

# POWERING SAFETY

## University of Louisville School of Dentistry Sterilizer Monitoring Program

### Weekly sterilizer sampling program for dry heat and moist heat sterilizers:

- Service covers one-year period, including all supplies
- Written, cumulative results sent quarterly
- Immediate notification of any negative (non-sterile) results
- The same trusted people and systems used to monitor sterilizers at the University of Louisville School of Dentistry, one of the largest and busiest dental providers in the state
