PROVEN STRATEGIES

Paragon shares tried and proven strategies forged by over 30 years of in-office consulting with thousands of dental offices. No ivory-tower theories; just real-life strategies that produce.

COMMON SENSE SOLUTIONS

Paragon's common sense solutions for problem solving and growth acceleration provide practices with usable information based on simple, easy-to-implement steps.

LONG-TERM FOCUS

Because Paragon focuses on the long-term, many of their clients have partnered with them for over 20 years. They understand a long-term perspective is essential to a successful practice.

EXPERIENCE

Paragon brings breadth of experience and knowledge to dental practices having served small, medium, and large practices; rural, urban and suburban practices, single doctor and group practices.

CREDIBILITY

Because Paragon is intimately involved with hundreds of dental practices, they offer real-world credibility to what is working and what is not.

INTEGRITY

Paragon models integrity in their business and their message. Paragon believes it is essential for dentists to deliver what they promise with high professional and ethical standards that creates a win-win for everyone.

STRAIGHT TALK

Paragon's straight talk approach cuts to the heart of dental practice acceleration and growth. Dental professionals cut through the guesswork and get to results quickly.
