the all **NEW** RATA-

Now faster and more predictable!

Anatomy top to bottom

Five sizes of super-thin stainless steel in both deadsoft and firm ensure you have the best matrix band to restore every case.

- Non-stick and color coded
- Easy placement tabs

- Dead-soft and only 0.0016" thin
- NEW pedodontic size!

faster-more predictable-flash control

Optimized marginal ridge

Strata-G[™] Bands provide shape and guidance for developing the marginal ridge of Class II restorations without blocking your access.

ProfileBooster™ subgingival apron

Achieving a natural emergence profile in challenging cervical areas is easy with Strata-G™ Bands–it's built right in!

Firm Bands for challenging cases

A critical addition in the Strata-G™ kit, Firm Bands are specially tempered stainless steel and only 0.0015" thin. Their stiffer nature makes them ideal for unbroken contacts and extra deep or extra wide preparations. See reverse side for order information on Firm bands.

Be sure to check out the website at www.garrisondental.com for info on other innovative Garrison products, demo videos and our 6-month money-back guarantee.
