

Dentistry & *all that jazz*

August 25-28, 2022 at French Lick Resort

2022
Kentucky
Meeting

Kentucky Dental Association
Preliminary Program
Guide

Welcome back to French Lick Resort!

Greetings! From the Kentucky Dental Association Executive Board, Council on Annual Session and our amazing KDA staff, welcome to the 2022 annual meeting, Thursday August 25 through Sunday August 28, at French Lick Resort! From a terrific CE program, to playing golf, soaking up the sun at the pool, pampering yourself in the spa, gambling in the casino or most importantly, enjoying in-person camaraderie with your fellow peers, it is worth the trip. Come with us as we celebrate All that Jazz dentistry has to offer!

We have much to celebrate and there is an action-packed schedule to help us do so! Kenny Aronoff, the World Class Drummer, is back for his encore! If you were there last year, you will not want to miss this amazing opportunity. If you did not join us last year, come on out, you will not be disappointed! Help us “Jazz It Up” as we immerse ourselves in the history of French Lick to the beat of Kenny’s drums.

The Council on Annual Session has worked tirelessly to create one of the jazziest CE lineups, to date. Sign up early and sign up often for courses to make sure you get the CE you desire. While CE is available in many places, there is no CE like CE with fellow Kentucky dentists! Bring yourself, bring your staff. There is much to learn, and the entire office will benefit.

It has been an amazing year for our membership. Our Patient Transparency in Dental Benefits insurance bill HB-370 has passed and we are gearing up for more legislative wins in 2023! There is no better time to be a member of the KDA. Share the news with a non-member and invite them to our meeting so they, too, can experience the amazing value of being a member of the Kentucky Dental Association.

I'm looking forward to seeing each of you, there!

Jonathan W. Rich, DMD
President,
Kentucky Dental Association

Located right outside of the Windsor Ballroom on Level 2 of the French Lick Springs Hotel, the registration desk is conveniently open during the following hours:

Friday, August 26, 2022 7:30 a.m. – 4:00 p.m.
Saturday, August 27, 2022 7:30 a.m. – 4:00 p.m.
Sunday, August 28, 2022 8:15 a.m. – 9:00 a.m.

On-site ticket sales only. Tickets will be sold based on availability.

As a member benefit, registration is free of charge to KDA members.

Registration is also free to the following groups:

- American Dental Association members
(Proof of ADA membership is required upon registration)
- Dental Students
- Spouses who are not dentists
- Auxiliary members of the following groups:
 - Kentucky Dental Hygienists Association
 - Kentucky Dental Assistants Association
 - Kentucky Dental Laboratory Association
 - Auxiliary members who are employed by a member of the ADA

Non-Members Can Attend for Only \$299!

Non-Members can register for the 2022 Kentucky Meeting for \$299. This fee includes entry into the exhibit hall and may apply towards 2022 KDA membership dues.

Ticketing Policy

All attendees who pre-register for the 2022 meeting will have their badge and/or tickets mailed in advance of the meeting. You do not have to purchase tickets in order to pre-register for the meeting. All tickets and badges will be mailed to the address indicated on the order form.

Please note that plastic badge holders will not be mailed and will be conveniently located on-site. Completed forms must be postmarked by August 5, 2022.

Tickets may be purchased by MasterCard, Visa, check or money order. Fees will be assessed, up to the maximum allowed by law, for checks not honored by the bank. Tickets will be sold at the meeting depending on availability. There will be a \$10 per ticket increase if purchased at the door. **No CE course tickets will be sold 15 minutes after the start of any course.**

Ticket payment will not be refunded after 5:00 p.m. (EDT) Tuesday, August 23, 2022.

Please note that the KDA will not replace lost tickets!

KDA Exhibit Hall

Free of charge to all Kentucky meeting registrants, the KDA exhibit hall features many exhibitors showcasing product lines and services. Take advantage of an opportune time to discover the newest dental equipment and supplies, with exhibitors on site to answer your questions.

Exhibit Hall Hours

Friday, August 26, 2022
8:30 a.m. – 5:00 p.m.

Saturday, August 27, 2022
8:30 a.m. – 2:30 p.m.

Closed Sunday

Conveniently located in the Windsor Ballroom on Level 2 of the French Lick Springs Hotel.

Please Support Our Exhibitors

Our exhibitors invest extensive resources to attend our meeting. We ask that an extra effort be made to purchase needed supplies and services from them at the meeting!

You must be present to win. You must also show proof that you purchased \$500 worth of goods and/or services from our vendors in the exhibit hall.

General Information

CE Credits

Continuing education courses provided by the Kentucky Dental Association are recognized by the Kentucky Board of Dentistry and most other state licensing bodies. Continuing education requirements differ from state to state. Check with your state for specific requirements. Continuing education credit hours are shown on each synopsis.

Board of Dentistry: Continuing education credit hours are earned by attending courses presented at the meeting. Each course synopsis and course ticket lists the hours earned for attending. Members will be provided with a ticket allowing entry to each course, as well as proof of attendance. The course ID # given at the end of the course must be recorded on the ticket for it to be valid for CE credit.

Note: It is the attendees' responsibility to maintain these cards for their records.

See the Kentucky Board of Dentistry website for additional CE information:

<http://dentistry.ky.gov/Pages/index.aspx>

Calling All KDA Members

Is there a speaker on our program that you've wanted to meet? We are looking for those members interested in meeting, greeting and introducing the wonderful speakers we have on our program.

We offer any paid course at no charge for the person who introduces the speaker for that course. Some exceptions may apply. Call for details.

Duties include arriving early to the course to hand out information to the attendees. Once the course is ready to begin, introduce the speaker. During the presentation, be available to attend to the needs of the speaker should any arise and enjoy the course. At the end, provide the course code numbers for the attendees to obtain CE credit and collect the CE cards. These cards are then returned to the registration desk on Level 2 of the French Lick Springs Hotel.

Call the KDA office as soon as possible to get the speaker of your choice!

KDA Office Closing

The KDA Executive Office will close at the end of business on Tuesday, August 23, 2022 and will reopen on Tuesday, August 30, 2022 at 9:00 a.m. (EDT).

CE Course Handouts are Paperless!

In an effort to minimize paper waste and benefit the environment, course handouts will be made available on the KDA's website at <https://www.kyda.org/ce-course-handouts.html>

Please note that some speakers have chosen not to provide handouts. These materials are not printed for distribution on-site. If you wish to have these materials to reference during the course, please bring a printed copy with you.

Badge Holders

Please note that plastic badge holders will not be mailed with pre-registration materials.

For your convenience, plastic badge holders will be available in the registration area during registration hours.

Alumni Reception

The University of Kentucky and University of Louisville will be hosting alumni receptions on Friday, August 26th. This is a perfect time to catch up with fellow classmates.

University of Kentucky Alumni Reception

6:00 p.m. – 7:30 p.m.

Murdock Room

University of Louisville Alumni Reception

DON'T MISS KENNY!

Friday, August 26, 2022

8:00 p.m. — 11:30 p.m.

Clifton Ballroom

**It's FREE for everyone,
but you must have a ticket!**

There'll be appetizers and
a cash bar!

**Join KDA President,
Dr. Jonathan Rich for
the KDA President's
Reception and help us honor:**

- Our 2022 KDA Award Winners
- Our Past Presidents
- Our 2021 President
Dr. Jonathan Rich
- Our New Dentists
- Dental students are
welcome!

Join Us for **Pluto's Underworld Masquerade Ball**

Who the heck is Pluto, you ask?

Pluto - the mythical Greek God of the underworld. Pluto Water was a popular trademarked laxative mineral water product that was bottled in French Lick, a location with natural mineral springs, and marketed as being from "Pluto's Spring", named for Pluto.

Yes, EVERYONE is invited!

Think...Venetian Masks!

Think...Gatsby Party!

Think...Dress to Impress!

Think...Costume Contest!

Think...DJ and Dancing!

**Think...Live Karaoke
featuring YOU as the STAR!**

Did we mention, we're gonna have
appetizers and a cash bar?

Everyone is welcome:

- KDA member dentists (including
new dentists) and their families
- 1st through 4th year dental
students and pre-dental students
- Dental Auxiliary/Staff
- KDA Patrons, Meeting Exhibitors
and Sponsors

We will be taking special care to follow
ALL required COVID safety guidelines.

On the Show Marquee just for Dental Students!

Oh, the Fun you will have!

Here are soooo many reasons to attend our meeting as a dental student:

Friday and Saturday in the Exhibit Hall

✿ Your name badge gets you free admission into our exhibit hall. (Get one online or at the KDA registration desk.)

1. Meet and say hello to some of our vendors.
2. Play a little Putt Putt Golf and maybe win a gift card.

Friday and Saturday CE classes

✿ With the instructors' permission, audit a class or two.

Friday Night at our Social Event: Awards and Pluto's Underworld Masquerade Ball

8:00 p.m.-11:30 p.m.

Clifton Ballroom

✿ **Dress up** and attend our Friday Night Social Event (Don't forget your **Venetian mask!**)

While you are there:

1. Enjoy food and drink!
2. Mingle with your classmates.
3. Network with dentists.
4. Meet and network with vendors.
5. Watch our Awards presentation.
6. Honor our President, Dr. Jonathan Rich - (He's pretty awesome!)
7. Enjoy our Key Note Speaker, world class drummer to the stars, Kenny Aronoff - (He's pretty darn awesome, too!)
8. Enjoy dancing and maybe even some awesome jazzy music.
9. Have a great time!

Friday Night AFTER our Social Event:

11 p.m.-1 a.m.

- ✿ Join us for more fun at Pluto's Alley inside French Lick Springs Hotel:
1. Yummy Pizza
 2. Unlimited Bowling!
 3. Lots of other fun games
 4. Cocktails and full bar access
 5. Mingle some more with your classmates.
 6. Network with some dentists.
 7. Have a great time!

Saturday morning in class

9 a.m.-10 a.m.

- ✿ A CE course created just for you: Join Dr. Sean Aiken, as he speaks about, "The Fast Track to Practice Ownership for New Graduates."

Saturday morning Garden Party Brunch

11:30 a.m. -1 p.m.

- ✿ Join us for a relaxing brunch in the upper gardens at French Lick Springs Hotel.
- ✿ Enjoy a Mimosa and Bloody Mary Bar, brunch buffet & music.
- ✿ Corn Hole, anyone? (Perhaps a modern take on Gatsby-ish Croquet!)

All events are free to students, but you must have a ticket to attend!

Table Clinic & Hobby Show

Participate in Our Annual Table Clinic and Hobby Show!

You are invited to participate in the annual Table Clinic and Hobby Show during the 2022 Kentucky Meeting to be held on Saturday, August 27, 2022 in the foyer area outside the Windsor Ballroom on Level 2 of the French Lick Springs Hotel.

The Kentucky Dental Association will offer three separate clinic areas. One area is reserved for clinical clinics and information, the second area is for

hobbies and crafts, only, and the third is for research clinics. Let's work together to make this the best year ever! There are cash awards for **each** area (clinical, hobby and research).

1ST Place is \$200.00

2ND Place is \$100.00

3RD Place is \$50.00

In past years this has been a very popular and well-attended feature at the annual meeting. There is so much information to share. This would be a great office project with everyone participating or hygienists and assistants could work together or separately to represent your office. Also, individuals are very welcome to present their clinic. There is ample time to put together your program. Please encourage your spouse, family members and auxiliary personnel to be a part of the fun!

Table clinics may be anything you feel would be of interest to the profession and should be able to be presented in a minimal amount of time (5-10 minutes). New and improved techniques, time saving ideas, case presentations, innovative practice tips, collectibles and crafted items represent just a few of the possibilities.

I know there are many talented people and many wonderful hobbies in our association. Let's get together and share our recreational interests and enjoy this wonderful profession.

The Table Clinic and Hobby Show will be Saturday, August 27, 2022 from Noon – 2:00 p.m. **You are required to be present and remain with your clinic for the entire time.**

One six-foot table or a tack board will be provided (per clinic) – no additional space is available. Please indicate whether you require a tack board or table for your presentation on the reservation form.

The set up time is 11:00 a.m. – NOON. Please set up your clinic at least one half hour prior to the session. The clinics will be assigned a particular space as reservations are received. Look for your name and topic displayed on each table. For students or groups, please identify the primary participant (one person) and then name each individual participant. Students use name only, not intended degree.

No audiovisual equipment will be provided by the KDA.

So that the committee may make the necessary preparations to ensure that your clinic needs are met, it is requested that you complete the application and return it to the Kentucky Dental Association office by August 5, 2022.

All dental participants must be members of the Kentucky Dental Association.

Table Clinic & Hobby Show

Reserve Space for Me to Present

Table Clinic_____ Hobby_____ Research Clinic_____

Kentucky Dental Association Annual Meeting

Parking is Free

When making reservations by phone, please indicate affiliation with the Kentucky Dental Association to receive listed room rates, and use **Group Code 0822KDA**

Registration Information

Register Early and Save

All course fees increase \$10 (per ticket) after August 5th. Tickets will be sold based on availability.

Use the registration form included in this brochure. Form may be copied. List all staff members, spouses, etc. on the doctor's form. Select CE courses or special event tickets. Complete form in its entirety and mail to the Kentucky Dental Association office by August 5th. Forms postmarked after August 5th will be returned. Forms that are not legible will also be returned. Registrations are processed in the order received. Fees are payable to the Kentucky Dental Association in U.S. funds by check, money order, MasterCard or Visa. Credit card users must supply a new credit card number within 24-hours of denial notification or ordered tickets will be returned to inventory. Fees will be assessed, up to the maximum allowed by law, for checks not honored by the bank.

Tickets **will not** be held. You may also register on-line at <https://www.kyda.org/ky-meeting-registration.html>

Lost Tickets

Lost tickets are replaced at the original cost based on availability.

Room Capacity

All rooms are set to maximum seating capacity. Space in limited attendance courses is restricted by the speaker to ensure quality instruction.

Please note that room space dictates the number of tickets available and courses could sell out before the meeting begins.

Pre-registration for the meeting does not guarantee a ticket for any particular CE course.

KDA Non-Solicitation Policies

All speakers are contracted by the Kentucky Dental Association. Utilization of said speakers by other persons or groups will not be permitted unless approved prior to the meeting by the Council on Annual Session.

With the exception of exhibitors operating with designated booth spaces, no attendee may solicit business on the exhibit floor or in any other Kentucky Dental Association convention space. Violation of this policy will result in expulsion from the meeting.

The Kentucky Dental Association does not promote any products that may be recommended by speakers, nor do the speaker's views necessarily represent those of the Kentucky Dental Association.

Refund Policy

Refund Deadline: August 23, 2022. Send written request for refund with badges and tickets to the Kentucky Dental Association, Attn: Todd Edwards, 1920 Nelson Miller Parkway, Louisville, KY 40223. No refunds will be given after the stated deadline regardless of the reason. Refunds are processed after the close of the meeting.

Your Comfort is Important!

We all have different ideas of the ideal indoor temperature – you may find the temperature in lecture rooms and the exhibit hall “too hot” or “too cold” for comfort. Try as we might, we can't guarantee the temperature will be “just right” for everyone, so please come prepared: dress in layers and bring a sweater or light jacket to the meeting.

Per fire codes, once a course is full, attendees will not be allowed to sit on the floor, bring chairs in from another room or stand in the back.

Registration Materials

Badges and tickets are mailed to those who pre-register prior to the meeting. Registration materials will be mailed to those who pre-register around the end of July 2022. It is the responsibility of the attendees to bring all necessary items with them to the meeting. Obtain a plastic badge holder, on-site quick reference guide/room assignment list at the registration desk during registration hours. **Also, please remember to check the KDA website at <https://www.kyda.org/ce-course-handouts.html> to see if the course you are attending has a handout.**

On-site Registration Hours

Friday, August 26, 2022

7:30 a.m. – 4:00 p.m.

Saturday, August 27, 2022

7:30 a.m. – 4:00 p.m.

Sunday, August 28, 2022

8:15 a.m. – 9:00 a.m.

A Message From Your Meeting Planner

Dear KDA/ADA Member, I would like to encourage you to share this program with your staff members and your families as programs are mailed only to KDA/ADA members. We have events on our schedule in which family/staff members may like to participate. Bring your whole family and join us for the fun!

Sincerely, Janet Glover, KDA Director of Meetings

All program information has been compiled by Janet Glover, Director of Meetings.

Welcome Dental Students!

Welcome to a more student-friendly meeting! Students have their own badge classification, which allows them free access to our exhibit hall!

Friday, students are invited to attend our Friday Night Social Event, including our William Marcus Randall Memorial Reception, Awards Presentation, World Class Drummer and Keynote Speaker Kenny Aronoff, and last but not least, Pluto's Underworld Masquerade Ball.

Saturday morning, Dr. Sean Aiken will speak to you about practice ownership and then, please join us for a Garden Party Brunch on the lawn!

See page 7 for more details! Don't miss all the fun! Everything is FREE for students!

KDA Leadership Positions for which you will be voting during the General Assembly in French Lick

Dr. Kevin Wall, KDA Secretary-Treasurer, wishes to announce the election of 2022 KDA officers.

Please Note: New KDA election process guidelines dictate that nominations for offices elected in the general assembly are to be made in advance of the meeting. In the past, nominations were made from the floor of the general assembly. Candidates' personal statements and photographs will be published in the May/June 2022 issue of KDA TODAY. The elections of the House of Delegates do not come under these new guidelines.

**General Assembly,
2-2:30 P.M. on Saturday, August 27**

KDA positions for 2022:

You must be a KDA member to qualify.

1) Second Vice President (No Applications were received)

2) Delegate to the ADA – 2023 #1

(Currently occupied by Ansley Depp/Eligible for Re-election)

3) Delegate to the ADA – 2023 #2

(Currently occupied by Andy Elliott/Eligible for Re-election)

**House of Delegates,
immediately following
General Assembly at 2:30-4 p.m.
on Saturday, August 27**

Open House of Delegates position for 2022:

You must be a member of the KDA House of Delegates

4) KDA Speaker of the House (One-year term*)

**As currently stated in the KDA Bylaws*

If you are interested in running for one of these offices, contact Dr. Kevin Wall, KDA Secretary-Treasurer at kevinwallmd@gmail.com

Save Time and Register Early for CE Courses!

- Avoid a last minute rush!
- Use your time wisely!
- Because of space constraints, some CE courses may sell out early.
- Get to your class on time!

Leisurely Train Ride on the French Lick Scenic Railway

All aboard at the French Lick Scenic Railway for this exciting train ride through the rolling hills of the Hoosier National Forest in Southern Indiana. Features include passage through a 2,200-foot long tunnel (the second longest rail tunnel in Indiana) and narration from this scenic railway. Sit back, relax and enjoy the clickity-clack.

Walking Tour of French Lick West Baden Museum

Experience the area's rich history circa 1900-1930. See the room-sized miniature Hagenbeck-Wallace Circus. Learn about the famous artists, politicians, and sports figures who once called the area home.

Scenic Boat Cruise on Patoka Lake

Enjoy the state's second largest and cleanest man-made lake with more than 27,000 acres of lush forests and wildlife viewing such as Bald Eagles and Osprey. Relax on board a 60' tour boat with indoor as well as open air upper deck viewing areas. Luncheon options are available aboard the boat or in their banquet facilities and can range from boxed to catered. Patoka Lake Winery opened in 2016 and includes tastings, lodging and cheese/dessert options.

Historic Landmarks Walking Tour of West Baden Springs Hotel

This former "Eighth Wonder of the World" was a lavish resort when it opened in 1902. This 60-minute guided walking tour features the elegant atrium, restored lobby, lush gardens and mineral springs pavilions. Details related to the historic restoration project are highlighted.

Holiday World & Splashin' Safari Theme Park and Rides Santa Claus, IN

Patoka Lake Nature Center

There is something for everyone at Patoka Lake, whether you enjoy camping, fishing, boating, hunting or just being outdoors. Hike one of the four trails or bring your bike and cruise along a scenic bike path. Swim at the beach and enjoy a game of disc golf at the 18-hole course. See live raptors up close and tour the newly re-constructed Moery Cabin at the Nature Center. Fun for the whole family awaits you at Patoka Lake! Learn more at: <https://www.in.gov/dnr/parklake/2953.htm>

Experience Animal Encounters at Wilstem Wildlife Park

Available March 12th through October 30th, 2022, meet the whole Wilstem Crew during a rive-thru Safari which includes a cup of feed and Grizzly Ridge Walk Thru. Then join your own personal guide in our Roos and Crew Barn, interact with our crew of Kangaroos and a variety of other animals. Join the Elephant Encounter, then take a break (bring your own lunch or purchase something from our Café, when available). Enjoy a Sloth Encounter and then join the Giraffe Education Encounter. This is an experience you will not forget! To learn more go to: <https://www.wilstem.com/all-access>

French Lick Resort's Storied Past in This Self-guided Walking Tour

Since its early founding, the area of French Lick has been filled with intrigue, adventure and decadence. The rich history surrounding the resort has provided guests with an unmistakable optimism for health, good fortune and the opportunity to satisfy any whim — making it the destination of choice for many of our nation's most regarded clientele. This easy-to-navigate map will guide you around each property. To tour both properties, simply follow the Ferguson Trail: <https://www.frenchlick.com/history/walkingtours>

NOTE: Check ahead with all attractions for any COVID-related closures, changes in hours of operation or COVID regulations.

Find CE Course Handouts on Our Website

Course handouts will be made available on the KDA's website at <https://www.kyda.org/ce-course-handouts.html>. Please note that some speakers have chosen not to provide handouts. These materials are not printed for distribution on-site. If you wish to have these materials to reference during the course, please bring a printed copy with you.

Earn 2 CE Points by Visiting Your Exhibitors!

The Kentucky Board of Dentistry will no longer give 2 hours of CE credit for attending our meeting, **HOWEVER**, you may now earn up to **2 CE credits** by **visiting your exhibitors** in the exhibit hall. Simply complete up to **2** sign-off cards, each containing ten sign-off squares, for a total of **2 CE points**. Each square must be stamped by a different exhibitor you have visited. You may find these cards at the KDA Registration Desk Located right outside of the Windsor Ballroom on Level 2 of the French Lick Springs Hotel.

There will be a \$10.00 increase in ticket prices at the door. The KDA WILL NOT replace lost tickets.

KDA Office Closing: The KDA Executive Office will close at the end of business on Tuesday, August 23, 2022 and will reopen on Tuesday, August 30, 2022 at 9:00 a.m.

**Dr. Thomas Larkin
& Tosha Kozloski,
RDH
Ticket #: FMI**

Friday, August 26, 2022
8:00 a.m. – 10:30 a.m.
**“The Future of
Dental Hygiene Is
Now - A look Into**

**the Technologies and Techniques that will Define the
Future Practice of Dental Hygiene” & “Case Studies
- Incorporating Salivary Diagnostics into Everyday
Practice”**

Sponsored by Oral Systemic Mastery

2.5 Continuing Education Hours
FEE: \$75.00 Dentists \$55.00 All others
AUDIENCE: D ST H A

**8:00 a.m. - 9am - Dr. Thomas Larkin - “The Future of Dental
Hygiene Is Now - A look into the Technologies and Techniques
that will Define the Future Practice of Dental Hygiene.”**

Course Objectives:

- Three technologies to consider in your hygiene department
- Achieving maximum patient engagement and treatment acceptance
- The number 1 KPI in your dental practice
- Inspiring your team members for better performance
- Making prevention profitable

**9:00 a.m. – 10:00 a.m. - Tosha Kozloski, RDH – “Case Studies -
Incorporating Microscopy and Salivary Diagnostics into Everyday
Practice.”**

Is there any secret as to why intra-oral cameras are all the rage in dentistry? Of course not. We've all seen the benefits of showing versus telling for restorative dental needs. This course will teach how a phase-contrast microscope is an intra-oral camera for periodontal disease. Using a phase-contrast microscope greatly enhances the engagement of patients because seeing pathogenic bacteria is believing. When we add salivary lab diagnostics to identify and quantify the causative periodontal pathogens, we can customize periodontal treatments to serve our patients at the highest level. These two technologies mean early detection, which allows for early treatment before bone loss, and before the pathogens are carried systemically.

**10:00 a.m. - 10:30 a.m. - Dr. Thomas Larkin and Tosha Kozloski,
RDH - Q & A in regard to Systematizing the Steps to Engage
Patients, Inspire Clinicians, and Skyrocket Production.**

**Dr. Juan Yepes
Ticket #: FM2**

Friday, August 26, 2022
8:00 a.m. – 11:00 a.m.
**“Pediatric Oral Radiology:
From Radiation Safety
to Lesions to CBCT”**

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D ST H A

This seminar will provide to the attendee the most common radiographic lesions that are presented in infants, children and adolescents. The seminar will use case-presentation as the learning and discussion format and will cover the entire spectrum of oral radiology in pediatric dentistry. Topics such as radiation safety, digital radiology, CBCT in pediatric dentistry, radiographic interpretation and common radiographic lesions in children will be covered in this seminar.

Objectives:

After attending this seminar, the participant will be able to:

- Understand the importance of “building” a differential interpretation in radiology
- Learn the most common radiographic lesions in infants, children and adolescents
- Learn the indications of CBCT within the frame of practicing pediatric dentistry
- Understand the importance of radiation safety in the practice of dentistry with children and adolescents

Speaker bio on page 47.

**Dr. Ashley Clark
Ticket #: FM3**

Friday, August 26, 2022
8:00 a.m. – 11:00 a.m.
**“Preventing Oral Cancer: A Discussion
on Potentially Malignant Disorders”**

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D ST H

This course is designed to provide an overview of premalignant lesions found in the oral cavity. Participants will learn about how these lesions frequently present and understand how to formulate a proper treatment plan for their patients. Leukoplakia and erythroplakia will be among the findings discussed in detail. Audience participation is encouraged when discussing these common findings.

Objectives:

Upon completion of this course, you will be able to:

- Recognize common presentations of potentially malignant disorders
- Determine how to appropriately manage patients with potentially malignant disorders
- Discuss how to decrease the risk for potentially malignant disorders to undergo malignant transformation

Speaker bio on page 43.

Dr. Anne Koch
Ticket #: FM4

Friday, August 26, 2022
8:00 a.m. – 4:00 p.m.
“Endodontics Revisited”
Presented by Real World Endo®
Sponsored by Brasseler USA

6 Continuing Education Hours
FEE: \$135.00 Dentists \$85.00 All others
AUDIENCE: D S T H A

Are you dissatisfied with your level of endodontic expertise?
Do your gutta percha cones consistently come up short?
Do you feel you got shortchanged in dental school in terms of clinical endodontic experience??? If so, please continue to read.

Dr. Koch is back ... and better than ever! In this new all-day course, Dr. Koch begins with a review of generic endodontics. Topics such as how to achieve profound anesthesia and properly accessed molar teeth will be introduced right at the beginning. Furthermore, a vision for endodontic success will be established by discussing techniques and products **“so sophisticated, they’re simple to use.”**

The second half of the morning is dedicated to instrumentation and Dr. Koch will explain why the EndoSequence Blend is, in her opinion, the best rotary protocol ever created! It is because the Blend Technique is intuitive. The “Blend” employs both heat-treated and non-heat-treated files and allows them to work to their maximum safety and effectiveness.

After lunch, “Annie” will focus on bioceramic technology in both endodontics and pediatric dentistry. She will fully explain why bioceramics have become the **New Gold Standard** of obturation sealers. Following the obturation discussion, Dr. Koch will introduce participants to a completely drill-free post system.

The day concludes with a robust hands-on session wherein Dr. Koch will work with every single individual at the hands-on. She will also employ the **Koch Teaching Method** in which every attendee will instrument a bloc or tooth while not looking directly at the bloc or tooth. This ensures a proper understanding of the rhythm technique which is vital to successful instrumentation.

Course Objectives:

At the conclusion of this course, attendees will:

- Understand why there is no such thing as a one file endodontic technique
- Comprehend the synchronous relationship between endodontics and restorative dentistry
- Learn how to place a drill-free post (if required!)
- Recognize the advantages of using a piezo electric ultrasonic
- Learn how to get a Perfect Cone Fit!!!
- Know how to get patients profoundly numb
- Better recognize which cases are best treated by endodontic specialists
- Learn how to make endodontics successful and profitable in their practice!

Dr. Len Tau
Ticket #: FM5

Friday, August 26, 2022
8:30 a.m. – 11:30 a.m.
“Dominate Your Marketing, Online”
Sponsored by Dental Intelligence, Inc.
& Pearl, Inc.

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D S T A O S

Marketing one’s practice, online, can take a lifetime to master and leave you very confused. There are so many options to choose from when it comes to website design, paid advertising, online reviews and search engine optimization. Topics like Facebook Funnels, how to respond to negative reviews and are you actually getting an ROI, leave you scratching your head. The first step to determining what to do is analyzing how your practice currently looks, online, what your competition is doing and where you can improve. In this seminar, Dr. Len Tau, a practicing dentist who has been helping his fellow colleagues navigate through the world of online marketing for over twelve years will take you on a journey to actually help you determine what needs improvement and where you can actually begin.

Learning Objectives:

- Analyze one’s website to see if it violates some of the most common design elements
- See how one’s office ranks, online
- Learn how to generate more online reviews
- Determine whether you are ready to ramp up your marketing
- Make sure you are actually getting return on investment in your current marketing plan

Speaker bio on page 46.

Dr. Thomas Viola
Ticket #: FM6

Friday, August 26, 2022
8:30 a.m. – 11:30 a.m.

**“It’s (Medically) Complicated:
Essential Pharmacology for Treating
our Medically Complex Dental
Patients”**

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: ALL

Dental professionals must frequently draw upon their knowledge of pharmacology for optimal care of today’s medically complex dental patients. However, armed with relatively brief exposure to such a vast subject during formal education and faced with ever-changing medication therapy guidelines, many dental professionals simply cannot keep up with the latest trends in disease state management. This program will provide an overview of the dental implications of the prescription medications, nonprescription medications, herbal products, nutritional supplements and substances of abuse most frequently used by patients. Special emphasis will be given to delivering this essential information in a format which makes it practical and useful for all members of the dental team.

**Upon successful completion of this program,
participants will be able to:**

- Identify the prescription and non-prescription medications most frequently encountered on a patient’s medical history and discuss their indications for use, adverse reactions and impact on dental therapy.
- Identify the most popular herbal products and discuss their purported uses and dental considerations.
- Identify the most common substances of abuse and describe their oral manifestations and dental treatment considerations.

Dr. Pam VanArsdall
Ticket #: FM7

Friday, August 26, 2022
9:00 a.m. – 11:00 a.m.

**“Alzheimer’s Disease: A New Hope
for Prevention and Treatment”**

2 Continuing Education Hours
FEE: \$65.00 Dentists \$45.00 All others
AUDIENCE: D ST H A

Discovered over 100 years ago, Alzheimer’s Disease has long been a dreaded diagnosis with little hope for treatment. In the last two decades, great strides have been made in our understanding of the mechanisms that underlie this form of dementia, enhancing our ability to prevent and treat Alzheimer’s disease. The important work of Dr. Dale Bredesen and other experts will be discussed. Current research regarding the association between oral health and Alzheimer’s disease will be reviewed.

Course Objectives:

- Define cognitive impairment and explain its relationship to Alzheimer’s disease
- Describe testing and diagnostic criteria for Alzheimer’s disease
- Discuss the “36 holes in the roof” theory as it relates to Alzheimer’s disease
- Describe recent research regarding the potential association between oral disease and Alzheimer’s disease and the underlying mechanisms
- Discuss new preventive and treatment strategies that bring hope to those diagnosed with Alzheimer’s disease

Dr. Sam Halabo
Ticket #: FM8

Friday, August 26, 2022
9:00 a.m. – Noon

“Stick it Real Good...Bonding & Cementation with Predictable Materials”

Sponsored by Kettenbach, Shofu Dental Corp., Ultradent & Weave

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D ST A

Today's fast paced dental offices require a countless number of materials and techniques. These procedures demand time and practice to allow dentists to become proficient enough to provide great patient care. During this course, Dr. Halabo will show evidence-based data, case presentations and simple methods of treating most cementation procedures. Make your cementation process simple and predictable and enjoy great outcomes in this step-by-step course!

Learning Objectives:

- Become proficient in deciding which cements to use and when
- Use methods and materials for efficiency and great results
- See presentations of differing protocols for cementing with Zirconia or E-max
- Take home methods to make cementing simple and less time consuming
- Have updates on the latest materials in the market

Speaker bio on page 44.

Brandi Hooker-Evans
Ticket #: FM9

Friday, August 26, 2022
9:00 a.m. – Noon

“Dentists, Hygienists and Cows”

Sponsored by Pain Free Dental Marketing

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D ST H A

Stop herding cattle and discover how to improve patient health while simultaneously cultivating a patient-centered, evidence-based and profitable periodontal therapy program in your practice! Watch production naturally increase and case acceptance go through the roof when implementing this customized patient care model geared to all members of the team.

Learning Objectives:

- Boost problem solving skills that turn an average hygiene routine into a thriving, patient-centered program.
- Enhance your patient oral health assessment, financial conversations and case presentation techniques.
- Explore effective utilization of patient radiographs in case presentation.
- Discover how to incorporate financial discussions in the operatory with ease and compassion.

Dr. George Kushner
Ticket #: FA10

Friday, August 26, 2022
1:00 p.m. – 2:00 p.m.

“Bisphosphonates, Osteonecrosis of the Jaws (ONJ) and Dentistry - Where Are We Now and What Do We Know?”

1 Continuing Education Hour
FEE: \$40.00
AUDIENCE: D ST H A

There has been a new pathologic entity which was identified in the literature in 2003. Patients were found to have painful exposed bony areas of the jaws which occurred after simple dental procedures such as extractions. There were also reports of spontaneous exposures of bone in the jaws which were symptomatic. The common link was to the drug class of bisphosphonates. Bisphosphonates were given intravenously to cancer patients to combat the hypercalcemia often seen in multiple myeloma and metastatic cancers. This new condition was named osteonecrosis of the jaws (ONJ).

There are also oral forms of bisphosphonate drugs such as Fosamax, Actonel and Boniva. Although there is a higher incidence of osteonecrosis associated with IV administration of bisphosphonates, we have seen cases of ONJ associated with oral bisphosphonates that were prescribed to treat osteoporosis.

The lecture will review what we currently know about bisphosphonates, including recommendations for dental management and prevention of ONJ. We will also discuss what is uncertain at this early stage of the new pathologic entity.

Learning Objectives:

- The participant will understand the new pathologic entity named osteonecrosis of the jaws (ONJ) and the link to bisphosphonate drugs.
- The participant will understand how modifications may have to be made in the treatment plan to accommodate bisphosphonate patients.
- The participant will understand the current recommendations in prevention, management and treatment of ONJ.

Speaker bio on page 45.

Ticket #: FA11

Friday, August 26, 2022
1:00 p.m. – 3:00 p.m.

“Foods that Fight Cancer”

2 Continuing Education Hours
FEE: \$65.00 Dentists \$45.00 All others
AUDIENCE: D S T H A

Hundreds of studies point to the power of phytochemicals in foods of plant origin such as fruits, vegetables, nuts, seeds and whole grains to protect against a number of chronic diseases. We will discuss the latest studies that focus on specific phytochemicals (and the foods that contain them) and cancer. We will also discuss the role of foods in inflammation, as many experts believe chronic inflammation creates a favorable environment for cancer growth. Pro-inflammatory and anti-inflammatory foods will be discussed as well as practical tips for limiting pro-inflammatory foods and incorporating more anti-inflammatory foods into everyday eating.

Learning Objectives:

- List three food groups high in phytochemicals suggested in recent studies to help protect against cancer
- Discuss recent research findings regarding cancer and food
- List anti-inflammatory foods
- List pro-inflammatory foods
- Describe practical ways to limit pro-inflammatory foods and increase anti-inflammatory foods

Speaker bio on page 47.

Dr. Juan Yepes

“Obstructive Sleep Apnea in Children: The Dentist’s Role”

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D S T H A

This seminar will provide to the attendee the most up-to-date information regarding the fascinating and emerging field of sleep apnea in children. The seminar will use case-presentation as the learning and discussion format and will cover the entire spectrum of sleep apnea in children and the dentist’s role.

Objectives:

After attending this seminar, the participant will be able to:

- Understand the fundamentals of sleep apnea diagnosis
- Learn the most updated treatment of sleep apnea in children
- Learn the role of the dentist in the identification and treatment of children with sleep apnea

Speaker bio on page 47.

Dr. Mark Nation

Friday, August 26, 2022
1:00 p.m. – 4:00 p.m.

“Delivering Comprehensive Dental Implant Care in the General Dental Practice: Keys to Surgical and Restorative Success and Profitability”

Sponsored in part by Dentsply Sirona

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D S T H A

Dental Implants have been in mainstream dentistry for several decades, now, with the focus of surgical care being referred to specialists, such as periodontists, oral surgeons and prosthodontists. With improvements and access to better diagnostic technology, guided surgical procedures and implant designs, many cases can be handled surgically and restoratively, all in the general practice setting without disruption to the daily routine of a busy practice. Demands on the average practice have only increased since the pandemic. Many dentists need to be able to render more care, themselves, due to pressures on their practices, financially and professionally. The public appetite for dental implants demands that more practitioners be able to deliver this care and in many instances in the same office without referral. Skilled, well-trained, general dentists can deliver most of the dental implant care needed by their patients.

Learning Objectives:

The keys to profitable, predictable, and efficient implant care in the general dental practice are the following:

- Team communication to the patient about dental implant therapy
- Patient selection for implant surgery and restoration in typical general dental setting
- Proper diagnostic acquisition and assessment for care
- Treatment planning for the dental implant
- Surgical guide design and application
- Surgical techniques for site preparation and ultimate implant placement
- Restorative techniques for efficient restoration

The learning objectives that will be shared and discussed in detail will allow the participant to have a well-understood overview of each topic and be able to take the next step toward implementing dental implant therapy as a larger component of their practice. This will enhance the experience of the patient in the practice and give the practitioner the confidence of being able to deliver more comprehensive, needed care for their patients.

Speaker bio on page 45.

Dr. Sam Halabo
Ticket #: FA14

Friday, August 26, 2022
1:30 p.m. – 4:30 p.m.

“Innovations in Composite Technology: Versatile, Simplistic and Cost Effective”

Sponsored by Kettenbach, Shofu Dental Corp., Ultradent & Weave

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D ST A

This course will present composite and bonding systems that will help you achieve the goals of speed, esthetics and productivity. With so many dental restoratives in the marketplace, it has become a task understanding and managing the inventory of bonding systems and composite materials. Learn how to work efficiently and cost effectively while using versatile materials and minimal inventory. Best of all, produce great results for you and your patients!

Learning Objectives:

- Produce composite fillings that are esthetic and fast
- Manage the amount of materials needed and minimize inventory
- Use materials that rate well and have solid studies backing them
- Get tips on improving the quality, speed and beauty of your daily procedure
- Use materials that can help make procedures easier and more fun in the office

Friday, August 26, 2022
2:00 p.m. – 5:00 p.m.

“Complications in Dentistry”

3 Continuing Education Hours
FEE: \$95.00
AUDIENCE: D ST H A

As practitioners in the field of dentistry, we need to be aware that complications can and will occur during our treatment of patients. Fortunately, most of the complications that occur are not life threatening. However, many complications require extensive additional treatment and some complications can be life threatening. In years past, complications were not routinely discussed in the dental community. By evaluating a series of clinical complications, we can analyze the etiology and make practitioners aware of possible adverse sequelae. The management of these complications will be discussed. By studying complications, we can, hopefully, decrease the potential complication rate in our own patient population.

Speaker bio on page 45.

Dr. Ashley Clark
Ticket #: FA16

Friday, August 26, 2022
2:00 p.m. – 5:00 p.m.

“Ulcerative Conditions of the Oral Cavity”

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D ST H A

This course is designed to inform the participant about ulcerative conditions - lesions of the oral cavity ranging from common entities to more rare dermatologic conditions with oral manifestations. Treatment and management of patients with these ulcerative conditions will be reviewed for each entity.

Objectives:

Upon completion of this course, you will be able to:

- Recognize ulcerative conditions of the oral cavity
- Determine a differential diagnosis for ulcerative lesions
- Discuss appropriate treatment and follow-up measures for patients with oral ulcerations

Speaker bio on page 43.

Dr. Thomas Viola
Ticket #: FA17

Friday, August 26, 2022
2:00 p.m. – 5:00 p.m.

“Something in our Mist: Will Vaping Challenge the Dental Profession as Smoking has in the Past?”

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D S T H A S P

Although conventional cigarette smoking among young adults has declined markedly over the past several decades, there has been a substantial increase in the use of vaporizing devices. While originally designed as alternative delivery vehicles for nicotine in place of tobacco, advances in technology and lack of strict regulation has given rise to the use of these devices as delivery vehicles for a variety of substances, especially cannabis. Unfortunately, very little information is available about the safety of the active and inactive ingredients present in products used for vaping. This course will provide participants with an overview of cannabis, vaping and their overall systemic adverse effects. Special emphasis will be given to the oral complications associated with vaping, as well as patient care planning strategies.

Upon successful completion of this program, participants will be able to:

- Describe the pharmacology of cannabis, including its mechanism of action, routes of administration and available formulations.
- Compare smoking and vaping as alternate delivery systems for introducing drugs like nicotine and cannabis into the lungs.
- Describe the oral and systemic complications encountered by patients who vape.
- Explain current available treatment strategies and patient care planning techniques for patients who vape cannabis.

Speaker bio on page 47.

2:00 p.m. – 5:00 p.m.

“Inflammation Avenue: A Two-Way Street”

Sponsored by Pain Free Dental Marketing

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D S T H A

Agreeing that there is an oral systemic connection is easy; applying the evidence as a bi-directional highway in a way our patients can understand can be difficult. In this course, we will take a deep dive into periodontal disease as it connects to other diseases.

Learning Objectives:

- Solidify knowledge of the interconnected nature of inflammatory diseases.
- Identify early signs of autoimmune disease in the oral cavity.
- Gain confidence discussing medical history findings with patients.
- Expand communication and motivational skills in helping patients journey to health.

FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D S T H

This course outlines the current epidemic impacting how our orofacial respiratory complex develops and its influence on health, wellness and the ability to thrive across the lifespan. Specific screening for early identification of orofacial myofunctional disorders and the necessary integrated team approach to care in creating a successful flight plan for our patients will be discussed.

Objectives:

- Defining the epidemic and our current state of health and wellness
- Identifying orofacial respiratory complex deficits from the dental chair; screening and referrals
- Integrating influences of breathing patterns, body and oral postures, oral movement patterns, sleep and overall development
- Resources, community connections, and patient education to support care planning
- Q&A and Case Study (time permitting)

Speaker bio on page 43.

Mark Your Calendar for the **2023 Kentucky Meeting**

August 24-27, 2023

Galt House Hotel
Louisville, KY

Smoking Policy

No smoking is permitted in any portion of French Lick Springs Resort.

Scientific Program Disclaimer

The Kentucky Dental Association and the Council on Annual Session and Scientific Session Committee make every effort to present high-caliber speakers in their respective areas of expertise. The speakers' presentations in no way imply endorsement of any product, technique or service presented during these presentations. The Kentucky Dental Association specifically disclaims responsibility for any material presented.

In addition, participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy.

Golf? Putt Putt, Anyone?

Need to de-stress? Have some fun!

...while you are visiting with our vendor friends in the exhibit hall (and purchasing goods and services)!

Putt Putt Rules:

Practice Time: Friday 8:30 - 11 a.m.

Tournament Start Time: Friday 11:30 a.m.

Practice on your own at 3 stations located inside the exhibit hall. (For safety reasons, we will be using foam practice golf balls.)

1. Each player gets (5) turns. A turn consists of one putt attempt.
2. A made cup = 1 point.
3. 3 best scores play for prizes.
4. Best score wins 1st prize (\$100 Amazon card)
5. 2nd best score wins 2nd prize (\$50 Amazon Card)

After the tournament, everyone is invited to hit balls. De-stress or just take a break and have a little fun!

Purchase a KDA Specialty License Plate!

It's an easy way
to support your KDA Foundation!

HELP! We still
need additional
registrations or our
specialty plate will
GO AWAY forever!

**Vehicle tags support community dental
health service projects across Kentucky
& you can personalize your license
plate!**

**You DO NOT have to be a member of the
KDA to purchase these plates.**

**Anyone may purchase specialty plates
and support dentistry!**

Ten dollars from the original purchase and then
from **each year's renewal** go to support the KDA
Foundation.

For more information regarding our specialty license
plates, contact your local county clerk's office.

Your Comfort Is Important To Us!

We all have different ideas of the ideal
indoor temperature – you may find the
temperature in lecture rooms and the
exhibit hall “too hot” or “too cold” for comfort. Try as we
might, we can't guarantee the temperature will be “just right”
for everyone, so please come prepared: dress in layers and
bring a sweater or light jacket to the meeting. Per fire codes,
once a course is full, attendees will not be allowed to sit on
the floor; bring chairs in from another room or stand in the
back.

Classroom Etiquette

Please remember to “silence” your cell phones while
seated in classrooms. Please step outside to receive/con-
duct phone calls, so you do not disturb other attendees.

Saturday, August 27, 2022
8:00 a.m. – 11:00 a.m.

“Top Coding and Documentation Strategies - Maximize Your Insurance Reimbursement”

Sponsored by eAssist

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D OS

Join Practice Booster’s coding expert Dr. Greg Grobmyer as he discusses coding strategies that will help you minimize write offs, maximize reimbursement and grow your bottom line. Not only will you learn to avoid common errors, you will also learn coding strategies and documentation methods that make the most of your insurance participation.

Objectives:

- Learn the most common coding errors and how to avoid them
- Discuss proper documentation for clean claim submission
- Gain understanding of coding and reporting strategies to maximize reimbursement
- How to involve the entire team in the process

Speaker bio on page 43.

Dr. Leslie Horn
Ticket #: SM2

Saturday, August 27, 2022
8:00 a.m. – 11:00 a.m.

“Setting the Stage: Interdisciplinary Treatment Planning and Implementation of Hard and Soft Tissue Augmentation Techniques for Best Clinical Outcomes”

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D ST H A

Creating or restoring optimal hard and soft tissue architecture is the critical foundation for ideal function and esthetics. This half-day lecture will provide a system for treatment planning complex interdisciplinary cases and demonstrate predictable techniques of hard and soft tissue augmentation.

Learning Objectives:

- Provide a clear treatment planning system for patients with complex dental needs
- Understand the importance of attached gingiva in maintaining health of both natural teeth and implants and show soft tissue techniques for enhancing esthetics prior to restorative procedures
- Demonstrate the newest techniques for horizontal and vertical bone grafting to prepare for optimal implant placement and positioning
- Share the benefits of Wilckodontics in positioning teeth, while enhancing both hard and soft tissue support. Dr. Horn will be joined by Dr. Megan McHugh for this portion of the lecture.

Dr. Horn’s bio on page 44.

Dr. Mark Nation
Ticket #: SM3

Saturday, August 27, 2022
8:00 a.m. – 11:00 a.m.

“My Life, My Dentistry: Diagnostic and Treatment Protocols for the Fully Edentulous”

Sponsored by Straumann

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D ST H A

With advances in the dental implant discipline such as immediate loading procedures, implant design and implant surface technologies, the ability to completely rehabilitate a person with severe dental compromise can occur quickly and efficiently. These advances have led to more and more practitioners wanting to deliver this level of care and patients demanding access to these more complicated procedures. There are many demands diagnostically, surgically and restoratively for successful treatment outcomes.

In this course, you will learn more about Dr. Nation’s treatment philosophy and why he primarily treats only comprehensive cases. He will spend quite a bit of time reviewing and demonstrating techniques and procedures he uses for diagnostic evaluation of the patient, surgically and restoratively. Dr. Nation will review treatment planning parameters concerning esthetics, function, craniofacial structure and biological concerns. He will overview surgical techniques, immediate loading protocols, restorative options and maintenance. Many key details for case success will be shared in this course to enable the participant to walk the path of full arch implant restoration more confidently.

**** This course is a companion course to Dr. Brandon Stapleton’s course (“My Life My Dentistry: Digital Techniques for the Fully Edentulous” Saturday PM Session). Drs. Nation and Stapleton share similar treatment philosophies and techniques. Both presentations are sponsored by Straumann. These companion lectures will greatly enhance the footprint of fully edentulous implant therapy characteristics in any practice, from patient selection to continued support.**

Learning Objectives:

- Learn how to identify the full arch implant patient
- Learn treatment options for full arch implant restoration
- Learn key treatment planning parameters for full arch implant replacement
- Experience an overview of surgical options and rationale for these cases
- Learn efficient immediate provisionalization techniques
- Learn protocols for continued maintenance and support of these patients

Saturday, August 27, 2022
8:30 a.m. – 11:30 a.m.

“Skyrocket Your Case Acceptance Using Software Technology”

Sponsored by Dental Intelligence, Inc. & Pearl, Inc.

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D ST A OS

What separates high-earning doctors from the low-earning ones? There are many things, but one of the most important is case acceptance. You may be the best clinician with the most precise hand skills, but if you cannot articulate why patients should allow you to treat their dental needs, then your success in dentistry will be limited. Nowadays, there are many software technologies that are available that will help you increase this acceptance. Dr. Tau will review many of the available technologies that he uses in his practice that helps him achieve 85% case acceptance. Don't miss this high value class with pearls you can leave with and implement the next business day.

Learning objectives:

- How to increase overall case acceptance
- What current technologies exist to improve your case acceptance
- What is the most important thing to offer to increase your case acceptance
- How your online presence plays a role in case acceptance

Speaker bio on page 46.

Brandi Hooker-Evans

Dr. Sean Aiken
Ticket #: SM6

Saturday, August 27, 2022
9:00 a.m. – 10:00 a.m.

“The Fast Track to Practice Ownership for New Graduates”

1 Continuing Education Hour
NO FEE, but you must have a ticket to attend
AUDIENCE: D ST

For dental students and new graduates who want to get into practice ownership early on in their careers, Dr. Aiken will review his path to purchasing a practice within 18 months of graduating from dental school.

Course will include:

- How to evaluate a practice
- How a valuation is formed
- The “red flags” that come up
- How to assemble a support team in terms of legal and financial help
- And everything in between

Speaker bio on page 42.

Dr. Garth Bobrowski, Moderator & Medicaid Panel
Ticket #: SM7

Panel Members: Dr. Garth Bobrowski, Moderator,
Dr. Jerry Caudill, Dr. Adam Rich
and Medicaid Commissioner Lisa Lee

Saturday, August 27, 2022

9:00 a.m. – Noon

“Medicaid Forum Plus” – Panel Discussion

3 Continuing Education Hours

FEE: \$95.00 Dentists \$75.00 All others

AUDIENCE: D

This course is for any dentist. You don't have to be a Medicaid provider to attend.

Forum: Representatives from all the MCOs will be on hand to answer your questions.

Medicaid Commissioner: Lisa Lee

MCO Contract Language: Not Contract Language, but what IDEAS do we want to change, add or delete.

Your TAC and MAC: Not your usual big mac and fries

Record keeping requirements

Antibiotic recommendations for antibiotic prophylactics for joint and heart valve replacements

Updates on Opioids and Antibiotic Premedication

Speaker bios, L-R, on pages 42, 46 & 45.

Dr. Robin Carroll
Ticket #: SM8

Saturday, August 27, 2022

10:30 a.m. – Noon

“Lessons Learned” - Part I

1.5 Continuing Education Hours

FEE: \$35.00

AUDIENCE: ALL

I have condensed my 27-year educational career into twenty-two lessons that you can use in improving your organization.

These lessons will focus on:

- Culture
- Teamwork
- Service
- Creating Incredible Outcomes

Speaker bio on page 42.

**Dr. Thomas Larkin
& Tosha Kozloski,
RDH**
Ticket #: SA9

Saturday, August 27, 2022
1:00 p.m. – 3:30 p.m.

**“The Future Of
Dental Hygiene Is
Now - A look Into**

**the Technologies and Techniques that will Define the
Future Practice of Dental Hygiene” & “Case Studies
- Incorporating Salivary Diagnostics into Everyday
Practice”**

Sponsored by Oral Systemic Mastery

2.5 Continuing Education Hours
FEE: \$75.00 Dentists \$55.00 All others
AUDIENCE: D ST H A

1:00 p.m. – 2:00 p.m.

**Dr. Thomas Larkin - “The Future of Dental Hygiene Is
Now - A look into the Technologies and Techniques that
will Define the Future Practice of Dental Hygiene.”**

Course Objectives:

- Three technologies to consider in your hygiene department
- Achieving maximum patient engagement and treatment acceptance
- The number 1 KPI in your dental practice
- Inspiring your team members for better performance
- Making prevention profitable

2:00 p.m. – 3:00 p.m.

**Tosha Kozloski, RDH - “Case Studies - Incorporating
Microscopy and Salivary Diagnostics into Everyday
Practice.”**

Is there any secret as to why intra-oral cameras are all the rage in dentistry? Of course not. We've all seen the benefits of showing versus telling for restorative dental needs. This course will teach how a phase-contrast microscope is an intra-oral camera for periodontal disease. Using a phase-contrast microscope greatly enhances the engagement of patients because seeing pathogenic bacteria is believing. When we add salivary lab diagnostics to identify and quantify the causative periodontal pathogens, we can customize periodontal treatments to serve our patients at the highest level. These two technologies mean early detection, which allows for early treatment before bone loss, and before the pathogens are carried systemically.

3:00 p.m. - 3:30 p.m.

**Dr. Thomas Larkin and Tosha Kozloski, RDH - Q & A in
regard to Systematizing the Steps to Engage Patients,
Inspire Clinicians, and Skyrocket Production.**

Speaker bios on page 45.

**“Recent CDT Changes, Common Errors
and Underutilized Codes”**

Sponsored by eAssist

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D ST A OS

Join Practice Booster's coding expert Dr. Greg Grobmyer as he discusses the new and revised codes that will affect your practice, many common mistakes that insurance coordinators make and codes that may not currently be used by your practice.

Objectives:

- Learn the recent updates to the code set that will most affect your practice
- Discuss common coding errors that cost you time and money
- Find out how to increase your revenue by coding and documenting correctly

Speaker bio on page 43.

Dr. Brandon Stapleton
Ticket #: SA11

Saturday, August 27, 2022
1:00 p.m. – 4:00 p.m.

“My Life, My Dentistry: Digital Techniques for the Fully Edentulous”
Sponsored by Straumann

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D S T H A

Dr. Stapleton has grown his practice into a 95% digital practice. Nearly all definitive impressions are made with digital scanners. Even when traditional techniques are used, those records are digitized. With the advances in technology we can now confidently create almost any dental indication digitally, from beginning to end. The digital patient is how we communicate to the patients and to other colleagues when collaboration is needed for a patient.

In this course, you will learn more about Dr. Stapleton’s treatment philosophy and why he primarily treats only comprehensive cases. He will spend quite a bit of time reviewing and demonstrating techniques and equipment he uses daily to create the “digital patient”. Additionally, you’ll get a behind-the-scenes look into what it takes to design and manufacture a complete “Pro-Arch” case completely digital. Sprinkled throughout the course you’ll get some ready-to-use tips to bring back to your clinics on Monday.

With more and more adoption of digital dental technologies into the general practice, being capable of providing complete solutions for the general dentist is more important, now than ever. Since the pandemic, demand has increased across all areas of our profession and being confident in providing the best care available is invaluable. Integration of digital workflows with the available technologies make it easier and easier for the general restorative dentist to tackle some of the more complex restorations. Skilled, well-trained general dentists can deliver most of the dental implant care needed by their patients.

Learning Objectives:

- Learn new approaches to having difficult conversations with patients
- Learn who you can trust or how to figure out who to trust when buying equipment
- Learn how to maximize digital scanning and how to streamline patient appointments by utilizing these technologies
- Learn tips on communicating with the dental laboratory
- Learn how to identify patients who have a “terminal dentition”

The learning objectives that will be shared and discussed in detail will allow the participant to have a well-understood overview and be able to take the leap into digital full mouth dentistry, allowing them to implement at a higher level, focusing mostly on the restorative side of this treatment.

**** This course is a companion course to Dr. Mark Nation’s course (“My Life My Dentistry: Diagnostic and Treatment Protocols for the Fully Edentulous” Saturday AM Session). Drs. Nation and Stapleton share similar treatment philosophies and techniques. For a more thorough overview and understanding of the surgical and restorative paths required for these restorations, we recommend that participants attend both courses. Both presentations are sponsored by Straumann.**

1:30 p.m. – 3:00 p.m.

“Going Deeper” - Part 2

1.5 Continuing Education Hours
FEE: \$35.00
AUDIENCE: ALL

As a follow-up to the morning session “Lessons Learned”, I will go deeper into how to apply these lessons into your organizations.

This session will be more informal and allow for brainstorming answers to specific situations, strategy discussions and sharing “the how” in creating a great organizational culture.

Speaker bio on page 42.

Amanda Chastain
Ticket #: SAI 3

Saturday, August 27, 2022
2:00 p.m. – 5:00 p.m.

“Navigating the Orofacial Respiratory Complex Epidemic: Trajectory for Health & Wellness”

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: ALL

This course compliments Friday afternoon’s “Navigating the Orofacial Respiratory Complex Epidemic: Creating a Flight Plan for Success” course by looking deeper at the systemic impact of orofacial myofunctional disorders, how our current practices contribute and negatively influence development and how simple steps and interventions can change the trajectory of a person’s health and wellness journey.

Objectives:

- Review of the orofacial respiratory complex influence on health and wellness
- Missing pieces in healthcare and our responsibility
- What happens when we “wait and see”
- A trajectory change through collaboration
- Case study samples
- Q&A

Speaker bio on page 43.

Dr. George Kushner & Dr. Brian Shumway
Ticket #: SAI 4

Saturday, August 27, 2022
2:00 p.m. – 5:00 p.m.

“I’ve Found This Lesion...Now What?”

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D ST H A

This session will be a three-hour clinical pathologic conference applicable to all members of the dental team. A series of clinical cases will be presented with the “thought process” involved to establish the diagnosis and treatment. The program will be clinically oriented, interactive and educational.

Learning Objectives:

- Review clinical presentations of common oral and maxillofacial pathology conditions that present in the dental office.
- Discuss common adjuncts to help establish the diagnosis of a pathologic condition such as biopsy, radiographs (including panoramic and CT scans) and laboratory tests.
- Review treatment, both medical and surgical, of common oral pathology conditions.

Speaker bios on pages 45 & 46.

Saturday, August 27, 2022
2:00 p.m. – 5:00 p.m.

“OSHA and Infection Control in the Dental Office 2022”

Sponsored in part by the Kentucky Dental Laboratory Association

3 Continuing Education Hours
FEE: \$100.00
AUDIENCE: ALL

Kentucky OSHA requires that all dental personnel be trained in the Bloodborne Pathogen Standard and the revised Hazard Communication/ GHS Standard. Dental personnel should receive an initial training and thereafter, an annual update. This course reviews the following standards and guidelines and offers suggestions on how to implement them in your office:

- OSHA Hazard Communication Standard/GHS Standard (must comply by June 1, 2016)
- OSHA Bloodborne Pathogen Standard
- CDC Dental Guidelines 2016
- The Needlestick Safety and Prevention Act
- U.S. Public Health Service Guidelines for the Management of Occupational Exposures to HBV, HCV, and HIV and Recommendations for Post Exposure Prophylaxis
- CDC Guidelines for Hand Hygiene in Healthcare

This presentation will provide a very practical approach to implementing the regulations and guidelines in the dental office.

Speaker bio on page 42.

Dr. Robert Harris
Ticket #: SAI 6

Saturday, August 27, 2022
2:00 p.m. – 5:00 p.m.

“The Clinical Use of Ozone in Dentistry”

3 Continuing Education Hours
FEE: \$95.00 Dentists \$75.00 All others
AUDIENCE: D ST H A

Upon Course Completion the participant will be able to describe:

- The science behind the mode of action of ozone gas, water and ozonated oils on hard and soft tissues.
- The clinical uses of ozone gas, ozonated water and ozonated oils for patient treatment.
- The proper monitoring of the ozone unit.
- The proper concentrations for clinical applications of ozone gas, ozonated water and ozonated oils.

Speaker bio on page 44.

9:00 a.m. – Noon

“Medical Emergencies in the Dental Office”

3 Continuing Education Hours
FEE: \$100.00
AUDIENCE: ALL

Medical emergencies can and do occur in the dental office. With advances in the medical field, we as dental practitioners are seeing and treating a significant medically-compromised patient population as outpatients in our dental offices. Fortunately, most of the emergencies that occur are treated appropriately and there is little harm to the patient. However, improper management of these emergencies can have disastrous results. Likewise, proper management of the medical emergency is no guarantee of a successful outcome.

This course will review common medical emergencies and management of these problems. Clinical “pearls” will be discussed that can hopefully lessen the chances of these emergencies. This presentation should be applicable to all members of the dental office team.

This course is approved by the Kentucky Board of Dentistry and meets the requirements for dental hygienists for provisions stipulated in 201 KAR 8:562.

Sunday, August 28, 2022
9:00 a.m. – Noon

CPR Certification

Basic Life Support
BLS Healthcare Provider Training

FEE: \$100.00
AUDIENCE: ALL

The Cardiopulmonary Resuscitation course will be conducted within the most recent updated guidelines of the American Heart Association. This course is three hours and will include adult, child and infant CPR, foreign body airway obstruction and an AED presentation.

Each participant will receive a two-year certification card the day of the class.

This course complies with the requirements of the Kentucky Board of Dentistry for dental hygienists for provisions stipulated in 201 KAR 8:532, for dental assistants for provisions stipulated in 201 KAR 8:530 and for dentists for provisions stipulated in 201 KAR 8:530.

9:00 a.m. – Noon

“Recognizing Drug Abuse in Dental Patients and KASPER Update 2022”

3 Continuing Education Hours
FEE: \$100.00
AUDIENCE: ALL

Drug abuse is a major health problem in America and impacts every dental practice as well as our families. Dental professionals can play a huge role in drug abuse identification, prevention and intervention. Emphasis will be placed on increasing your skills and abilities to recognize the signs and symptoms of drug abuse, refer suspected drug abusers for help and treat recovering patients in your practice.

This course will also discuss the Kentucky All Scheduled Prescription Electronic Reporting System (KASPER), as well as current State and Federal regulations important to the prescribing of controlled substances by dentists licensed to practice in Kentucky.

Kentucky Board of Dentistry Regulation for Continuing Education Requirement (KASPER) 201 KAR 8:532. *Dentists are required to complete 3 hours of continuing education that relates to the use of the electronic monitoring system, pain management or addiction disorders prior to renewing their license every renewal cycle.*

At the conclusion of this course, the participant should understand:

- The signs and symptoms of illegal drug use/abuse (oral, physical and psychological).
- Drug interactions with substances used during oral care.
- Communication strategies when working with active or recovering patients.
- Resources available to support patients and dental professionals.
- The use of the KASPER system and current State and Federal regulations important to the prescribing of controlled substances by dentists licensed to practice in Kentucky.

2022 Speaker Bios

Dr. Sean Aiken is originally from Atlanta, Georgia, but now calls Louisville home. He was an NCAA Division I athlete and team captain at the College of William & Mary in Virginia where he lettered for four years in baseball. He obtained a Master's Degree from Louisville's Medical School in Physiology and Biophysics before continuing on to Louisville's Dental School where he earned an additional Master's Degree in Oral Biology and his DMD.

Dr. Aiken earned the Community Outreach Scholarship and James C. Moore Scholarship for his academics and passion for community service while in school. He currently serves as the District 6 representative to the New Dentist Committee of the ADA. When not at the office, he enjoys working on house projects, spending time with his wife, Dr. Taylor Hodge, and their English Shepherd, Tucker.

Dr. Garth Bobrowski currently serves as Chairman of the KDA Council on Governmental Affairs and Chairman of the KDA Medicaid Dental Technical Advisory Committee (TAC). He is a Past President of the KDA and has served on many dental-related committees and boards. He is author of *OPIOIDS IN TODAY'S WORLD*, which was created as a guide for KDA dentists who treat patients with substance abuse disorders. Dr. Bobrowski also serves on

the Green County Health Board and is a community and religious leader in Greensburg, KY.

Patty Bonasso Byrd, RDH, BS is currently co-director of Infection Control at the University of Louisville School of Dentistry as well as in private practice.

In dental hygiene since 1978, Patty is a graduate of the University of Louisville Dental Hygiene Program. She received her BS in Occupational Training and Development in 2002. She is an active member of the

American Dental Hygienists' Association as well as past president of KDHA.

Having an accomplished background in several dental hygiene arenas, such as clinician, national speaker, corporate educator, faculty, sales, and author, she brings a wealth of experience and knowledge to her courses.

Dr. Robin Carroll is an assistant professor of leadership and education at the University of Southern Indiana. Before that, he was the principal of South Heights Elementary for 22 years. Over those 22 years, South Heights moved from the bottom of the state to a nine-time National Model School. Along with being a professor, he cofounded a leadership consulting business "Ideas Rule Leadership Consultants" whose

customers have ranged from school districts to multi-state electrical companies. Uncommon leadership skills and organizational culture are the same no matter what business you are in.

Jerry W. Caudill, DMD, FAGD, MAGD, CDC, CTCP, FPFA, FICD, FACD is the Kentucky State Dental Director and a Senior Dental Director for Avēsis Incorporated, a Guardian Company. Avēsis administers the dental benefits for four of Kentucky's five MCOs, administering an aggregate of over 1.1 million Kentucky Medicaid patients for Aetna, Humana-CareSource, Passport and WellCare.

He is a graduate of the UK College of Dentistry, a Fellow and Master of the Academy of General Dentistry and a Certified Dental Consultant by the AADC. Dr. Caudill is a board examiner for the Council of Interstate Testing Agencies (CITA Board) which administers the ADEX Board exam, recognized in 47 states and territories, including Kentucky. He has practiced in rural Kentucky, Tennessee and North Carolina and participated in treating Medicaid patients in all three states. Dr. Caudill also practiced over seven years in Dubai, UAE and Kuwait. He was the National Dental Director of a multi-state, 120-office DSO and Special Advisor and contributor to the Academy of General Dentistry National Taskforce on Corporate Dentistry. He is a former President of the North Carolina AGD and is a member of the ADA, KDA, LDS, AGD, KYAGD, ADEA, IAO, CITA and AADC. In addition, he is board-eligible in the International Association for Orthodontics, having completed over 500 CE hours and a five-year course of study in orthodontics from the United States Dental Institute. In 1991, he was among the first general dentists licensed in both general anesthesia & conscious sedation in Kentucky. Dr. Caudill has lectured extensively on Medicaid dental administration, both statewide and nationally.

Amanda Moore Chastain, MD, CCC-SLP, COM® - Pediatric Speech and Feeding Therapist, Certified Orofacial Myologist (COM), Certified TummyTime! TM Method Instructor.

Amanda is a Kentucky licensed Speech-Language Pathologist who holds the Certificate of Clinical Competency from

the American Speech-Language Hearing Association and is also a Certified Orofacial Myologist through the International Association of Orofacial Myology, providing very specialized services for infant and toddler feeding, digit sucking elimination, tongue resting posture therapy and oral phase swallow remediation. Amanda is the founder and director of The Speech Network, Inc., which started as a California-certified non-public agency collaborating with local school districts and regional centers to provide speech and language services for educational and early intervention teams that assess, diagnose and treat children with disabilities including Autism Spectrum Disorder, Childhood Apraxia of Speech, Orofacial Myofunctional Disorders, Developmental Delays and general Articulation or Communication Disorders. Because Amanda believes in being an active learner, the vision and goals of The Speech Network are always expanding and being refined to meet the ever-changing needs of the pediatric population leading to focused interventions for pediatric feeding and orofacial myofunctional disorders.

Amanda's professional education and development was specifically targeted toward the pediatric population from the time she entered the Communication Disorders Program at the University of Kentucky. She received a minor in Family Studies and a Bachelor's Degree in Communication Disorders from the University of Kentucky in 2002. Continued focus on childhood communication disorders in her clinical experiences throughout her Master's Program at the University of Cincinnati increased her knowledge and passion for working with children with communication difficulties, which she completed in 2004. Amanda had the unique opportunity of participating in a multidisciplinary internship at the Cincinnati Children's Hospital in the Department of Developmental Disabilities (now the Department of Developmental and Behavioral Pediatrics) and has since used these skills to interact with families and professionals throughout the early intervention process to ensure that these children received optimal services by incorporating a multidisciplinary integrated team approach to care.

Amanda's intensive coursework and continuing education in the area of Orofacial Myofunctional Treatment lead to her focused area of specialty that addresses thumb suckers, "tongue thrusters", open mouth postures and other orofacial difficulties in children and adults. She is currently the Vice President of the International Association of Orofacial Myology, co-teaches an IAOM Certification Track Course entitled, "Understanding the Orofacial Complex" and teaches "Guided Oral Movements with Active Patterning (GoMAP) for Infant and Toddler Feeding."

Ashley Clark, DDS, FACD is a Board-Certified Oral Pathologist currently serving as Associate Professor, Division Chief, and Laboratory Director at the University of Kentucky College of Dentistry. She has published over 40 papers and abstracts, authored the oral pathology sections of both *Dental Decks* and *Dental Hygiene Decks*, and is on the professional board for Digital Dental

Notes and Oral Cancer Cause. Her biopsy service offers free biopsy kits; please contact Ac1230@uky.edu.

Greg Grobmyer, DDS Editor-in-Chief of Practice Booster's *Insurance Solutions* Newsletter Editor of Dr. Charles Blair's *Coding with Confidence* Host of the *Dental Code Advisor* Podcast Founder/CEO, The Writing Dentist and Practice Therapy LLC

Dr. Greg Grobmyer practiced clinical dentistry in Tennessee for over a decade before chemotherapy from a cancer battle left him with numb fingers. Using the knowledge he derived from working with multiple practice consultants over the years, he began lecturing and coaching dental offices nationwide on their systems, culture, marketing and communications. In addition, he wrote on dental topics for numerous publications and websites. Outside of dental industry publications, he has also appeared in *Reader's Digest*, *New York Magazine*, *Men's Health*, *Slate*, *Insider Magazine* and others. He even spent a few years moonlighting in standup comedy. He is currently the Chief Editor of Practice Booster's *Insurance Solutions* Newsletter, an editor of Dr. Charles Blair's *Coding with Confidence* and *Administration with Confidence* books, and host of the *Dental Code Advisor* Podcast.

2022 Speaker Bios

Dr. Sam Halabo has run a state-of-the-art private practice in San Diego, CA for over 20 years and is an accomplished international speaker, author, and product evaluator. He is a graduate of Boston University's Goldman School of Graduate Dentistry and he completed a General Practice Residency at the Loma Linda Veterans Hospital. Dr. Halabo is an adjunct faculty member at the University of California at San Diego and an Editor for *Inside Dentistry* Magazine. He served as the director of dental care at the UCSD Homeless clinic in Pacific Beach, CA. He has been involved in product evaluations for both Catapult Education and *Clinicians Report* (CR) for many years and is proud and honored to share his knowledge and experience with those seeking to provide excellent dental care for their patients. Dr. Halabo lectures on a variety of topics with an emphasis on improving patient care and the dentists' enjoyment of their profession by combining technological and clinical advancements with the use of simple practice management and motivational tools. He is a member of the San Diego County Dental Society, California Dental Association, the American Dental Association, the Academy of General Dentistry, the Academy of Laser Dentistry and the American Academy of Cosmetic Dentistry.

Dr. Robert Harris began using ozone in his office in 1998. He presented the first "Introduction to Dental Ozone" course for practitioners in his office in 2002. He is a nationally and internationally recognized lecturer on the use of dental ozone. He has held faculty positions at Ft. Benning, GA., Dental Corps Post Faculty, University of Louisville School of Dentistry, Capital University of Integrative Medicine (Professor Emeritus Departments of Dentistry and Natural Medicine) and the American College of Integrative Medicine and Dentistry.

Dr. Harris has also held positions on the Board of Directors of the American Academy of Craniofacial Pain, the International Academy of Oral Medicine and Toxicology, Capital University of Integrative Medicine and the American College of Integrative Medicine and Dentistry. He was the Dean of Academic Affairs at Capital University of Integrative Medicine and chaired the Investigational Review Board (IRB). He was also Chairman of the Board of the American College of Integrative Dentistry and was also Chair of the Institutional Review Board. Dr. Harris began his private practice of dentistry in 1974 and currently continues in full-time private practice. In addition, he teaches hands-on "Ozone in Dentistry" courses at private offices in the United States.

Brandi Hooker-Evans RDH-ER, MHE is an experienced team trainer, motivational speaker and an engaging continuing education provider. Brandi has been a clinical dental hygienist since 2007. She uses her master's degree in health education as well as specialized adult learning tactics to help dentists and their teams achieve their highest potential as professionals. Brandi's training approach is encouraging and efficient, additionally her enthusiasm is contagious! Dentists and their teams swiftly adopt the skillsets and mindsets needed to achieve healthy patients and practices, all while being healthy providers!

Dr. Leslie Horn is a native of Inez, KY and received both her DMD and Certificate in Periodontics from the University of Kentucky. She was a member of the first dental class in the nation with more than 50% women and was the first female periodontist in Lexington. Dr. Horn is in her 29th year of private practice and is the owner of Beaumont Periodontics in Lexington. She has represented the state of Kentucky on the Executive Council of the Southern Academy of Periodontics, served as a delegate to the KDA and as an ADA representative.

Dr. Horn has been featured as a guest speaker many times in her career, including at the University of Kentucky 2019 Implant Seminar, MUSC Ortho-Perio, Nova Southeastern University and FDA speaker in Havana, Cuba.

Dr. Horn passionately pursues the advancement of periodontics and her skills. She is certified in Wilckodontics and presents at the courses and has traveled and trained at the Urban Vertical Ridge Augmentation course in Budapest, Hungary. She leads two Spear Education Interdisciplinary Study Clubs and participates in the prestigious Academy of Esthetic Dentistry.

Dr. Anne L. Koch received both her DMD and Certificate in Endodontics from the University of Pennsylvania. She is the founder and past Director of the Postdoctoral Program in Endodontics and Microsurgery at the Harvard School of Dental Medicine and is also the founder and past CEO of Real World Endo.

Dr. Koch is the holder of multiple patents, maintains a faculty position at Penn (Department of Endodontics) and serves as a

2022 Speaker Bios

member of the Board of Advisors for the University of Pennsylvania School of Dental Medicine. She is also a Board Member for the Center for Innovation and Precision Dentistry at Penn. Dr. Koch maintains an adjunct faculty position at the Harvard School of Dental Medicine where she has co-endowed the Diversity and Inclusion Program.

The author of more than one hundred and fifty articles in her specialty field, Dr. Koch has presented more than one thousand lectures, worldwide.

Tosha Kozlowski, RDH is founder of TOSH, Teaching Oral-Systemic Health. She's a science nerd at heart with a passion for connecting how the mouth directly affects the body. Tosha's been regarded as an expert in the field of dental hygiene, consistently producing over \$3,500 in daily production. Her skillset has allowed her to teach dental hygienists across the United States to replicate her production and

solidify a foundation of consistent results. Tosha bridges the gap between the science of oral-infection and the way we communicate it to patients. She understands patients won't say yes to treatment they don't understand.

Dr. George Kushner is a graduate of Temple University School of Dentistry. Dr. Kushner received his medical degree from the University of Alabama School of Medicine. He completed his Oral and Maxillofacial Surgery residency at the University of Louisville. Currently, Dr. Kushner is Professor of Oral and Maxillofacial Surgery at the University of Louisville. He is the Director of the Oral

and Maxillofacial Surgery Residency program. Dr. Kushner is the author of several publications and articles and lectures extensively throughout the country. He maintains a faculty practice in oral and maxillofacial surgery through the University of Louisville School of Dentistry.

Thomas Larkin, DDS is the founder of Proactive Oral Wellness (powhygiene.com). After attending the BaleDonnen preceptorship in 2013, he designed the first and only web-based training for dental phase-contrast microscopy and advanced prevention. An expert in dental start-ups and acquisitions, Dr. Larkin works closely with practices that desire to make the shift to

wellness models. His recent collaboration with Tosha Kozlowski has resulted in the launching of The Larkin Protocol and the Oral Systemic Mastery training events where dentists and hygienists

raise their level of expertise among a growing community of dental practitioners seeking more career and personal satisfaction.

Lisa Lee has 20 years of experience with Medicaid programs. Much of her career was spent in Kentucky State government with the Kentucky Cabinet for Health and Family Services. While at the Cabinet, Ms. Lee served in a variety of roles within the Department for Medicaid Services, including Member Services Representative, Director of Provider Services, Policy

Analyst, Deputy Commissioner and Commissioner. In addition, Ms. Lee served as the Program Director for the Kentucky Children's Health Insurance Program (KCHIP) for approximately 14 years. During her tenure as KCHIP Director, she led a successful outreach campaign that resulted in coverage of an additional 60,000 eligible children within Medicaid and KCHIP. In addition, Ms. Lee was instrumental in expanding Medicaid Services to childless adults in Kentucky as well as assisting with the creation of Kentucky's successful state-based exchange, kynect.

Ms. Lee retired from state government in 2016 and worked as a healthcare consultant for three years before returning as the Commissioner for the Department for Medicaid Services. Shortly after returning to her current position, a public health emergency was declared due to COVID-19. Under Ms. Lee's leadership, the state of Kentucky was a leader in the nation in terms of Medicaid enrollment during the COVID-19 pandemic. At the national level, she participated in several workgroups aimed at improving the health of children and delivered a variety of presentations related to Medicaid and the Children's Health Insurance Program.

Dr. Mark Nation graduated from the University of Louisville School of Dentistry in 2000 and completed his Residency in Advanced Graduate Prosthodontics and received his certificate in 2003. He has been a practicing Surgical and Restorative Prosthodontist since opening his practice in 2003. He was attending faculty at the University of Louisville from 2003 to 2017. He has focused on the most

complex restorative cases in the region with a focus on dental implant surgery and restoration. His current practice, Advanced Dental Solutions in Louisville, Kentucky, focuses on comprehensive full-mouth rehabilitation for the most compromised dentitions and previous reconstructions. Dr. Nation currently lectures around the US about dental implant care and trains general dentists in live implant surgical courses in his clinic. He has developed a comprehensive curriculum for delivery of implant care in the general dental practice and has been training general practitioners in these approaches since early 2019.

Dr. Adam Rich is the Kentucky State Dental director for United Healthcare Community and State. He is a graduate of the University of Louisville School of Dentistry with an AEGD from the University of Mississippi. He has been in private practice for 20 years in Dry Ridge, KY and served in the managed care space for over six years as Dental Director for DentaQuest Kentucky, Avesis Pennsylvania and United

Healthcare KY. Dr. Rich has been a member of the Army Reserves since 1997, with two Iraq tours, and currently serves the Army Office of the Surgeon General for the Dental Guard and Reserve in the rank of Colonel. He is a past member and president of the KY Board of Dentistry. His favorite pastime is waterskiing with his daughters.

Dr. Brian Shumway is an associate professor of Oral and Maxillofacial Pathology at the University of Louisville, School of Dentistry. He received his dental degree from The Ohio State University in 2003, followed by one year of advanced education in general dentistry at the Veteran's Affairs Audie L. Murphy Memorial Hospital in San Antonio, TX. He then completed a residency in Oral

and Maxillofacial Pathology and master's degree at The Ohio State University. He is a Diplomate of the American Board of Oral and Maxillofacial Pathology and a Fellow of the American Academy of Oral and Maxillofacial Pathology. He teaches in the dental hygiene, predoctoral dental and all specialty dental residency programs. He has an active clinical practice specializing in diagnosis and management of oral diseases and participates in the University of Louisville oral pathology biopsy service.

Dr. Brandon Stapleton grew up the son of a coal miner and dental assistant in Eastern Kentucky. He was the first in his family to seek doctorate level education and is proud of his roots and heritage, coming from a rural, working-class family. Dr. Stapleton is a proud alum of Alice Lloyd College, a one-of-a-kind institution located in the heart of Appalachia.

Dr. Stapleton is one of the first specialists to graduate from the University of Louisville's reinvigorated Prosthodontics Residency Program. The only program of its kind in the state of Kentucky, it is celebrated for producing some of the finest specialists in the United States. Board Eligible through the American Board of Prosthodontics, Dr. Stapleton has also earned his Doctorate in

Dental Medicine, a certificate in General Practice Residency, a certificate in Prosthodontics and a Master of Science in Dentistry from the University of Louisville.

Dr. Stapleton opened iDENTity Dental Studio in 2015 followed by iDS Smile Lab in 2018. He invests heavily in the practice and lab with his talents, but also in the latest technologies available in the dental industry. Both the office and the lab are 90%+ fully digital. He and his team embrace this era of dentistry and Dr. Stapleton's patients LOVE his approach, especially when that means fewer appointments and more precise restorations. In 2020, the American College of Prosthodontists recognized Dr. Brandon Stapleton with the Private Practice Prosthodontist Award for his contributions to the specialty of prosthodontics, advancing prosthodontics practice, exemplifying collegiality and community service.

Chosen as one of the top leaders in dental consulting by *Dentistry Today*, **Leonard Tau, DMD**, has dedicated his professional life to improving dentistry for both patients and other dentists.

After purchasing his practice, the Pennsylvania Center for Dental Excellence in Philadelphia in 2007, Len practiced full-time while consulting to other dental practices, training thousands of dentists

about reputation marketing, leading the dental division of BirdEye, a reputation marketing platform, and hosting the popular, *Raving Patients* podcast. He recently authored the book *Raving Patients* and the soon to be released *100 Tips to 100 Reviews in 100 Days*.

In 2018, Len cut down to practicing dentistry two days per week to focus additional time and attention to helping other dentists build broad and compelling online footprints that attract hundreds of new patients to their practices. In October 2021, he sold his dental practice, but continues to provide his patients dental care two days per week while commuting from Parkland, Florida, where he has resided since October 2020.

Len lectures, nationally and internationally, on using internet marketing, social media and reputation marketing to make dental offices more visible and credible as well as how to increase their case acceptance.

Dr. Pam VanArsdall graduated from the University of Kentucky College of Dentistry in 1990. She has a Master's degree in Public Health with a concentration in health behavior. She completed a Mini residency in Nursing Home and Long-term Care at the University of Minnesota School of Dentistry and an interprofessional training program at the University of Alabama Geriatric Education Center's Faculty

Scholars Program. Dr. VanArsdall practiced general dentistry for 13 years in Carlisle and Mt. Olivet, Kentucky. In 2003, she became a full-time faculty member at the University of Kentucky College of Medicine in Anatomy and Neurobiology. She conducted seminal research investigating a potential association between Alzheimer's disease and oral disease. Her related publications in the *Journal of the American Dental Association* and the *Journal for Dental Research* have been cited over 600 times by other researchers. In 2009, Dr. VanArsdall became a full-time faculty member at the University of Kentucky College of Dentistry, teaching geriatrics, public health and continuing to conduct research. She is the past Academic Dean of the University of Kentucky College of Dentistry and is currently the Division Chief of Dental Public Health.

Dr. VanArsdall has a holistic approach to health. She is a certified health and wellness coach, a certified mindfulness instructor and certified in plant-based professional culinary arts.

Tom Viola, R.Ph., C.C.P. has over 30 years of experience as a pharmacist, educator, speaker and author. He's earned his reputation as the go-to specialist for delivering quality continuing education content through his informative engaging presentations. Tom's sellout programs provide an overview of the most prevalent oral and systemic diseases and the most

frequently prescribed drugs used in their treatment. Special emphasis is given to dental considerations and strategies for effective patient care planning. As a clinical educator, Tom is a member of the faculty of 15 dental professional degree programs and has received several awards for outstanding teacher of the year. As a published writer, Tom is well known, internationally, for his contributions to several professional journals in the areas of pharmacology, pain management and local anesthesia. In addition, Tom has served as a contributor, chapter author and peer reviewer for several pharmacology textbooks. As a professional speaker, Tom has presented continuing education courses to dental professionals, internationally, since 2001. Meeting planners agree that Tom is their choice to educate audiences within this specialty.
