QUALITY IMAGES

Capture high-impact photos quickly and easily with this economically priced intraoral camera. EyeCam utilizes a fixed-focus lens and bright LED illumination to take crystal clear pictures. Intraoral cameras are widely recognized for their benefits toward improving patient communication and case acceptance.

EASY TO USE

A simple one-button operation eliminates the need for time-consuming training or a steep learning curve. Just plug EyeCam into your computer's USB port, download the driver software, and start taking pictures in minutes. It's that easy! Everyone will surely appreciate its ergonomic and ultra-lightweight design.

AFFORDABLE PRICE/HIGH ROI

At only \$279.95, EyeCam costs significantly less than many other popular intraoral cameras, giving dental practices the ability to have one in each operatory to maximize patients' access to photographic evidence of their oral health conditions. Clinicians know that trying to explain the need for Dental care to a patient is not always easy, so the EyeCam is here to help!

TECHNICAL SPECIFICATIONS

MORE PROTECTION/FEWER WORRIES

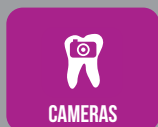

EyeCam comes with a one-year replacement warranty against manufacturer defects. But because intraoral cameras get so much use around the dental office, they are sometimes prone to damage by accidental means. Shofu has got you covered by a FREE Protection Plan on every EyeCam purchased.

If your EyeCam becomes inoperable or suffers non-warranty damage within the first year of ownership, you can replace it for \$150.00.*

If your EyeCam becomes inoperable or suffers damage within the second year of ownership, you can replace it for \$200.00.*

*Must return the inoperable or broken unit to receive Protection Plan replacement price.
