles to ensure quality and consistency, an innovative approach at a time when whisky was commonly sold by the barrel. In 2018, Old Forester Distilling Co. returned home to Whisky Row and opened at 119 W. Main Street, housed in the same building that the brand called home from 1882–1919. On Fridays and Saturdays, the barrels built and filled in the cooperage are rolled out onto Main Street with a “Whisky Drummer” heralding the rolling of whisky barrels onto a vintage-style barrel truck. Tours include viewing the distillery operation and for guests 21+, tasting the finished product.

Copper & Kings American Brandy Distillery

Copper & Kings is an American Brandy, Absinthe and Gin distillery located in the historic Butchertown neighborhood of Louisville. The distillery tour takes visitors through the modern, eco-friendly facility, which includes a beautiful outdoor courtyard, production floor, the maturation cellar and the rooftop bar ALEX&NDER (during business hours). The distillery tour tasting includes three half ounce pours from their extensive line of spirits.

Cave Hill Cemetery

Listed on the National Register of Historic Places, Cave Hill Cemetery is a 296-acre Victorian-era National Cemetery and arboretum, featuring more than 500 species of trees and shrubs. Weekend guided tours are offered May–November and include geological elements, decorative monuments, selected landscape features, trees and shrubs and Louisville history. Cave Hill Cemetery was chartered in 1848 and contains the gravesites of many notable Louisvillians, such as Muhammad Ali, KFC founder Col. Harland Sanders, city founder George Rogers Clark, Kentucky Derby founder Meriwether Lewis Clark Jr., and Pete Browning, whose cracked bat led to Louisville Slugger fame.
Kentucky Peerless Distilling Co.

At Kentucky Peerless Distilling Co., father-son duo Corky and Carson Taylor have resurrected their family’s historic company inside a carefully restored 100-plus-year-old building. Kentucky Peerless opened in Louisville in 2015, but the distillery’s roots extend back to 1889, when their ancestor, Henry Kraver, began distilling bourbon. The behind-the-scenes tour offers an up close look at every step of the process, from grain to bottle—all under one roof. Guests are often able to meet members of the Taylor family and those over 21 can end the tour with a tasting.

The Bulleit Frontier Whiskey Experience at Stitzel-Weller

Located only five miles from downtown Louisville, the Stitzel-Weller Distillery originally opened on Derby Day in 1935 and reopened to the public in 2014. Learn about the past, present and future of Bulleit’s family of high-rye, award-winning whiskeys. Walk in the footsteps of Bourbon legends, as you step into an active barrel house, cooper shop and micro still-house. Your journey ends with a Bulleit portfolio tasting led by a Stitzel-Weller Whiskey Expert.

Kentucky Derby Museum

The Kentucky Derby Museum, where every day is Derby day, is the official tour provider of historic Churchill Downs. Visiting the museum is the next best thing to actually being at the Derby! As the exclusive tour provider for the track, various tours are offered throughout the year even when the track isn’t in session with live racing. Admission includes two levels of family-friendly interactive permanent and temporary exhibits, “The Greatest Race,” a 360-degree immersive sound and visual experience, historic walking tour of Churchill Downs Racetrack, access to the gift shop and Kentucky fare in the Derby Cafe Express, overlooking a paddock with a resident horse.

Louisville Slugger Museum & Factory

You’ll know you’ve found the Louisville Slugger Museum & Factory when you see the world’s largest baseball bat, weighing 68,000 pounds and stretching 120 feet into the sky. Experience history-in-the-making as you stroll through the actual factory where world-famous Louisville Slugger bats are created. The award-winning factory tour is a highlight of the visit here, but there’s plenty more to enjoy along with it. Hold bats actually used by baseball superstars like Mickey Mantle, Johnny Bench, Cal Ripken Jr. and Derek Jeter. Face down a 90-mph fastball hurled by a major league pitcher. Count the home run notches Babe Ruth carved into his Louisville Slugger bat for every home run he hit with it. Step into the batting cages and take some swings with a replica model of your hero’s bat. Guests even get a free miniature souvenir bat at the end of the factory tour.

The Big Four Bridge

The Big Four® Bridge links Louisville Waterfront Park to Jeffersonville, Indiana over the Ohio River. The two-mile round-trip journey is open to pedestrians and bicycles and offers breathtaking views. The bridge has an LED lighting system, highlighting the beauty and strength of the bridge structure, which dates back to its days as an active urban railroad bridge built in 1895. The lights bathe the ironwork with color that enhances the bridge, while still allowing visitors to enjoy the wonderful views out from the bridge.
Louisville Palace

Described by the noted architect, John Eberson, the Louisville Palace is a grand and historic theater that opened in 1928 as a movie house. The theatre underwent a multimillion dollar restoration in the 1990s to recreate the opulence which had been the hallmark of this architectural treasure. Buy a ticket for either a live performance or a classic film, you get two shows, what’s on stage or screen, and the Palace itself. Upon entering the 2800 seat theatre, you will feel as through you have stepped into an immense Spanish courtyard. With a sky of midnight blue amid twinkling stars, you will be surrounded by the grottos and stately images with castle-like features. The Palace books the finest in touring attractions, and concerts over a variety of genres.

Cherokee Park

Cherokee Park’s main feature is the 2.4-mile Scenic Loop, with separate lanes for vehicle traffic (one-way) and recreational users. Cherokee is one of the original parks designed by Frederick Law Olmsted, famous for designing New York’s Central Park. Cherokee Park provides a pastoral setting amid rolling hills, open meadows and woodlands of the Beargrass Creek valley. The park contains an archery range, basketball courts, hiking trails (mountain and road), a dog run, fishing, a golf course, hiking trails, horse riding trails, horseshoe pits, picnic shelters, playgrounds and a sprayground. From weekend rugby games to informal LARP-ing tournaments, Cherokee Park also provides an entertaining venue for people watching.

- **FA** - Friday Afternoon
- **SM** - Saturday Morning
- **SA** - Saturday Afternoon
- **SU** - Sunday

### Earn 2 CE Points by Visiting Your Exhibitors!

The Kentucky Board of Dentistry will no longer give 2 hours of CE credit for attending our meeting. **HOWEVER**, you may now earn up to 2 CE credits by visiting your exhibitors in the exhibit hall. Simply complete up to 2 sign-off cards, each containing ten sign-off squares, for a total of 2 CE points. Each square must be stamped by a different exhibitor you have visited. You may find these cards at the KDA registration desk on the second floor of the Galt House East Hotel.

### Find CE Course Handouts on Our Website

Course handouts will be made available on the KDA’s website at [http://www.kyda.org/the-kentucky-meeting.html](http://www.kyda.org/the-kentucky-meeting.html). Please note that some speakers have chosen not to provide handouts. These materials are not printed for distribution on-site. If you wish to have these materials to reference during the course, please bring a printed copy with you.
**“Successful Oral Sleep Devices: The Past, the Present and the Future”**

*Sponsored in part by First Pacific Corporation*

- **Friday, August 16, 2019**
  - 8:00 a.m. – Noon
  - Meet & Greet Speaker & Refreshments
  - Open Forum with Speaker & Refreshments

3 C.E. HOURS
FEE: $90.00 Dentists $70.00 All others
Open to All Attendees

**Updates on Oral Devices: tips, news and a little science.**

The field of Mandibular Advancement Devices is rapidly growing and changing. One can be overwhelmed with the more than 100 devices on the market, not to mention all the other gadgets and gimmicks that are appearing in the market. We will talk about the new devices, the new science and even a few tips and tricks to make it all make sense. We will discuss the trends that are coming and how we can be at the top of our game. The new ADA policy on OSA makes it imperative that each one of us understand this disease and be ready to offer advice and treatment options for those patients afflicted. OSA is one of the fastest growing health problems in America and we must be ready to lead the charge.

**Bio on page 45.**

---

**“Keep the Root and Build Up: You’re Better Off”**

*Sponsored in part by 3M Oral Care*

- **Friday, August 16, 2019**
  - 8:30 a.m. – 11:30 a.m.

3 C.E. HOURS
FEE: $90.00 Dentists $70.00 All others
Open to All Attendees

This course will explore the advantages of preserving teeth that have had endo, but are compromised. There are so many benefits of maintaining root structure and placement of a foundation and subsequent crown.

**Objectives:**
1. To review methods of post and core placement
2. Understand the value of root preservation and restoration
3. Learn to unify the restoration with a bonded ceramic crown

**Bio on page 42.**

---

**“Designed for Accomplishment, Engineered for Success: How What We Do, Use and Think About Affect Our Daily Practice”**

*Sponsored in part by Bisco Dental Products, GC America & Prexion*

- **Friday, August 16, 2019**
  - 9:00 a.m. – Noon
  - “Tips, Tricks & Techniques for the Esthetic-Based General Dentist”

Sponsored in part by Kettenbach, Garrison Dental Solutions, DMG America, Six Month Smiles, Bisco Dental Products, Yes Dental Lab, GC America & Brasseler USA

3 C.E. HOURS
FEE: $90.00 Dentists $70.00 All others
Open to All Attendees

Dentistry now has a wide variety of new materials and technologies available to help dentists provide better dentistry faster and more predictably. This fast-paced program is designed to share many useful materials now available as well as the tips and techniques to add speed and predictability. Additionally, new technologies are discussed with a focus on the practical application and integration of these technologies to increase profitability and patient satisfaction.

**Course Objectives:**
- Overview of the importance of bleaching in an esthetic practice
- Review of the current state of bonding agents
- Discussion on materials and techniques using composite resin for Class II’s, core build-ups, and post and core restorations
- Incorporation of the latest technologies into the practice workflow
- Review of the potential of NoPrep veneers, with a discussion on the myths and the realities

**Bio on page 45.**
Traditional methods of dealing with caries do not work for everyone and in every situation; we still have a caries epidemic, especially affecting children, but also people residing in long-term care facilities, with intellectual and developmental disabilities, the homeless, low income, Native Americans, and anyone unable to access dental care. One strategy that has shown to significantly help control caries is Silver Diamine Fluoride (SDF). Using SDF has been implemented around the world for over 50 years. More recently, Silver Diamine Fluoride and Glass Ionomer Cements (GICs) together provide options helping to control a variety of carious lesions; this combination is called SMART, Silver Modified Atraumatic Restorative Treatment.

Learning Objectives:
1. Explain the history of SDF use and GICs.
2. Identify the populations ideal for SDF and GICs.
3. Discuss the science of SDF and GICs.
4. Apply the knowledge within this course to be able to create an informed consent for SDF and GICs.

Methodology: With real life case presentations, lively conversation and dramatic photo documentation, Kyle will share her expertise and success of using silver diamine fluoride in a variety of dental settings. Kyle will help the attendee understand the value of and how easy it is to implement this system in their clinical setting and help their patients with pride and confidence. Attendees will receive access to a copy of a consent form and a two-page copy of photographs to share with patients.

Bio on page 44.

DR. JOE BLAES

“Great Products for Your Practice” – Workshop

Limited to 54 participants

This exciting products, techniques and strategies workshop presents the features and benefits that will change your practice. Dr. Joe Blaes will explain how he uses these products every day in his practice. Discover how techniques and products come together to create systems that will produce a consistent outcome with every procedure. These systems result in less stress for the entire dental team. Learn proven ways to make your days more efficient and productive. Product educators will be available to demonstrate and answer all questions. Attendees will be able to experience how easy each product is to use. You will “speed date” using these exciting dental products while saving your precious time and money.

Learning Objectives:
• To incorporate new technology into your practice
• When and why to change to a new product
• About products that enhance your clinical procedures
• To reduce stress in your office

Bio on page 42.

JOCELYN COUPAL, J.D.

“The Role of the Dental Professional When Family Abuse is Suspected: An Ethical Dilemma”

Family abuse is a global problem, but it touches every one of us either directly or indirectly. If we accept that each member of the dental team does have a role to play, the challenge is in knowing how we can help our patients.

Learning Objectives:
• Understanding the scope of the problem
• Recognizing the signs of family abuse
• Having a conversation with your patient
• Charting and documentation
• Ethical issues related to family abuse
• Referrals & Resources

Bio on page 43.
DR. JIM GRISDALE
TICKET #: FM8
Friday, August 16, 2019
9:00 a.m. – Noon
“The Dark Side of Implants: Complications, Diagnosis & Management”
Sponsored in part by Hiossen USA

3 C.E. HOURS
FEE: $90.00 Dentists $70.00 All others
D, H, ST, LT

This is a must course for clinicians surgically placing, restoring and maintaining implants. High success and survival rates are reported in the literature, however, there are an increasing number of complications reported, particularly in patients who are at higher risk for complications. If the clinician is better able to identify and understand the different complications, prevention and management can be more effectively performed. Understanding the profile of patients who are at greatest risk for developing complications will lead to providing strategies for early recognition and intervention.

Learning Objectives:
At the end of the program, participants will have learned:
• to identify patients at higher risk for dental implants
• how to correctly diagnose the different types of complications
• how to recognize the differences between early and late stage complications
• to understand the differences between biological and biomechanical complications
• to choose the appropriate management protocol for early intervention and treatment

Bio on page 43.

DR. FIONA COLLINS
TICKET #: FM9
Friday, August 16, 2019
9:00 a.m. – Noon
“Dry Mouth: Etiology, Complications and Management (Part I) and Management of Pre- and Post-procedural Pain” (Part II)
Sponsored in part by Colgate

3 C.E. HOURS
FEE: $90.00 Dentists $70.00 All others
D, H

Dry Mouth: Etiology, Complications and Management – Part 1
The functional and protective roles of saliva are diminished as a result of dry mouth. This presentation begins with a review of the prevalence and etiology of dry mouth, and its role as a risk factor for oral diseases and conditions. The impact of dry mouth on patients, and options for the management of dry mouth and its sequelae are then addressed, including the prevention of oral disease. Current and novel therapies will be discussed together with the evidence for their use.

Learning Objectives:
After attending this presentation, participants will be able to:
1. List etiologies associated with dry mouth;
2. Describe the signs, symptoms and potential sequelae of dry mouth;
3. Review options for the management of dry mouth; and,
4. Review options for the prevention and management of the manifestations of dry mouth.

Management of Pre- and Post-procedural Pain – Part 2
The management of pre- and post-procedural pain is important for patient comfort and quality of life. Further, the opioid epidemic has highlighted the importance of effective and safe pain management. This presentation first discusses pain, procedures requiring pain management, trends in opioid prescribing and addiction, and stewardship. The course then focuses on alternative methods and non-opioids for pain management pre- and post-operatively, their safety, comparative efficacy and contraindications.

Learning Objectives:
After attending this presentation, participants will be able to:
1. Review opioid addiction, trends in prescribing;
2. List and describe alternative methods and non-opioids for dental pain management;
3. Review the comparative efficacy and safety of non-opioid pain medications; and,
4. Review programs, progress and stewardship in prescribing and recommending analgesics to patients.

Bio on page 43.
Dental Hygienists won’t want to miss this innovative Lunch & Learn program just for them! Representatives from the leading preventative products companies will participate in this interactive session where attendees will be seated at tables for lunch and company representatives will travel the room spending time at each table describing their newest materials and answering dental hygienists’ questions.

**Participants must sign up for this course no later than July 1, 2019.**

Dr. George Kushner
**Ticket #: FA11**
Friday, August 16, 2019
1:00 p.m. – 2:00 p.m.
“Bisphosphonates, Osteonecrosis of the Jaws (ONJ) and Dentistry - Where Are We Now and What Do We Know?”
1 C.E. HOUR
FEE: $35.00
Open to All Attendees

There has been a new pathologic entity which was identified in the literature in 2003. Patients were found to have painful exposed bony areas of the jaws which occurred after simple dental procedures such as extractions. There were also reports of spontaneous exposures of bone in the jaws which were symptomatic. The common link was to the drug class of bisphosphonates. Bisphosphonates were given intravenously to cancer patients to combat the hypercalcemia often seen in multiple myeloma and metastatic cancers. This new condition was named osteonecrosis of the jaws (ONJ).

There are also oral forms of bisphosphonate drugs such as Fosamax, Actonel and Boniva. Although there is a higher incidence of osteonecrosis associated with IV administration of bisphosphonates, we have seen cases of ONJ associated with oral bisphosphonates that were prescribed to treat osteoporosis.

The lecture will review what we currently know about bisphosphonates, including recommendations for dental management and prevention of ONJ. We will also discuss what is uncertain at this early stage of the new pathologic entity.

**Objectives:**

1. The participant will understand the new pathologic entity named osteonecrosis of the jaws (ONJ) and the link to bisphosphonate drugs.
2. The participant will understand how modifications may have to be made in the treatment plan to accommodate bisphosphonate patients.
3. The participant will understand the current recommendations in prevention, management and treatment of ONJ.

Bio on page 44.

Kyle Isaacs & Jennifer Hasch
**Ticket #: FA12**
Friday, August 16, 2019
1:00 p.m. – 4:00 p.m.
“On the Move: Delivering Dental Care to Those in Need!”
3 C.E. HOURS
FEE: $90.00 Dentists $70.00 All others
Open to All Attendees

The dental profession is not doing enough to take care of the oral health needs of those unable to access quality and affordable dental care. Many factors play a role in disparities and addressing oral health literacy is imperative for increasing better health outcomes. A variety of challenges exist, both, for the dental practitioner and patients for utilizing and sustaining a traditional delivery of care. This course will help you learn about the challenges and solutions in regards to access to care and help you understand how portable dentistry fits into that equation for best practices in starting your journey of taking care of underserved populations.

**Learning Objectives:**

**Attendees will be able to:**

1) Recognize the barriers for accessing dental care for a variety of populations on the local and national level
2) Summarize how portable dentistry breaks down these barriers
3) Explain the importance of interprofessional relationships and community partnerships

**Methodology:** With real life case presentations, lively conversation and dramatic photo documentation, the course will share the expertise of Kyle Isaacs, RDHEP, BHS, founder of Miles2Smiles and their experience of traversing the world of mobile dental hygiene and Jennifer Hasch, RDH, BS, Dental Services Manager of Shawnee Christian Healthcare Center. This course will help the attendee understand the great need for people who are unable to access care, strategies to implement and improve success rates.

Bio on page 44.
DR. JAMES BRAUN
TICKET #: FA13
Friday, August 16, 2019
1:30 p.m. – 4:30 p.m.
“The Best Options for Your Patients: Lab Cad-Cam Crowns”
Sponsored in part by 3M Oral Care

Cad-cam produced crowns have taken center stage of restorative options. Not only are these lab restorations strong, but they are beautiful in nature. This course will identify ceramic options and how to work with your lab for ultimate success.

Objectives:
1. To review options for lab produced cad-cam crowns
2. Outline specific ingredients for success
3. Understand critical aspects of impression making

“Effective Assisting”
Sponsored in part by Bisco Dental Products, GC America & Prexion

This dental assisting continuing education course is designed to teach dental assistants and EFDA’s the skills necessary to better support their dentists in the everyday routines associated with a general dental practice. A lecture-based program coupled with everyday practice essentials is the basis of this class. The topics covered will include basic material science, procedural protocols and topics related to patient care and treatment.

Course Objectives:
• Learn how to achieve employment security in a no-job-security world
• Learn basic material science principles
• Understand differences between etch/rinse vs. self-etch
• Review impression materials and cements (conventional vs. resin)
• Discuss temporary fabrication, material selection, shade selection
• Define importance of patient communication

Bio on page 42.

DR. JOE BLAES
TICKET #: FA15
Friday, August 16, 2019
1:30 p.m. – 4:30 p.m.
“Great Products for Your Practice” – Workshop
Limited to 54 participants

This exciting products, techniques and strategies workshop presents the features and benefits that will change your practice. Dr. Joe Blaes will explain how he uses these products every day in his practice. Discover how techniques and products come together to create systems that will produce a consistent outcome with every procedure. These systems result in less stress for the entire dental team. Learn proven ways to make your days more efficient and productive. Product educators will be available to demonstrate and answer all questions. Attendees will be able to experience how easy each product is to use. You will “speed date” using these exciting dental products while saving your precious time and money.

Learning Objectives:
• To incorporate new technology into your practice
• When and why to change to a new product
• About products that enhance your clinical procedures
• To reduce stress in your office

FRED SAGESTER
TICKET #: FA16
Friday, August 16, 2019
2:00 p.m. – 4:00 p.m.
“Cybercrime in Dentistry: How Real is the Threat?”
Sponsored by PNC Bank

In today’s digital world, data security is essential to every dental practice. Most offices are severely under protected and in many cases don’t realize they have little to no security at all. In this course we will discuss the potential types of cybersecurity threats that your office must protect itself against, why healthcare data is so valuable to hackers and how doctors can protect their data and their practice. This course is extremely eye opening to what exactly practices have to defend themselves against. We will also explore the dark web and show doctors that much of their personal information, including their passwords, is already being bought and sold. This is one course that you don’t want to miss.

Bio on page 46.
Prevention of alveolar bone loss and maintenance of alveolar bone structure and soft tissue are mandatory for the long-term successful outcome of conventional or implant-supported prosthetic replacements. Soft and hard tissue complications can lead to unsatisfactory results for the patient including unacceptable esthetics, inadequate function, poor phonetics, and lack of confidence. This course emphasizes the identification of potential complications, the rationale for soft and hard tissue grafting, treatment planning and successful techniques for socket preservation and ridge augmentation in addition to the practical aspects of presentation and preparation of cases.

Topics include an in-depth discussion of the diagnosis and treatment planning for successful management of soft and hard tissue ridge defects; contemporary and future socket preservation and ridge augmentation techniques and the choice of appropriate graft materials and membranes for successful regeneration.

Learning Outcomes:
At the end of the program, participants will have learned:
• to correctly diagnose and treatment plan for soft and hard tissue defects
• predictable techniques for socket preservation and ridge augmentation
• when and where to use different flap designs
• which graft materials to use, when and how to incorporate membranes for successful socket preservation and ridge augmentation
• future trends for predictable soft and hard tissue grafting techniques

PLEASE NOTE: Attendees may wish to attend the Predictable Bone Grafting for Site Preparation for Implants & Restorative Dentistry Workshop scheduled for Friday, August 16, 2019 from 4:00 p.m. – 5:00 p.m. The hands-on workshop is limited to 28 participants and this lecture is a pre-requisite.

Bio on page 43.

Sponsored in part Dentsply/Sirona
As practitioners in the field of dentistry, we need to be aware that complications can and will occur during our treatment of patients. Fortunately, most of the complications that occur are not life threatening. However, many complications require extensive additional treatment and some complications can be life threatening. In years past, complications were not routinely discussed in the dental community. By evaluating a series of clinical complications, we can analyze the etiology and make practitioners aware of possible adverse sequelae. The management of these complications will be discussed. By studying complications, we can hopefully decrease the potential complication rate in our own patient population.

Bio on page 44.

More and more dentists are seeing young patients who want to improve the appearance of their smiles. Unfortunately, orthodontics does not have the ability to cure all of young patients’ esthetic concerns. This half-day lecture discusses the materials and techniques that can allow a dentist to predictably use very conservative techniques to create beautiful smiles for young people. Topics covered include esthetic recontouring, bleaching procedures, anterior direct bonding, the many uses of indirect composites and a discussion on the application of implants. The course discusses many different techniques and material, but will also have discussion on treatment planning, case and material selection. This is an excellent course for dentists who are concerned with the overall treatment of young people with elective dental procedures.

Course Objectives:
• Discuss treatment options specific to this younger demographic
• Review the many different minimally or non-invasive options available to make esthetic change
• Discuss the psychology involved when dealing with image-related issues with this demographic
• Discussion on case selection
• Review basic principle of bonded dentistry

Bio on page 45.

Research suggests that nearly 70% of all cancers are potentially preventable and related to our lifestyles with 30% of cancers attributed to dietary factors. But food can work in our favor, to reduce our risk of cancer IF we eat the right foods, prepared in the right way. In this session, fifteen different foods and their phytochemicals will be discussed as well as the mechanisms by which these foods fight cancer. Findings from cancer research focusing on chemoprevention of particular foods will be discussed. Tips from research about how to prepare these foods to preserve maximum potency of important cancer fighting substances will be shared.

Learning Objectives:
1. Learn the mechanisms by which certain foods fight cancer
2. Learn the foods that research has found to be protective against cancer
3. Learn evidenced-based preparation tips that will help preserve cancer fighting phytochemicals in foods

Bio on page 46.

Family abuse is a global problem, but it touches every one of us either directly or indirectly. If we accept that each member of the dental team does have a role to play, the challenge is in knowing how we can help our patients.

Learning Objectives:
• Understanding the scope of the problem
• Recognizing the signs of family abuse
• Having a conversation with your patient
• Charting and documentation
• Ethical issues related to family abuse
• Referrals & Resources

**Special Events**

- SE1 William Marcus Randall Memorial Reception/Opening Session Featuring Keynote Speaker Rex Chapman $40.00 per person
- SE2 President’s Reception & Thursday Night Social Event NO FEE (But you must have a ticket)
- SE3 Whet Your Palette/Painting & Wine $60.00

There will be a $10.00 increase in ticket prices at the door. The KDA WILL NOT replace lost tickets.

**KDA Office Closing:** The KDA Executive Office will close at the end of business on Tuesday, August 13, 2019 and will reopen on Tuesday, August 20, 2019 at 9:00 a.m. See Registration Form on next page...

**Earn 2 CE Points by Visiting Your Exhibitors!**

The Kentucky Board of Dentistry will no longer give 2 hours of CE credit for attending our meeting, HOWEVER, you may now earn up to 2 CE credits by visiting your exhibitors in the exhibit hall. Simply complete up to 2 sign-off cards, each containing ten sign-off squares, for a total of 2 CE points. Each square must be stamped by a different exhibitor you have visited. You may find these cards at the KDA registration desk on the 2nd floor of the Galt House East Hotel.

**Find CE Course Handouts on Our Website**

Course handouts will be made available on the KDA’s website at http://www.kyda.org/the-kentucky-meeting.html Please note that some speakers have chosen not to provide handouts. These materials are not printed for distribution on-site. If you wish to have these materials to reference during the course, please bring a printed copy with you.
## Course Registration Form

Deadline for return is Thursday, August 1, 2019

Registration/ticket order form MUST be postmarked by August 1, 2019. Any forms postmarked after this date will be returned. No faxes will be accepted.

“Grow Your Practice Using Social Media Marketing”  
Sponsored in part by My Social Practice

3 C.E. HOURS

**FEE: $90.00 Dentists**  
$70.00 All others  
Open to All Attendees

Progressive practices use social media marketing to attract new patients, raise top-of-mind awareness and referrals, decrease attrition, increase case acceptance and strengthen patient relationships. But effective social media isn’t something you “have”—it’s something that you “do”! Remarkable, share-worthy social media content helps your complete digital marketing strategy—including reputation management. Social media is no longer an adjunct to some other marketing plan. So how do you navigate and benefit from this dynamic environment with the limited time and resources you have to spend on marketing?

**Learning Objectives:**  
• Start creating content that helps new patients find you  
• Learn why boosting and targeting Facebook posts are so important for success  
• Become consistent using ideas that don’t take too much time or budget

**Bio on page 44.**

• Principles of Effective Communication  
• Getting patients in the door  
• Effective Phone Principles  
• Introducing new patients into the practice

**Bio on page 47.**
Human trafficking is occurring in every community in Kentucky, but often goes unrecognized because of misconceptions held by those in a position to interact with and assist trafficking victims. This presentation focuses on dispelling those myths and giving attendees insight into how traffickers recruit victims and how those victims may present in daily life. Also covered will be how to interact with possible victims and the duty to report all Kentuckians share.

Bio on page 46.

**Mission Based Dentistry — An Out of Office Experience!**

Practical tips for leading or participating in dental mission trips will be given, along with some discussion of pitfalls that can happen. We will discuss what to take on a mission trip and resources to help you plan your next dental adventure. If you have a dental mission trip planned or are just curious about this type of dentistry, won’t you step out of your office - and perhaps your comfort zone - for your next “Out of Office Experience”?

Bio on page 44.

Since the stock market bottomed in 2009, the market has been up, up, up. With only a handful of periods of market pullbacks, many investors have been lulled to sleep with both their investments and their retirement plans. Join us to hear five key steps that everyone should be doing as they prepare for retirement.

“Protecting Your Practice from
External and Internal Threats – HIPAA
Compliance & Cybersecurity”
Presented by Commonwealth Technology

3 C.E. HOURS
FEE: $50.00
Open to All Attendees

HIPAA compliance and cybersecurity are tightly intertwined for a reason. As practices continue to move into the digital age, cyber threats become a larger concern. Additionally, the more PHI your practice contains and has access to, the larger your target becomes. In this session we will discuss how to mitigate risk from external and internal threats and how that ties into your cybersecurity strategy. We are living in an age now where the solutions to prevent data breaches and HIPAA violations are far less than the damage they can cause your practice. Join us as we teach you how to protect yourself, your practice and your patients without expending valuable time, resources and dollars.

“Help New Patients Find YOU Through
Social Media”
Sponsored in part by My Social Practice

3 C.E. HOURS
FEE: $90.00 Dentists $70.00 All others
Open to All Attendees

There are widely held misperceptions in dentistry about how social media marketing really works in helping dental practices grow. Come learn what effective social media marketing is, and isn’t, for a dental practice. Digital marketing is no longer about turning strangers into new patients. It’s about turning existing patients and fans into advocates for your practice. And successful social media marketing always starts inside the practice, not online. Learn how to easily become effective, starting today.

Learning Objectives:
• Learn from examples and case studies you’ll use immediately to grow your own practice
• Evaluate your online footprint and set goals for better managing your reputation through social media
• Start creating the kinds of posts that raise top-of-mind awareness for your practice

Saturday, August 17, 2019
2:00 p.m. – 4:00 p.m.
“I’ve Found this Lesion...Now What!”

2 C.E. HOURS
FEE: $70.00 Dentists  $50.00 All others
D, H, A, ST

This session will be a two-hour clinical pathologic conference applicable to all members of the dental team. A series of clinical cases will be presented with the “thought process” involved to establish the diagnosis and treatment. The program will be clinically oriented, interactive and educational.

Objective #1: Review clinical presentations of common oral and maxillofacial pathology conditions that present in the dental office.

Objective #2: Discuss common adjuncts to help establish the diagnosis of a pathologic condition such as biopsy, radiographs (including panorex and CT scan) and laboratory tests.

Objective #3: Review treatment, both medical and surgical, of common oral pathology conditions.

Bios on pages 44, 46 & 42.

TICKET #: SA14

Saturday, August 17, 2019
2:00 p.m. – 5:00 p.m.
“OSHA and Infection Control in the Dental Office 2019”
Sponsored in part by the Kentucky Dental Laboratory Association

3 C.E. HOURS
FEE: $95.00

Open to All Attendees

Kentucky OSHA requires that all dental personnel be trained in the Bloodborne Pathogen Standard and the revised Hazard Communication/GHS Standard. Dental personnel should receive an initial training and thereafter, an annual update. This course reviews the following standards and guidelines and offers suggestions on how to implement them in your office:

• OSHA Hazard Communication Standard/GHS Standard (must comply by June 1, 2016)
• OSHA Bloodborne Pathogen Standard
• CDC Dental Guidelines 2016
• The Needlestick Safety and Prevention Act
• U.S. Public Health Service Guidelines for the Management of Occupational Exposures to HBV, HCV, and HIV and Recommendations for Post Exposure Prophylaxis
• CDC Guidelines for Hand Hygiene in Healthcare

This presentation will provide a very practical approach to implementing the regulations and guidelines in the dental office.

Saturday, August 17, 2019
2:30 p.m. – 4:00 p.m.
“Behavioral Finance - Why Do Investors Act Irrationally and What can You do About It?”

1.5 C.E. HOURS
FEE: $50.00
D, SP, ST

Behavioral finance is the study of the influence of psychology on the behavior of financial decision-making. The study seeks to understand why we all act irrationally when it comes to money and to help reduce irrational outcomes. Join us as we discuss the top behavioral finance issues that challenge investors and hear our ideas for overcoming negative behavioral tendencies.

Presenters:
Andy Reynolds, CFP®, MBA
Frank E. Yozwiak, J.D., LL.M. in Taxation

CPR CERTIFICATION
TICKET #: SU1
Sunday, August 18, 2019
9:00 a.m. – Noon
“Basic Life Support - BLS Healthcare Provider Training”
Presented by Dewayne Livers

FEE: $100.00
Open to All Attendees

The Cardiopulmonary Resuscitation course will be conducted within the most recent updated guidelines of the American Heart Association. This course is three hours and will include adult, child and infant CPR, foreign body airway obstruction and an AED presentation.

Each participant will receive a two-year certification card the day of the class.

This course complies with the requirements of the Kentucky Board of Dentistry for dental hygienists for provisions stipulated in 201 KAR 8:532, for dental assistants for provisions stipulated in 201 KAR 8:530 and for dentists for provisions stipulated in 201 KAR 8:530.

DR. GEORGE KUSHNER
TICKET #: SU2
Sunday, August 18, 2019
9:00 a.m. – Noon
“Medical Emergencies in the Dental Office”

3 C.E. HOURS
FEE: $100.00
Open to All Attendees

Medical emergencies can and do occur in the dental office. With advances in the medical field, we, as dental practitioners, are seeing and treating a significant medically-compromised patient population as outpatients in our dental offices. Fortunately, most of the emergencies that occur are treated appropriately and there is little harm to the patient. However, improper management of these emergencies can have disastrous results. Likewise, proper management of the medical emergency is no guarantee of a successful outcome.

This course will review common medical emergencies and management of these problems. Clinical “pearls” will be discussed that can hopefully lessen the chances of these emergencies. This presentation should be applicable to all members of the dental office team.

This course is approved by the Kentucky Board of Dentistry and meets the requirements for dental hygienists for provisions stipulated in 201 KAR 8:562.

PATTY BONASSO BYRD
TICKET #: SU3
Sunday, August 18, 2019
9:00 a.m. – Noon
“Recognizing Drug Abuse in Dental Patients and KASPER Update 2019”

3 C.E. HOURS
FEE: $100.00
Open to All Attendees

Drug abuse is a major health problem in America and impacts every dental practice, as well as our families. Dental professionals can play a huge role in drug abuse identification, prevention and intervention. Emphasis will be placed on increasing your skills and abilities to recognize the signs and symptoms of drug abuse, refer suspected drug abusers for help and treat recovering patients in your practice.

This course will also discuss the Kentucky All Scheduled Prescription Electronic Reporting System (KASPER), as well as current State and Federal regulations important to the prescribing of controlled substances by dentists licensed to practice in Kentucky.

Kentucky Board of Dentistry Regulation for Continuing Education Requirement (KASPER) 201 KAR 8:532. Dentists are required to complete three hours of continuing education that relates to the use of the electronic monitoring system, pain management or addiction disorders prior to renewing their license every renewal cycle.

At the conclusion of this course, the participant should understand:
• The signs and symptoms of illegal drug use/abuse (oral, physical and psychological).
• Drug interactions with substances used during oral care.
• Communication strategies when working with active or recovering patients.
• Resources available to support patients and dental professionals.
• The use of the KASPER system and current State and Federal regulations important to the prescribing of controlled substances by dentists licensed to practice in Kentucky.

**2019 Speaker Bios**

**Bruno Azevedo, DDS, MS** is a Diplomate, American Board of Oral and Maxillofacial Radiology and an Assistant Professor, Oral and Maxillofacial Radiology at the University of Louisville School of Dentistry in Louisville, Kentucky.

**Timothy M. Bizga, DDS, FAGD** is a general dentist practicing in Cleveland, Ohio. His background in dentistry is lengthy and diverse. Once a former chairs assistant, he also worked as a dental lab-technician, making his perspective unique among others in the field of dentistry. He received his DDS from the University of Michigan School of Dentistry. He is currently a member of the American Dental Association and a Fellow in the Academy of General Dentistry. Dr. Bizga is a Certified John Maxwell Speaker/Trainer/Coach, a certified DISC profile trainer, clinical consultant for The Dental Advisor and member of Catapult Education. Dr. Bizga gives back to the community via dental missions around the world.

**Dr. Joe Blaes** created a unique, insurance-free, fee-for-service general practice in St. Louis, Missouri, that emphasizes preventive, aesthetic, reconstructive and implant dentistry. Because of his interest in new, innovative and more efficient materials and techniques, Dr. Blaes began writing a column, “Pearls for Your Practice” in Dental Economics. This column became a trusted source for maximizing dental practice efficiency. For almost two decades he was best known as the Chief Editor of Dental Economics. His lectures and hands-on programs for Dentists, Dental Assistants and Hygienists have won rave reviews around the country. In addition to memberships in many professional organizations, Dr. Blaes is a Fellow of the American College of Dentists, a past President of the American Academy of Dental Practice Administration and a Founding Member of the American Academy for Oral Systemic Health. His honors include St. Louis University’s coveted Alumni Merit Award and the AGD Missouri Dentist of the Year Award 2007. Dr. Blaes is an Educator, Clinician, and Life Long Learner.

**James M. Braun, D.D.S., M.S.** pursued the D.D.S. program at the University of Michigan and after graduation, he earned a master’s degree in Prosthodontics from the same institution. Upon returning to his hometown of Saginaw, Michigan, he established a full-time private practice specializing in Prosthodontics, which has been in continuation for over 30 years. Staff appointments have included the University of Michigan School of Dentistry and hospitals in Ann Arbor and Saginaw, Michigan.

For over 15 years, Dr. Braun has offered seminars at a great number of national and international meetings. Presentations have been made to over twenty A.D.A. affiliated state dental associations and have also included the A.D.A. Annual Session, Greater New York Meeting, the Chicago Mid-Winter Meeting and the Thomas Hinman Meeting. Besides his lecture series, he has conducted numerous hands-on workshops, webinars and published a variety of articles on esthetic restorative dentistry for journals and magazines. Several major dental manufacturing companies utilize his professional skills on a consultant basis for the development of new products. Dr. Braun continues to be selected by Dentistry Today as one of the top clinicians in dental continuing education.

**Patty Bonasso Byrd, RDH, BS** is currently co-director of Infection Control at the University of Louisville School of Dentistry as well as in private practice.

In dental hygiene since 1978, Patty is a graduate of the University of Louisville Dental Hygiene Program. She received her BS in Occupational Training and Development in 2002. She is an active member of the American Dental Hygienists’ Association as well as past president of KDHA.

Having an accomplished background in several dental hygiene arenas, such as clinician, national speaker, corporate educator, faculty, sales and author, she brings a wealth of experience and knowledge to her courses.

**Dr. Brittany Camenisch** graduated from the University of Kentucky College of Dentistry in 2013 as a Doctor of Dental Medicine. After graduating, she worked in private practice and public health. As a general dentist in Richmond, she felt that there was a greater need for access to a periodontal specialist.

She returned to complete a three-year residency in periodontology and implantology at UKCD, where the curriculum focused on digital dentistry, LANAP (Laser Assisted New Attachment Procedure), minimally invasive soft tissue procedures and traditional periodontal surgeries.

During her residency, Dr. Camenisch served as the chief periodontal resident. She is an active member of the Kentucky Dental Association, American Dental Association, American Academy of Periodontics, and International Team for Implantology.

Dr. Camenisch has a private practice in Richmond, KY, Kentucky Periodontics and Implant Dentistry, which is open three days
a week. She also serves as an adjunct instructor for the periodontics department at the University of Kentucky College of Dentistry. In her spare time, she enjoys spending time with her niece, Caroline, and rooting for the Kentucky Wildcats!

Jerry W. Caudill, DMD, FAGD, MAGD, CDC, CTCP, FPFA, FICD, FACD is the Kentucky State Dental Director and a Senior Dental Director for Avèsis Incorporated, a Guardian Company. Avèsis administers the dental benefits for four of Kentucky’s five MCOs, administering an aggregate of over 1.1 million Kentucky Medicaid patients for Aetna, Humana- CareSource, Passport and WellCare. He is a graduate of the UK College of Dentistry, a Fellow and Master of the Academy of General Dentistry and a Certified Dental Consultant by the AADC. Dr. Caudill is a board examiner for the Council of Interstate Testing Agencies (CITA Board) which administers the ADEX Board exam, recognized in 47 states and territories, including Kentucky. He has practiced in rural Kentucky, Tennessee and North Carolina and participated in treating Medicaid patients in all three states. Dr. Caudill also practiced over seven years in Dubai, UAE and Kuwait. He was the National Dental Director of a multi-state, 120-office DSO and Special Advisor and contributor to the Academy of General Dentistry National Taskforce on Corporate Dentistry. He is a former President of the North Carolina AGD and is a member of the ADA, KDA, LDS, AGD, KYAGD, ADEA, IAO, CIT A and AADC. In addition, he is board-eligible in the International Association for Orthodontics, having completed over 500 CE hours and a five-year course of study in orthodontics from the United States Dental Institute. In 1991, He was among the first

Howard Farran, DDS, MBA, is a practicing dentist with more than 25 years of clinical experience, founder and CEO of Dentaltown Magazine which is celebrating 20 years in publication, #1 Best Selling Author of his book Uncomplicate Business, host of the popular Podcast “Dentistry Uncensored” as well as a noted international speaker on faster, easier, more efficient dentistry. He has captivated audiences around the world with his innovative, informational, off-the-cuff and entertaining lectures for more than two decades. His area of expertise covers many aspects of dentistry, including the business of dentistry and clinical topics. Howard was voted by his peers in the top three on the list of the 2 Most Influential People in Dentistry from 2017-2019.

Dr. Jim Grisdale, B.A., D.D.S., Dip. Prosth., Dip. Perio., M.R.C.D.(C) is a Board-Certified Specialist in Periodontics and Prosthodontics with a part-time private practice in periodontics and implant dentistry in Vancouver, British Columbia. Dr. Grisdale received his undergraduate and graduate degrees from McGill University, as well as a post-graduate degree in Restorative Dentistry and Prosthodontics. He then went on to the University of British Columbia where he received another post-graduate degree in Periodontics. Dr. Grisdale was formerly a full-time assistant professor in the graduate residency program in periodontics at Loma Linda University in Loma Linda, CA. Currently, Dr. Grisdale is a sessional lecturer in the Department of Periodontics at Loma Linda University.

Dr. Grisdale received an Award of Merit for Restorative Dentistry. He lectures extensively in the United States, Canada, Southeast Asia and Europe. He is a mentor for Periodontic and Prosthodontic Study Clubs. Dr. Grisdale has published in the area of treatment for dentin sensitivity, implants, bone regeneration and soft tissue periodontal adhesives. He is an active participant in clinical research and the study of contemporary periodontal products. He is a member of several professional societies.

Dr. Fiona M. Collins, BDS, MBA, MA, FPFA has given presentations on dry mouth, oral disease and prevention, risk assessment, infection prevention and OSHA, HPV, vaping, tobacco cessation, and other topics. She has lectured nationally and internationally in North America, Europe, the Pacific Rim and the Middle East. She is also a consultant and trainer, author and editor. Dr. Collins is the ADA representative to the Association for the Advancement of Medical Instrumentation (AAMI), a member of the ADA and OSAP, and a Fellow of the Pierre Fauchard Academy. During her career, Fiona has lived and worked in five countries. Dr. Collins can be reached at fionacollins@comcast.net.

Jocelyn Coupal is a family violence speaker, expert, consultant and senior trial attorney. She has acted as both, defense and prosecuting attorney, and has tried hundreds of family violence cases. Jocelyn is internationally acknowledged as a family violence expert. She has lectured and taught to a wide variety of audiences, including health care professionals, justice system participants, and educators and in business and community forums on the subject of family abuse. Most recently, she chaired the 2018 Canadian Dental Association Oral Health Roundtable and presented at the 2018 Hinman Meeting and the 2018 GNYDM.
2019 Speaker Bios

**Jack Hadley** developed the curriculum for and has taught the Social Media Marketing track in the MBA program at Brigham Young University’s Marriott School of Management in Provo, Utah. He is also the founder of My Social Practice, an agency providing social media content, strategy and support to dental, orthodontic and dental specialty practices, worldwide. Jack was the former CEO at Lava7®, one of the nation’s first agencies focused exclusively on social media marketing solutions for technology businesses. Jack is an award-winning copywriter and former ad agency Creative Director with a rich background in all aspects of the creative process. He’s an engaging speaker who is frequently asked to address dental groups about social media marketing, creativity and digital marketing.

**Jennifer Hasch**, BS, RDH is the founder of the PHRDH blog and community RDHonamission.com. She is the 2017 recipient of the Colgate/American Dental Hygienists’ Association Community Outreach Award and Kentucky Dental Hygienists’ Association 2018 RDH of the Year. She coordinates the hygiene volunteers for the Louisville Dental Society clinic for Louisville’s most vulnerable populations which has provided over $300,000 in free dental services for the community. She works full-time as the Dental Services Manager at a Federally Qualified Health Center. Her position at Shawnee Christian Healthcare Center includes, both, administrative and clinical roles at the fixed clinic in the underserved West End, providing portable school-based oral health services in eight community schools. She is a committee chair for the Kentucky Oral Health Coalition and Kentucky’s state representative for the DentaQuest Foundation’s Oral Health Progress and Equity Network (OPEN) that fights for health justice and oral health equity for all. When it comes to advocacy, she knows health policy should be a non-partisan issue and is committed to raising the voices of those who are most effected by systemic neglect. She empowers her patients to advocate for their own health. Jennifer is enrolled at Western Kentucky University, studying for her master’s degree in public health and plans to further empower underserved populations. She writes and speaks on topics she passionately believes are important, including public health access, data driven outreach, cultural humility and oral health advocacy.

**Kyle Isaacs** RDHEP, BHS is an expanded practice dental hygienist working in a variety of patient care settings in her home state of Oregon. She is passionate about serving the underserved – nursing homes, memory care facilities, schools, adult foster care homes and private residences for patients who are not ambulatory. Kyle is an ADHA member, and proudly serves on the board of the Oregon Dental Hygienists Association. She is a professional educator for Waterpik. Kyle is a published author in RDH Magazine and has been recognized for her dedication to her profession as a recipient of the 2017 SUNSTAR Award of Distinction and the 2018 Hu-Friedy/ADHA Master Clinician Award.

**Dr. Joe Jacobi** graduated from the Indiana University School of Dentistry in 1975. After running a successful solo general practice for 36 years, he transitioned to a different type of dentistry.

Over the last eight years, he has made 15 trips to areas in the U.S. and 13 countries in Central and South America, the Caribbean, India, Africa and the Philippines. He has traveled with the U.S. Navy, as well as with civilian, university and non-government organizations. In addition, he serves as a mentor to the Pre-Dental Society at the University of Louisville and has taken many students to Remote Area Medical (RAM) clinics in Kentucky, Tennessee and West Virginia, as well as to Louisville Dental Society community clinics.

Dr. Jacobi also serves as the volunteer Director of Manufacturing and Technology Development at WaterStep, a Louisville-based nonprofit that responds to critical needs for safe water and infection prevention in developing countries and disaster situations by evaluating and implementing simple solutions and teaching people to use those tools. He has helped build water treatment systems in Central and South America, India, Africa, the Upper Amazon and Puerto Rico.

Dr Jacobi lives in Louisville, Kentucky, is a Life Member of the ADA, and is a Fellow of the Academy of General Dentistry and the American College of Dentists.

**Dr. George Kushner** is a graduate of Temple University School of Dentistry. Dr. Kushner received his medical degree from the University of Alabama School of Medicine. He completed his Oral and Maxillofacial Surgery residency at the University of Louisville. Currently, Dr. Kushner is Professor of Oral and Maxillofacial Surgery at the University of Louisville. He is the Director of the Oral and Maxillofacial Surgery Residency program.

Dr. Kushner is the author of several publications and articles and lectures extensively throughout the country. He maintains a faculty practice in oral and maxillofacial surgery through the University of Louisville School of Dentistry.
Dr. Terry Norris received a Bachelor of Science in Chemistry and Biology from Geneva College in 1974 and received his DMD from the University of Kentucky College of Dentistry in 1978. He maintained a full-time practice for 40 years and is now the Senior Associate at Jackson Norris Family Dental. In 2014, he began reviewing dental claims for Health Resources, Inc. (HRI) in Evansville, IN and is now Director of Dental Review for HRI/Paramount Dental Insurance, based out of Toledo, OH. He earned the Certified Consultant designation from the American Association of Dental Consultants in 2015. Besides being a Life Member of the American Dental Association, he has also served as President of the Kentucky Dental Association. In addition, he has served on the KDA Council on Annual Sessions for 20 years and as its chair for 15 years. He has Fellowships in the American College of Dentists, the International College of Dentists and the Pierre Fauchard Academy. He will serve as Regent for Section 4 of the American College of Dentists, beginning in September. He has published two papers in The Beacon titled, “Four Quad Scales in One Appointment” and “What is Quality of Care for the Dental Subscriber?” He presented, “Exploring the Paramount Dental Website” for Paramount at their home office.

Dr. Jeffrey Osborne has been in private practice for the past 30 years. He graduated with his dental degree from the University of Texas Dental Branch at Houston and received his MBA in Health Care Administration from the University of Houston.

He has been in private practice for the past 30 years. He has also worked for United Concordia and Cigna Healthcare, and was appointed the head of the Children’s Health Insurance Program (CHIP) by past Gov. G.W. Bush.

Dr. Osborne has incorporated snoring and sleep apnea treatments in his practice for over 20 years. He is a member of the ADA, TDA, AGD, AADSM, ASBA, and AAOSH. He does reviews for the Texas Workforce Commission and serves on the Texas State Board of Dental Examiners expert review panel.

He lives in Pilot Point, Texas on a working ranch where he and his dad breed, sell and race thoroughbred horses. He, and his wife, Kim, have three children who currently attend the University of Mississippi.

Justin Perron has been doing small business consulting since the age of 17, when he started his first business designing websites in Seattle.

While completing a Computer Science degree at the University of Washington, he went on to start two other tech companies white labeling laptops from Taiwan and providing IT training and support, all before the age of 20. As a serial entrepreneur and business consultant, Justin has helped start and scale a number of businesses at various stages, only taking a break to work for large firms like Google and Swisscom Global in order to learn new technologies for his clients. Justin got his first taste of Dental consulting at Google and hasn’t looked back, since. He now represents a large staff of IT Engineers, Cybersecurity Specialists, and HIPAA consultants at Visual Edge Technology and Commonwealth Technology, companies that have over 5,000 healthcare clients. His daily goals include working with practices to keep them HIPAA-compliant and secure from cyber threats while helping them operate more efficiently and grow to scale by leveraging talent and technology.

Dr. Gary Radz’s practice, Cosmetic Dentistry of Colorado, is located in downtown Denver. He received his dental degree from the University of North Carolina. He is a graduate and former chief resident of both AEGD and GPR residency programs. He has completed and served as an associate instructor for several post graduate dental educational institutions. Over the course of the past 18 years, Dr. Radz has lectured internationally, teaching the materials, techniques and technology used in esthetic dentistry. He has presented at many major national meetings including the ADA, Yankee Dental Congress, Greater New York, Chicago Mid-Winter, both northern and southern California Dental meetings, the Texas Dental Association and 13 years in a row at the American Academy of Cosmetic Dentistry. Since 2004, Dr. Radz has served as an Associate Clinical Professor at the University of Colorado School of Dentistry in the department of Restorative Dentistry.

He has published over 150 articles related to esthetic dentistry and serves on the editorial board of seven different dental journals, including the Journal of Cosmetic Dentistry. He has served as editor-in-chief of two dental journals and served for 10 years as an evaluator for Reality, and now performs product evaluations for Catapult Education.

In 2003 and 2011, he was the program co-chairman for the American Academy of Cosmetic Dentistry’s annual scientific meeting; in 2013 he was Chairman. He is an active member of the AGD. From 2004-2012, he has been listed in Dentistry Today’s “Top Clinician’s in Continuing Education”. Locally, he’s been consistently listed in 5280 magazine’s list of Colorado’s “Top Dentists” by his peers.

Dr. Radz has served as a clinical consultant for dozens of dental manufactures and laboratories. He has provided clinical and promotional photography for commercial publication. His photography has been featured on the cover of five different dental journals, as well as in two calendars. Outside the scope of dentistry, Dr. Radz has contributed his photography to the model portfolio of dozens of local models, professional cheerleaders, TV personalities, and even has had his photography used by an online swimsuit catalogue.
Born and raised in Columbus, Indiana, Andy Reynolds grew up in a family that believed in two things: give to others and be the best version of yourself. He and his wife, Laura, have since gone on to seek to instill those values in their children, Harper, Emma Kate, Caroline and Mack. Whether it is family, clients or colleagues, Andy’s greatest sense of achievement is in helping others reach their goals and desires.

Andy came to Kentucky for his education. He attended Centre College, then continued his education at the University of Kentucky, earning a Master of Business Administration degree.

For Andy, his work is more than a job. The combination of a service-based, yet highly technical field of personal financial decision-making is both, rewarding and challenging. As a partner at Ballast, Andy helps shape the future of the business.

Andy is a Financial Advocate for his clients and is a CERTIFIED FINANCIAL PLANNER™ practitioner. In the community, Andy is a Kentucky Colonel and is a current Board Member for Life Plan of Kentucky, Blue Grass Community Foundation and the Bluegrass Estate Planning Council.

Fred Sagester was a software developer, consulting for Fortune 500 companies, when a friend asked if he would install the computer system in his new dental office. 18 years later, Fred now leads a dental technology company regarded as one of the Midwest’s most talented and respected.

Fred Sagester

A native of Batesville, IN, Fred holds a B.S. degree in computer science from Franklin College of Indiana. After graduation, he worked 15 years for various technology consulting firms, specializing in writing database management systems.

Fred’s significant experience in dental technology and computer integration has led him to be noted as one of the foremost system designers and troubleshooters in the field. He and his team have exceptional knowledge in virtually all of the leading practice management software packages and digital radiography systems. A number of manufacturers, suppliers and even some competitors consult Fred on some of their most challenging technology issues.

Under Fred’s leadership, Sagester Associates Group, Inc. now supports dental offices in five states and maintains bases of operation in Columbus and Indianapolis, IN, and Louisville and Lexington, KY.

Dr. Brian Shumway is an associate professor of Oral and Maxillofacial Pathology at the University of Louisville, School of Dentistry. He received his dental degree from The Ohio State University in 2003, followed by one year of advanced education in general dentistry at the Veteran’s Affairs Audie L. Murphy Memorial Hospital in San Antonio, TX. He then completed a residency in Oral and Maxillofacial Pathology and master’s degree at The Ohio State University. He is a Diplomate of the American Board of Oral and Maxillofacial Pathology and a Fellow of the American Academy of Oral and Maxillofacial Pathology. He teaches in the dental hygiene, predoctoral dental and all specialty dental residency programs. He has an active clinical practice specializing in diagnosis and management of oral diseases and participates in the University of Louisville oral pathology biopsy service.

Dr. Pamela Stein-VanArsdall graduated from the University of Kentucky College of Dentistry in 1990. She has a master’s degree in Public Health with a concentration in health behavior. She practiced general dentistry for 13 years in Carlisle and Mt. Olivet, KY.

In 2003, she became a full-time faculty member at the University of Kentucky in the College of Medicine, teaching anatomy. In 2009, she became a full-time faculty member at the University of Kentucky College of Dentistry, teaching geriatrics and public health. She is the past Academic Dean of the University of Kentucky College of Dentistry and is currently teaching there, part-time. She has published funded research in the Journal of the American Dental Association, the Journal of Dental Research, the Annals of Long-Term Care, Alzheimer’s & Dementia, and the Journal of the Alzheimer’s Association.

Dr. VanArsdall has a holistic approach to health. She is a trained health and wellness coach. She is very interested in food as medicine and recently completed training in plant-based professional culinary arts. In her spare time, she enjoys running, gardening, cooking and spending time with her new grandson, Henry.

Allyson Cox Taylor is a native of Frankfort, KY. She is a graduate of Western Hills High School, Morehead State University where she received Bachelors of Arts in English and Government, and the University of Louisville’s Brandeis College of Law where she received her law degree in 2002 and was named the “Outstanding Female Graduate” for her work on issues related to violence against women and children.

Allyson worked as a domestic violence and sex crimes prosecutor in Louisville for almost 10 years before moving back to Frankfort...
in 2011 to work for Attorney General Jack Conway as Director of the Prosecutors Advisory Council and the Office of Victims Advocacy, helping to shape policy related to crime victims protection, human trafficking and the administration of the state’s 177 prosecutors’ offices. She served two and a half years as Policy Advisor to the Commissioner of the Kentucky Department for Public Health, operating as Chief of Staff and Legislative Liaison for the Department where she helped to guide policy decisions related to unaccompanied minors, human trafficking and the long term public health outcomes of trafficking and adverse childhood events.

In 2016, Allyson was appointed by Attorney General Andy Beshear to serve as the Executive Director of his newly developed Office of Child Abuse and Human Trafficking Prevention and Prosecution where she works to shape policies and provide training and prosecution assistance related to child abuse and neglect, child pornography, internet safety and child sexual abuse. She lives in Frankfort with her daughters, Brooklyn and Regan. They are active members of the First Baptist Church of Frankfort.

Hernan Varas is a Clinical and Practice Development Executive for Arrowhead Dental Laboratory and the Dr. Dick Barnes Group. He has been in the dental industry for over 30 years. Originally from Chile, Hernan moved to Utah to attend Westminster College in Salt Lake City for a bachelor’s degree. After completing his degree in marketing and communications, Hernan continued his studies at Westminster and received a Master’s in Business Administration, with an emphasis in international management. Since working at Arrowhead, Hernan has visited and worked with hundreds of dental practices alongside Dr. Dick Barnes—including every state in the contiguous United States. Hernan specializes in strategies and techniques for increasing efficiencies and productivity in dental practices, so they can become strong businesses.

Born and raised in Lexington, Frank Yozwiak earned a B.S. in Business from the Richard T. Farmer School of Business at Miami University in Oxford, OH. Frank earned his J.D. and LL.M. in Taxation from The John Marshall Law School in Chicago, IL.

Frank has passed the Bar Exam in both, Illinois and Kentucky. While in Chicago, Frank gained experience and tax knowledge working in the IRS Office of Appeals. Prior to joining the team at Ballast, Frank worked in a boutique Tax and Estate Planning law firm in Lexington where he further expanded his knowledge in those areas.

Frank is a Financial Advocate at Ballast and is active in the community as a Kentucky Colonel, Bluegrass Estate Planning Council Member and Committee of 101 Member. Additionally, he enjoys traveling and spending time with his wife, Alyssa.
