While supplies last!

TN001 **\$50**

TN001 Medium blades used for placement of composite material, gingival retraction to sculpt under free margins, and burnishing matrix bands.

TN002 **\$50**

TN002 Medium blade with medium plugger for contouring small Class I, II, V, packing composite material into conservative preparations and burnishing matrix bands.

TN003 **\$50**

TN003 Medium blade with large plugger for contouring large Class I, II, V, packing composite material into large preparations, and convex plugger tip to minimize pullback of composite material.
